FALSE INFORMATION
GIVEN DOMINION IMMIGRATION AUTHORITIES
By J. P. Murray, of Toronto Carpet Company, in Securing Admission Into Canada of Scotch Workmen.
Toronto, Sept. 9.—The dominion immigration authorities have taken action against J. P. Murray, director of the Toronto Carpet Manufacturing company, as the result of certain alleged statements made some time ago in securing admission into Canada of sixteen Scotch workmen, while a strike was on at the carpet works. A summons has been issued at the instance of J. P. Herbert, chief immigration inspector, charging Murray with having given false information to the officials. It is likely that the case will be proceeded with. The dominion officials have brought witnesses from eastern states and from various cities in Ontario to give evidence against Murray.

BUTTERFLIES CAUSE TROUBLE.
Millions of Them Stop Ball Game and Impeding Traffic.
Sisson, Cal., Sept. 9.—Butterflies in such countless numbers that their presence in the air is an obstacle to vision and their presence on the ground and on the shrubbery a plague have descended upon Sisson and upon the country hereabouts. Recently there was another plague, but then it is the plague of caterpillars, and it is the belief that the butterflies of to-day are the caterpillars of yesterday. The butterflies stopped a ball game for each movement of the players search from the bushes a swarm of insects so thick as to make it impossible to follow the course of the ball. Automobile traffic finds the butterflies a source of danger. Along the banks of the streams the butterflies are unusually dense, and the movement of the motor cars sends them into the air so thickly that the driver cannot see his direction. The insects also get into the "gloves" of the drivers and under the veil of women passengers. The pests invade houses, and in the yards they destroy, in a few minutes, all the leaves or plants and vines, leaving only the stems.

OSHAWA AND McLAUGHLIN.
The town of Oshawa practically presented Mr. McLaughlin with building and plant, the original cost of which was over a hundred thousand dollars. The corporation afterwards loaned this firm fifty thousand dollars for twenty years without interest at a cost to the community of twenty-two thousand dollars, and the present municipal assessment of his five hundred thousand dollar plant is forty thousand, while the tax on his employees are taxed to the hilt. Some time ago, to please Mr. McLaughlin and other carriage men of Canada, the Dominion government placed an arbitrary valuation on carriages for customs purposes, giving them added protection, and by which their profits were greatly enhanced, and under reciprocity their automobiles are protected, as already stated, to the tune of thirty per cent. a reduction of only five per cent. and still he kicks.

LETTER TOOK 21 MONTHS.
Dropped at San Diego, Just Reached Portland.
Portland, Ore., Sept. 9.—Travelling at the rate of two miles a day since it was mailed, Nov. 23rd, 1909, a post card addressed to Max Kaufman, a milliner, has just arrived in Portland from San Diego, Cal. Since the missive was mailed Kaufman has made two trips to Europe, and is at present in Germany. Just what the post card has been doing in the 632 days since it was mailed is a puzzle which the Portland post office clerks do not attempt to solve.

FATHER SUES FOR HIS SON.
Reading, Pa., Sept. 9.—H. G. Saylor, of Philadelphia, has begun habeas corpus proceedings against Calvin and Lillie Fritz, of this city, to recover possession of his thirteen-year-old son. The petitioner alleges that his son was but ten months old when the mother died, since which time he has resided with the Fritz family. The father is now able to provide a good home for his son, but declares the present custodians refuse to give him up.

Excursion to Western Canada.
The Grand Trunk railway system announces that on Tuesday, August 8th and 22nd, September 5th and 19th, 1911, home-seekers' excursions will be run to Western Canada, via Chicago and Duluth or via Chicago, St. Paul and Minneapolis, at reduced round trip fares. The double track line of the Grand Trunk to Chicago, appeals to the traveller, and with the superior train service offered, including the famous "International Limited," many passengers will be attracted this way. The route via Chicago, is interesting, requiring special attention. Inspection is not necessary. The sale of tickets is also authorized via Sarria and the Northern Navigation company's magnificent steamers. For further particulars apply to any agent of the Grand Trunk railway system.

SOME CROOKED STICKS TO CONVEY LETTERS
FEW OF THE MEN WHO ARE FIGHTING LAURIER.

Who They Are and Why They Changed—Something Interfered With Their Ambitions—The Political Troublers.
Montreal Witness.
The is Mr. Sifton, who is pursuing Sir Wilfrid Laurier and down the country like a vengeance? Mr. Sifton is a very rich man, who, because being a member of the Laurier government, he made much money, was hounded by the opposition till he resigned. Whether Sir Wilfrid Laurier had anything to do with his resignation we may not know. Mr. Sifton's alleged evil doings were the theme of Mr. Ames' illustrated pilgrimage in which, by the aid of a lantern, he set forth, wherever he might, the way in which the splendid resources of the west were being squandered and plundered. Because he has espoused the interests of privilege, Mr. Sifton is now a trump card of the party that formerly reviled him. He hunts in couples with his former caustic critic, Mr. Foster—a very good running mate, for did not Mr. Foster also turn upon his chief? Who is Mr. Bourassa, who says he is a friend of Sir Wilfrid Laurier, and in the same breath accuses him of falsehood and treason and servility to imperial interests? Mr. Bourassa, a descendant of the greatest of French liberal leaders in Canada, was in youth a follower of Sir Wilfrid, and much in his confidence. Mr. Bourassa was, however, one who could not be a follower of any one. He was an applicant for the deputy speakership, and did not get it. He is said to have been an applicant for other things. But

ARE FOR THE FACT.
James McRitchie, of New Scotland, a life-long conservative, whose brother is president of the riding's conservative association, will, with his two sons, support Archie McCoig, the liberal candidate. He is one of the most prosperous and best posted farmers of South Kent.

