

### GREAT DANGER

#### Of Foreigners in the Chinese Kingdom.

### WARSHIPS SENT ON

#### CANADIAN AND AMERICAN MIS-SIONARIES IN DANGER.

Conditions are More Serious Than at Any Time Since the Riots Began—The Government's Railway Policy Has Caused Trouble.

Washington, Sept. 11.—Conditions in the Sze Chuen province of China, where Canadian and American missionaries and other foreigners are threatened by rebellious Chinese, are reported to the state department as more serious than at any time since the riots began.

American warships in Asiatic waters were ordered to proceed to the scene of the trouble.

The gunboats Saratoga, New Orleans and Helena left Shanghai Sunday for Nankin. The gunboat Eleanor is already at Hankow, the centre of the disturbances, and another vessel will shortly be dispatched there.

Reports to the state department reflect the grave anxiety felt through the Yangtze valley by all foreigners. It was reported that natives about Chentsi were preparing to attack foreigners. The Chinese government is promising protection, but seems unable to guarantee it.

One dispatch declared that the revolt was fanned by the opposition to the government's railway policy, whereby foreigners and particularly Americans were allowed to finance enterprises. Foreigners are concentrating at Chanking.

Great distress is still being felt from the floods in the lower Yangtze valley. The riots there, originally brought on by the prospect of famine, are now said to be directed at foreigners.

From Peking the department learned it was currently reported that Chentsi was peopled with anti-foreign placards, and that the natives were banding together and demanding in public meetings that Minister Sheng, of the department of communications, be removed. Sheng is held responsible for the Chinese policy.

### MISER ON STATE FARM.

#### The Famous Highwayman's Health is Broken.

Atlanta, Ga., Sept. 11.—"Old Bill" Miser, alias George Edwards, known to the police from Maine to California as a convicted train robber, highwayman and jail breaker, is to turn farmer of necessity. Recently, convicted of a train robbery in this state and sentenced to a convict camp, he began to fail in health, and the state prison commission has just ordered his transfer to the state farm. He is sixty-nine years of age, with a twenty years' sentence ahead of him. He escaped from the prison at New Westminster, B.C., a few months before he was convicted in this state.

### HATCHET MURDERER

#### STALKS THROUGH STATE

#### Has Already Killed Half a Dozen People and is at Large.

Portland, Ore., Sept. 11.—Two more victims have fallen before the mysterious hatchet murderer, for whom the police of Washington and Oregon are searching. Mrs. Daisy Wehrman and her four-year-old son are the latest victims. They were killed while in their cabin near Seaside.

A hatchet was used in the slaying, although both were shot, apparently after they had been struck down. The Hill family of Portland and Mrs. Coble, of Rainier, Wash., were killed in a similar manner by some person who entered their homes and escaped without leaving any clue. In the Hill and Coble cases, the women were assaulted, but in the case of Mrs. Wehrman the slayer seemed satisfied with murder.

### A CANDID STATEMENT.

#### From Men Who Could Change Any Old Price.

Forest, Ont., Sept. 11.—E. D. Smith, ex-M.P., Winston spoke here. Dealing with the fruit question, he said: "There are only three small places in Canada where peaches can be grown, parts of Essex, Lambton and Niagara districts. There are eight million people in Canada who eat peaches. Put the tariff wall high enough to prevent outside competition, and we can get just what we like for all our peaches."

### WHITNEY'S BROTHER

#### IS FOR RECIPROCIETY

#### Tells Sir James and the Public That His Loyalty is Sound.

Prescott, Ont., Sept. 11.—Amid rousing cheers at a largely-attended and enthusiastic meeting, the liberals of Prescott county, Albert Whitney, a prominent business man of Prescott, and a brother of Sir James Whitney, delivered a vigorous and earnest address in support of reciprocity. He declared himself strongly in favor of the agreement, which, he believed, would be a great benefit to all interests in Canada, and denounced the most vigorous language the suggestion that the larger markets obtained and the consequent development and prosperity would lead to annexation.

"I am heartily in favor of reciprocity. So far as I can see, the men who are leading the fight against it are certain millionaires of the city of Toronto. It will be a great thing for Canada. I will allow no man to charge me with being weak in my loyalty to the British empire, and this cry is one of the most foolish ever presented to the people."

Mr. Whitney's earnest and eloquent address was the feature of the proceedings.

### To Run for Parliament.

London, Sept. 11.—William Glyme Charles Gladstone, grandson of the great statesman, has been chosen by the liberals of Kilmarlock Burghs as their candidate for the vacancy caused by the death of Dr. Rainy. As Dr. Rainy had a majority of over 3,000 last December, the liberal candidate is sure to be returned. Young Mr. Gladstone, who is the owner of Harward castle and estates, and who was recently appointed land lieutenant of Flintshire, being the youngest man in Great Britain to hold such a position, has been for some time honorary attaché of the British embassy at Washington. He is the eldest son of William Henry Gladstone, M.P., who was the eldest son of the grand old man.

### FIRED THREE BULLETS

#### INTO YOUNG WOMAN

#### When She Repelled His Advances—Victim of the Shooting May Die.

Montreal, Sept. 11.—Julietta Vagnall, a domestic, aged twenty-two, is in a serious condition at Notre Dame hospital as the result of a brutal attack made on her by Nicholas Hayes, aged thirty-five, cigar maker, who drew a revolver and fired three bullets into her body when she repelled his advances. She jumped through a window bleeding profusely to escape him, and may die. Hayes is under arrest, charged with attempted murder.

