TAKE IT AWAY

That's what our patrons say when served with Belfast Ginger Ale or English Ginger Beer that do not bear our label. Our bottled goods for family use have no superior. Sample it at any of the leading hotels or telephone 304 for a trial case.

Thompson Bottling Co. 292 PRINCESS ST., KINGSTON.

HOW TO TREAT HAY FEVER

TAKE "FRUIT-A-TIVES" IF YOU WANT RELIEF

Hay Fever is not a nervous trouble. The real cause is impure blood, due to defective action of bowels, kidneys and skin. In ninety per cent of the cases of Hay Fever, there is Chronic Constipation, Weak Stomach or Indigestion. This is proved by the fact that purgatives and other local treatments do not cure Hay Fever. One or two "Fruit-a-tives" every night will stimulate the bowels, kidneys and skin, and thus remove the poisons in the body which produce the fever and nervousness. "Fruit-a-tives" is the only medicine in the world made of fruit juices. 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

COWAN'S PERFECTION COCOA

Is rich in food value and easy to digest. It is just Cocoa, pure Cocoa, ground from the choicest Cocoa beans. Nurses and Doctors recommend its use in sickness or in health.

HIS ASHES WERE CAST

ON THE CATSKILL LAKES BY HIS FRIENDS.

Fraternity Friends Hold an Impressive Burial Ceremony at Brink of Precipice Near Haines Falls, N.Y. Haines Falls, N.Y., Sept. 9.—There was a melancholy scene here yesterday when the ashes of A. Bradi, of 157th street, New York, were scattered to the winds over the Catskill lakes by his fraternity mates in the Schweizer Winkler Mannerchor, of New York who in doing so carried out his last wishes.

Just before Mr. Bradi died last winter he expressed a desire to have his body cremated and that his ashes be scattered over the lakes of the Catskills and the Hudson valley, which he loved so well. For years he came here regularly, and always spent his time in this locality, which commands a fine view of the Berkshires, thirty-five miles away. Mr. Bradi was a bachelor, and reputed to be wealthy. Every year he was host when his friends in the Schweizer Winkler Mannerchor made their annual excursion to the Catskills. Yesterday he was not here to greet them, but they remembered him by distributing his ashes as he had asked them to do.

Meeting at the Laurel house about fifty members of the society marched to the Catskill lakes and held an impressive ceremony. It opened with a song, was followed by a few words of tribute and then, taking a handful of the ashes, the leader threw them into the air. As the wind was blowing in the wrong direction some of the ashes flew back and fell upon the party.

A hush fell on the members of the society and the few others present. Turning about and facing the precipice, near Jacob's Ladder the remaining ashes in the pail were cast toward the Hudson Valley. A brief prayer was said, and the society joined in singing a chant, and slowly marched away singing a gloria.

Pausing on the brink of the precipice the leader pronounced a benediction and recited a poem. All raised their hands toward the skies, spread them symbolically over the valley of the lakes and then slowly walked back to the hotel, later departing for New York.

PLAN TO DROP BOMBS INTO CITY OF JUAREZ

Need of Cash Motivates Magonist Bombardment of Border Town.

El Paso, Tex., Sept. 9.—Using scientifically constructed day kites, dropping nitroglycerine bombs from a high altitude, the Magonistas will make an effort to capture the city of Juarez on September 16th, if the leaders, who are now in El Paso, don't lose their nerve. September 16th is Mexican Independence day and the leaders believe that large numbers of dissatisfied Maderistas will flock to their ranks if a demonstration is made on the border city. Another more sordid and commercial reason for spurring the Magonistas on to plan the proposed attack, is need of money. The funds of the local junta are low. Likewise the Los Angeles junta is getting short of ready cash. The banks, customs house and stores in Juarez have a quantity of real money on hand. The Magonistas are holding regular meetings to discuss their plans.

BOURASSA QUITE WRONG.

Relatives of Victims of Quebec Bridge Were Helped.

Ottawa, Sept. 9.—Henri Bourassa, in his speech at Hull, said: "Not a cent for the widows and children of the victims of the Quebec bridge disaster, but millions for a naval navy."

