DOING A NOBLE WORK VESSEL WAS HELD UP

WORK OF THE YEAR WITH SALVATION ARMY. BECAUSE OF INSULTS TO PREMIER LAURIER.

The Officers Have Been Doing Splendid Work Among the Convicts Who Have Been Released—Great Progress in the Sunday School and the Various Branches.

The Salvation Army is recognized the work over, as a strong force in the religious field. For many years, the members of the army have been doing noble work. At no other point, has the army a more energetic band of workers, than in Kingston, and the record of the past year, is a most creditable one. The report which covers from Sept. 1910 to Sept. 1911, has just been issued by the officers in charge, Capt. and Mrs. H. Turner.

A summary of the report makes very interesting reading. It shows that during the year, 116 convicts from the penitentiary were met and interviewed by army officers. All of them received offers of work, friends, and assistance, and many of them were provided with all. Sixteen convicts were provided with overcoats, as they are not given overcoats when leaving the prison.

During the year, many meetings were held in the county jail, and several of the prisoners professed conversion, and are doing well.

In addition, meetings were held in the House of Industry, and during the warm weather, the inmates of this institution, were given an outing down among the Thousand Islands.

At Christmas time, everyone knows that the Salvation Army is always at work. This year they gave away seventy-five baskets and spent over \$100 in relief work. The members of the army never allow any person to go without a Christmas dinner, if they can help it.

The usual inside and open air meetings were held all year. The band, under the able leadership of W. Christmas, has been able to render valuable service. During the year thirty-five names were added to the soldiers' roll. Over two hundred young people's meetings were held, and the Sunday school has been steadily on the increase, under the leadership of J. S. Sergt. Major Downey. A boys' brass band is about to be formed. Bandmaster Walker has this in charge.

Mention should also be made of the carpentry and other classes taught by the army. Bandsman Rogers has charge of this branch.

At the present time, the army is making a special appeal for the yearly "house" effort, the proceeds of which will be devoted to carrying on the work in the poor and struggling corps of Canada. The local corps has been asked to raise the sum of \$350, and the army is deserving of liberal support from all classes.

Change of Time.

Would Fall in a Faint

When She Attempted to Work, so Exhausted Was the Nervous System.

The Feeble, Wasted Nerves Were Restored and Revitalized by

Dr. Chase's Nerve Food

Nervous prostration is a terrible disease to all who understand its symptoms. At times the sufferer feels comparatively well, but with slight exertion the dreadful helplessness returns and all strength and vitality seems to leave the system.

This letter from Mrs. Martin very well describes the terrible condition in which many a sufferer finds herself. She also tells how she regained health and strength by using Dr. Chase's Nerve Food after all other treatments had failed.

Mrs. Edwin Martin, Ayer's Cliff, Que., writes:—"Before I began using Dr. Chase's Nerve Food I was in a terrible condition from nervous exhaustion and prostration. Bigger spells would come over me and I would fall to the floor. The weakness was so great that I could not so much as sweep the floor without fainting, but the nerve food helped me after the doctors failed. It has done wonders in building up my nervous system. I can do my own housework now and washing and feel that this great medicine has been a God-send to me. I think it is the best of medicines."

Doing a Noble Work Vessel Was Held Up

Because of insults to Premier Laurier.

Marine men, arriving in the city, on Wednesday morning, from Coteau Landing, state that people in that district are worked up over an incident which occurred on the steamer Seguin there, when an effigy of Sir Wilfrid Laurier was hung on the vessel. It is alleged that a Kingston man, jubilant over the defeat of the premier, took a prominent part in the hoisting of the effigy. A despatch from Coteau Landing referring to the affair says:

"The people of this district are indignant over insults which have been directed at Sir Wilfrid Laurier and Dr. Lortie, the defeated conservative candidate in Sudbrough. On Saturday the Seguin, of the Canadian Lake Navigation company, arrived here on her way down the canal. The superintendent of the canal noticed a figure suspended between the two masts. On investigation, it was discovered that a label was pinned to the effigy bearing the name of the premier.

"The superintendent ordered the captain, who, it is understood, is an American, to take down the figure. There was quite an argument, and not until the superintendent refused the ship permission to go up the canal, was the effigy taken down. The superintendent then telephoned all the look-keepers to hold up the Seguin should the effigy be in sight when she appeared.