The only manufactured articles admitted to the Canadian free list by the reciprocity agreement are cod-liver oil, salt, stove bolts, type-setting machines, certain brass rods, iron and steel sheets and plates, ground mica, and cast steel wire worth six cents per pound.

### SIR WILFRID LAURIER LABOR FAVORS

#### Reciprocity Between Canada and United States.

### THERE IS NO DANGER

#### EXCEPT TO THE POCKETS OF CAPITALISTS.

#### The Labor Unions Have Always Recognized Reciprocity—A Question of Great Interest to Labor Men.

Calgary, Sept. 11.—"Your executive does not hesitate to say that it believes that the reciprocal agreement between Canada and the United States is in the interests of the Canadian people" is the way part of a clause read that was presented today at Calgary, by the executive of the Trades and Labor Congress of Canada, at the opening session of their twenty-seventh annual convention, the delegates there represent many thousands of working men, members of the congress and in sympathy with international unionism.

The executive report on reciprocity continued:

"If other proof of this were wanting the fact that the Canadian Manufacturers' Association is against it, would be sufficient to prove it. Must be of some value to the workers. This organization is never tired of proclaiming its love for 'free labor,' because that helps its pocket. Reciprocity has long been recognized in the international trade movement, and we see no danger to anything but the pockets of a few interested-capitalists in permitting the people of the two countries to swap knives if they see fit to do so without the interference of a horde of customs officials. The trade union movement is better and stronger because of the freedom it enjoys in the exchange of benefits. The Trades and Labor Congress declared itself on the subject at Brockville and before the tariff commission, and should reiterate its position."

### HORSE RAN AWAY

#### And Spilled a Load of Lumber on Montreal Street.

Saturday afternoon a man named Belva, employed by the Davis Dry-Lock company, was driving a horse attached to a wagon in Montreal street. The wagon was loaded with lumber, and as the outfit turned up Clarence street the wheel struck the curb, throwing the driver off on the road. The horse became frightened, ran in Montreal street as fast as it could go, and when caught at the hay market there was not a board on the wagon. The outfit was damaged considerably after the rough jump and the lumber was stung all along the course, but outside of the fact that it took considerable time to gather up the load, nothing serious happened.

### CONSERVATIVES PLEDGE

#### SUPPORT TO LAURIER

#### The Premier Closes Ontario Tour at Windsor—Given a Grand Reception.

Windsor, Sept. 11.—Sir Wilfrid Laurier concluded his tour of Ontario with a magnificent meeting here Saturday. "The week I have spent travelling your province has been all too short," he told the great gathering. "I could wish that I could be with you longer. On Monday I return to my native province of Quebec, and I carry with me the assurance that Ontario will take a good part in the coming victory for the great policy so long dear to the hearts of the people of Canada."

The southwestern peninsula extended a royal welcome to Canada's "grand old man." Over ten thousand people thronged Ouellette square in the broiling sunshine and gave him a memorable reception. Conservative members of the liberal fellow citizens, in acclaiming the policy which he advocated, for, as A. H. Clarke put it, "everybody here wants reciprocity; even the children are crying for it." On the platform was Louis Wigle, former conservative M.P., to testify to his adherence to the principles enunciated by Sir John A. Macdonald, and no less than seven other conservatives took occasion, at the close of the meeting, to meet Sir Wilfrid and Hon. George P. Graham and tender them expressions of their support on the present issue of reciprocity.

### STRONGER IN NOISE THAN IN VOTES.

#### is Bourassa Movement—Senator Casgrain Gives Forecast of Results.

Toronto, Sept. 11.—Senator Casgrain, who was in the city en route to Montreal from Ometang, where he addressed a large gathering of French voters, said that the French conservative organization of Quebec has become merged in that of the nationalists. "The old conservative party," said he, "has ceased to exist in my province. There are fifty-five seats out of sixty-five altogether in which no straight conservative candidate is in the field. In the others he nationalists have made the conservative candidate acceptable to Mr. Bourassa. Some of these candidates are mere stragglers, who have become disciples of Mr. Bourassa, and whose candidature is not seriously regarded by our French Canadian electors.

"Of the eleven seats now held by conservatives we shall carry three or four, including Quebec west, and Sherbrooke. The nationalist-conservative combination may carry six or seven of our seats some. The senator says, because of faction fights, in Quebec province as a whole there may be fourteen oppositionists elected, about equally divided between old-line conservatives and nationalist conservatives.

"To those of us in touch with the situation the talk of quiet sending twenty to twenty-five opponents of Sir Wilfrid to the next parliament is absurd. The Bourassa movement is stronger in noise than in votes."

### SPEAKERS HOWLED

#### DOWN AT MONTREAL

#### Joint Conservative and Nationalist Meeting a Disgraceful Failure.

Montreal, Sept. 11.—The nationalist and conservative speakers united on Saturday night and held a joint meeting on Champ de Mars to oppose Laurier and the navy, and incidentally to condemn W. K. Hearst for his interference in Canadian politics. The meeting was widely advertised, and great efforts were made by conservatives, nationalists and the anti-reciprocity league to secure a large crowd, but less than 200 people were present. Not only did the audience get out of sympathy with the speakers, but two-thirds of the crowd left and listened to Mr. St. Martin, a leading socialist, who started a rival meeting at the other end of the Champ de Mars.