Therein Mr. Bourassa falsified the record. The facts are that every family was compensated to the satisfaction of them all to the extent of \$150,000. While it is true that the sum came out of the treasury of the Phoenix Bridge company, it is also true that every cheque was certified to here in Ottawa and went out with government endorsement. Most of the victims being Indians the cheques were issued by the Indian department here. One of the conditions of the contract was that the Phoenix company should deposit \$100,000 with the government. It did so, but it was handed back to the company, because of the amounts it had to pay out to the victims of the bridge disaster and thus the government paid \$100,000 and the company \$50,000 to the sufferers. And Mr. Bourassa erred!

BOOSTS WINNIPEG.

Newspaperman Says City Increases at 1,000 a Week.

St. Paul, Sept. 9.—"The population of Winnipeg is increasing at the rate of 1,000 a week," was the booster's tidbit handed out by Charles W. Ames, of the West Publishing company, who reached home yesterday, after a vacation trip to Alaska. "All Western Canada is pulsing with speculation on account of the vast extent of the new railway work," said Mr. Ames, "and something with reciprocity. The temperature of the speculative fever may be ascertained by what we were told in Vancouver, that choice property was being held for \$6,000 a front foot, with a negative answer for an offer of \$5,500. The reciprocity campaign is stirring the entire Dominion."

A Righteous Protest.

New York, Sept. 9.—Prominent women in various walks of life in the metropolis, have raised a loud protest against the appearance of Beulah Ford, the seventeen-year-old sweetheart of Henry Clay Beattie, Jr., in vaudeville in this city. Her appearance, dressed as an actress, professional women and those prominent in club life, would be an affront to womanhood that should not be permitted.

Epirian Armour of 6th con. Bathurst had the misfortune of losing his line bars and shells on Saturday, last by lightning. Residue, sold at McLeod's Drug Store.

FRANCE'S BUDGET FOR NEXT YEAR

Carries Appropriations to Amount of 4,503,187,587 Francs and is Approved.

Paris, Sept. 9.—The cabinet has approved the budget for 1912. It carried appropriations amounting to 4,503,187,587 francs, or about \$900,763,517, an increase of the expenses provided for last year of 173,000,000 francs, about \$34,600,000.

Premier Caillaux submitted a project which will allow communes the privilege of operating municipal butcher stores and tenements, and in this way keep down the price of meat and rents.

M. M. Coubaux and Pams, the ministers of commerce and agriculture respectively, made a report on their investigation on the present high cost of living. The report stated that the same conditions prevailed throughout Europe. They thought the solution in France would consist in facilitating the importation of colonial cattle and simplifying the regulations governing the importation of American cattle.

AT DEATH'S DOOR.

Founder is Ninety Years Old—Can't Live Long.

MISS CLARA BARTON. Oxford, Mass., Sept. 11.—Bowled down by the weight of her ninety years, Miss Clara Barton, founder of the American Red Cross, is near death at her summer home in this town. In poor health when she came here, early the summer from her home at Glen Echo, Md., she has grown gradually worse. Her physicians said, that Miss Barton's strength had been greatly impaired by an illness from pneumonia some time ago, and that her extreme age had left her without power of recuperation. While death might not be immediate, the doctors believed that it could not be long delayed.

SOON OUT OF DATE.

The Letter Meter Promises A Revolutionize System.

New York, Sept. 9.—Millions of dollars are invested in collections of rare and disused postage stamps, and the number of incurable philatelists appears to be rather alarmingly on the increase. At the same time, the printing presses of the United States government, and of every other government on the face of the earth, are at work turning out countless billions of the little stickers that make the mails go. Every one of these stamps will have to be gummed upon a letter, card or parcel, and carried back and forth across the seas and up and down the continents—to what purpose?

PERJURY IN A LAWSUIT.

Mayor Gaynor Replies to Man Who Confesses.