these are small matters and would not have satisfied him long. He must be a leader. So he took up the role of the Nationalist, whose dream to develop a French Catholic nation on this corner of the continent. He got all the Castors, clerical and lay, behind him, and a group of racially patriotic young men, and from some source a good deal of money, and, setting lance on rest, he went forth, as a mediaeval knight errant, to assail the giants of liberalism wherever found. Add to him Mr. Jean Prevost, whom he nominated out of the Gouin ministry in Quebec as a public plunderer—an achievement quite to his credit, what ever may have been the merit of his accusation. Mr. Jean Prevost, whom his enemies nicknamed Jean Sans-tête—John-Without-a-head—forthwith joined himself to his arch-enemy, Mr. Bourassa, as his understudy, and his cue is to denounce all liberals for the sins for which he himself had been denounced by his present chief.

WHAT PEOPLE WANT.
Conservative candidates in the west contend that their constituents want reciprocity by their own anxiety to substitute other issues for it. Dr. Schaffner, of Souris, writing to a conservative constituent, said that "you may not think with me on the reciprocity pact," and added that "I believe that on every other question we will agree, and there are many important questions." He offered to pay this man's expenses if he would be present at his convention. But the recipient of the letter thinks reciprocity the chief issue, and declined to be bribed.

Inspected Western Roads.
A. W. Gray, Frontenac County road engineer, and Reeve A. Rankin, have returned to the city, after being through the western counties in a course of inspection of the good roads. The party consisted of the engineers of all the counties, who journeyed together. The one thing that was most noticeable was the excellent drainage which the western roads have. The drains are all made of concrete. The object of the inspection was to decide upon some kind of road that will be most suitable for all the county roads. It is desired to have all the roads through the country alike if possible. There were twenty-five in the party altogether.

Married on Thursday.
On Thursday morning Frank G. Saunders, son of Mr. and Mrs. J. O. Saunders, Princess street, and Miss Marion, Grace Bennett, daughter of Mr. and Mrs. William Bennett, University avenue, were married by the Rev. R. S. Forster. The couple left on the noon train for Chicago, and western points.

Regarded as Worth While.
In 1910 the Canadian farm products which will, under reciprocity, enter the United States free, paid duty to the extent of \$1,850,000, as an entrance fee to the United States market. This is rather strong evidence that the United States market was regarded as worth while by a good many farmers.

To Go to Brantford.
Rev. Alfred E. Layell, of Norwich, Ont., has been invited to succeed Rev. T. J. Mansell, as pastor of the Brant Avenue church, Brantford. Mr. Layell has accepted the invitation subject to the approval of the stationing committee. He is a brother of Mrs. G. V. Chown, of Kingston.

Received Commission.
T. M. Graves, Ottawa, graduate of the Royal Military College, has received a commission in the Royal Welsh Fusiliers and leaves shortly for England.
Beef, iron and wine, 50c. Gibson's. On Sept. 2nd, at the home of Joseph Thompson, Goswood, a pretty double wedding took place. His eldest daughter, Miss Lydia, was married to Harold Walters, Bloomfield, and his second daughter, Miss Mabel, was married to Ross Vott, Calgary. Talcum powders, all kinds, at McLeod's Drug Stores. A system of radial lines operating Cherry Valley, East Lake road connections, and Picton, is a scheme being mooted at present. Colgate's toilet preparations. "Gibson's." A contract for a filtration plant doesn't at all clear science.

FOR FIRST TIME IN EUROPE BY AEROPLANE.

The Service Started in England on Saturday in Commemoration of the Crowning of Their Majesties.
London, Sept. 9.—The first official aerial postal service in Europe will start start to-day when letters will be conveyed by aeroplanes from the Hendon aerodrome to Windsor. The service will be in operation daily for a limited period. The aerial service has been instituted in commemoration of the coronation of their majesties, with the object of providing a practical test of the application of aeroplanes for postal service, following their adoption by naval and military services in all countries.

ASTOR MARRIED AT LAST.
A Retired Baptist Minister Tied the Knot.
Newport, R.I., Sept. 9.—Col. John Jacob Astor, divorced multi-millionaire, and Madeline Ford, were quietly married at Beachwood this morning by Rev. Edwin Straight, retired Baptist minister. The bride's father, William Ford, merchant of Brooklyn, gave her away, and Mr. Astor and his bride left on his yacht for nobody knows where. This ends another chapter of famous society scandals.

THE BOOM IS COMING

THE Porcupine Goldfields has, in our opinion, had its slump, and according to conservative mining men the big boom is coming—September 15 is the date set by them. We predict when this date is reached, the present market prices on

HOLLINGER—REA—MINES—DOME—EXTENSION—
SWASTIKA—VIPOND—PRESTON—EAST—DOME—FOLEY—
O'BRIEN—PEARL LAKE
will be increased at least 25 per cent. When gold stocks begin to go up they increase in value more rapidly than any other kind of securities. Our advice is, "Buy any of the above mentioned stocks immediately at market."
OUR SPECIAL CANADIAN WEEKLY MARKET LETTER WILL KEEP YOU POSTED ON THE PORCUPINE AND COBALT DISTRICTS.
SENT FREE UPON REQUEST.
WE WILL BE GLAD TO EXECUTE ORDERS FOR THE PURCHASE OR SALE OF ACTIVE, LISTED MINING STOCKS, EITHER FOR CASH OR ON MARGIN OF 33 1/3 PER CENT., AND WILL ACCEPT CERTIFICATES WHEN PROPERLY ENDORSED, AS COLLATERAL MARGIN AGAINST PURCHASERS.