"On Thursday night at St. Peter's, Sir Wilfrid Laurier was burned in effigy and on Friday the rosy element created and destroyed an effigy of Dr. Lortie."

"One marine man, speaking to the Whig, about the affair, stated that the people around the locks would, no doubt, take up the matter, and there would be trouble in store for the guilty party or parties."

FOR THE NEXT THREE YEARS.

The Season is Closed on Certain Game Fowl.

Fish and Game Inspector Taudvin has received notice from the game department at Toronto that an order-in-council is being passed to prevent the purchase or sale of snipe, quail, woodcock or partridge for the next three years, beginning from September 15th, 1911. The order will likely be passed this week. This has come as a hard slap to the game hunters of this district, many of whom spend a great deal of their leisure time in hunting small game of this sort. The season on these birds was closed some time ago and only opened last year. After one season, the ban is put on again. The reason seems to be that these birds have been getting very scarce.

Best for Coughs.

INJURED BY A FALL

CAPT. TAUPIN FELL INTO HOLD STEAMER MIDLAND QUEEN.

The Steamer Pellatt is Still on Near Iroquois and in Bad Position—Her Cargo Will be Lightered—Marine Notes Around the Harbor.

Timothy Taupin, one of the best-known captains in this district, fell into the hold of the steamer Midland Queen, while the vessel was at Lachine and was seriously hurt. Word of the accident was received in Kingston, on Wednesday morning, and his many friends were very sorry to hear of the mishap.

Capt. Taupin, is close on to eighty years of age, and the accident will go hard with him. His home is in Montreal.

Freighters are Busy.

Now that the fall season is close at hand, the big freighters will have their work cut out for them from now until the ice skims the lake. The passenger boats have about wound up for the season, and this means added business for the boats that confine their selves to freight alone. In addition to this, a number of merchants along the lake figure on filling their warehouses with freight before the lake freezes, for they get their consignments much quicker and in greater bulk. Export shipments will be rushed along now, so that altogether it may be considered that the owner of the freighter will be reaping more money from now until navigation closes than he has all summer.

Close of Passenger Season.

Next Sunday will see the close of the passenger traffic in the steamboat line. The steamers North King and Caspian are off the route to the North King having made her last trip to Charlotte last Sunday, and the Caspian has been laid up for two weeks. The Kingston is off the route now, and the steamer Toronto is only making tri-weekly trips this week. She made a trip Tuesday and the last two trips made will be Thursday and Sunday. After that the strictly passenger boats will be no more.

Movements of Vessels.

The schooner St. Louis will load feldspar, at Richardson's wharf.

The tug Emerson, arrived with one coal-laden barge, from Charlotte.

The steamer Buena Vista, cleared Wednesday morning, for Rideau Ferry.

The steamer Eagan arrived in port, on her way from Erie, to Montreal, with coal.

The steamer North King has gone into winter quarters at Forwarder's wharf.

The steamer Sowards, and the schooner Julia B. Merrill, cleared for Oswego.

The sloop Ariadne arrived from Wolfe Island, with grain for Richardson's elevator.

The government steamer Scout arrived in port, Wednesday morning, from Prescott.

The steamer Westmount, loaded with steel rails from Sydney, passed on her way to Fort William, to-day.

The steamer Pellatt is still aground, near Iroquois, and report says that she is in such a dangerous position, that she cannot as yet, be released. A barge will be secured for the purpose of lightering her cargo.

At Swift's wharf, Steamer Altha was down, from a bay ports to-day; steamer Helena King came from Ottawa Tuesday evening, and went in Davis' dry dock for repairs; steamer Belleville down and steamer Dundurn up to-day; steamer City of Montreal was due to pass up to-day.

Forty New Street Lights.

In reply to enquiries, as to the additional street lights to be erected, Ald. Elliott states that as soon as the city council meets, its sanction of the corners selected for the forty new light will be secured, and the lights erected as soon as possible afterwards. It is expected that the additional lights will be all up before the first of November.

Money Back.

If "Merca" Ointment fails to heal cuts, burns, scalds, boils, ulcers, or sores of any kind, the druggists from whom you bought it is authorized by Foster Dack, Limited, Toronto, to hand you back your quarter.

No Word as to Power.

Ald. Elliott, chairman of the light, heat and power committee, has still had no word from Hon. Adam Beck as to the cost of Hydro-Electric power for Kingston. A price was promised before the first of August. Now the first of October is near at hand.