New York, Sept. 9.—Mayor Gaynor, who was a Supreme Court Justice before he became mayor, received from a former New Yorker, now living in Los Angeles, a letter confessing that the writer had committed perjury in a lawsuit tried before Justice Gaynor, and thereby unjustly defeated the opposing party. The writer said he had since been convicted and wanted to confess, so that he might be forgiven. The mayor in reply wrote: "According to my views you have to do more than this to be forgiven. You have to make amends. Where anything is stolen or got unjustly it must be refunded before forgiveness can be expected. If the sinner be able to refund, that is the way I understand it. So you had better tell me what the case was, so that I may look it up and see what loss the defeated party sustained; and then you must restore his money to him or make good his loss. If this be not your view, I fear you are in error in supposing you have got religion and are a Christian."

EDDY WILL CASE.

Payment of \$72,000 to Church in New York.

Concord, N.H., Sept. 9.—The litigation over the estate of the late Mrs. Mary Eddy, founder of the Christian Science church, advanced another stage in the superior court here, to-day. Chief Justice Robert M. Wallace, who some time ago granted an injunction restraining the executor of the Eddy estate, Henry M. Baker, of Bow, from removing any of the property of the estate from this state, to-day modified the injunction so as to permit of the payment of \$72,000 to the Second Church of Christ, Scientist, of New York. Mrs. Eddy's will provided for the payment to this church of a sum not to exceed \$175,000 sufficient to pay off its indebtedness.

The payment of this bequest was assented to by counsel in the will litigation. Shooting in Maine. Bangor, Me., Sept. 9.—The season for shooting ducks began on September 1st, and conditions are good for the sport. On September 15th it will be lawful to hunt snipe, partridge and woodcock. The big game season opens October 1st, when it will be lawful to kill deer, and fifteen days later moose. The outlook for big game shooting is excellent. Mrs. Murphy, widow of William Murphy, Carleton Place, passed away in Almonte, on Aug. 27th, at the ripe old age of seventy-nine years. The workmen and their wives see that reciprocity will be a good thing for them.

SLAKES LIVE OVER GRAVE.

Battle Will be Necessary Before Grave Can be Removed.

New Orleans, Sept. 9.—A battle to the death with a den of rattlesnakes will be necessary before a baby's grave can be removed from beneath the crumbling ruins of Fort McComb, near the entrance, where workmen begin their operations next year preliminary to the erection of the proposed \$75,000 club house of the Louisiana Motor League.

The site of the old fort is a wild and weird spot. The moss-covered structures have crumbled away, leaving the large rooms, arcways, tunnels and underground chambers to the hundreds of venomous reptiles, spiders, lizards and other creeping creatures.

In the shadow of the walls of the fort a plain white headstone marks the grave of the infant of Sergeant Smith, which was born in 1888 and buried five weeks. Sergeant Smith was a caretaker, who lived near the fort with his wife, and during the twenty-three years since Smith departed the grounds of the fort have grown up with thick weeds and underbrush. A single plank serves for the primitive drawbridge that once aided soldiers in crossing the moat, now a ditch of mud and water teeming with slimy moccasins, rattlesnakes six feet ten and a half inches in length, with innumerable rattles, have been killed recently by fishermen near the fort. It is said that if a stone is thrown into the "chamber of death" where the big rattlers have their home the sounds of hissing and the shirring of rattles resemble the noise made by arousing a monster swarm of bees.

How the workmen expect to fight their way to the baby's grave to remove the body and then begin the work of clearing away the ruins of the fort have not yet been figured out by the contractors.

TOO MUCH GOLD THE CAUSE.

Scientist Assigns New Reason for High Cost of Living.

London, Sept. 9.—An interesting suggestion is made in regard to the increased cost of living, which, like an earth wave, has sent a tremor throughout Europe, causing food riots in France, an outcry against the butchers in Belgium, and protest against dearer meat and milk in Germany, while it is largely responsible for the labor unrest in England. This suggestion is that the enormous output of gold in recent years has upset the balance of prices and that the world has not yet shaken itself down to a true adjustment.

Statistics show conclusively that in England, on the continent, and in North America, nearly all the common and most necessary articles of food have been steadily rising in price since the century opened. Meat, especially bacon, in England the poor man's favorite food, milk, bread and sugar all cost more. It is calculated that there is a ten per cent. increase in the weekly budget of household expenses in England.

Prof. Chapman at yesterday's meeting of the British Association predicted that the next three years would be an area of strikes, due to the fact that, whereas up to 1896 the cost of living had been falling it had since then been rising.
