It's A Bad Habit--

That of taking tonics for digestive troubles

Indigestion is usually cased by wrong food.

Drugs won't and can't cure the trouble, so long as the cause is continued, and anyone who tells you that they will is evidently ignorant of the facts.

The sure, quick way to relief is to remove the cause—change your mode of eating.

A good start is to begin on

Grape-Nut

with cream for breakfast.

Chew the crisp granules of this food thoroughly, as Nature intends food should always be eaten.

Grape-Nuts is made of Wheat and Barley and contains all the food elements in these cereals, including the Phosphate of Potash (grown in grain), put there by Nature for rebuilding Brain and Nerve cells.

Get into good habits. Eat right and let the change show you

FOOD FACTS.

What an M.D. Learned.

A prominent physician, of Rome, Ga., went through a food experience which he makes public.

"It was my own experience that first led me to advocate Grape-Nuts food and I also know from having prescribed it to convalescents and other weak patients that the food is a wonderful rebuilder and restorer of nerve and brain tissue, as well as muscle. It improves the digestion and sick patients always gain just as I did in strength and weight very rapidly.

"I was in such a low state that I had to give up my work entirely and go to the mountains of this state, but two months there did not improve me; in fact, I was not quite as well as when I left home. My food absolutely refused to sustain me and it became plain that I must change. I began to use Grape-Nuts food and in two weeks I could walk a mile without the least fatigue and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life.

"As a physician who seeks to help all sufferers I consider it a duty to make these facts public." Name given by Canadian Postum Co., Windsor, Ont.

Trial 10 days on Grape-Nuts when the regular food does not seem to sustain the body will work wonders.

OXO Cubes are the greatest advance in food invention since men began to eat and women learnt to cook.

Each cube is measured exactly—the right size for a cupful—uniform in nutritious properties, in quality, taste and flavor.

To make a meal, simply drop an OXO Cube in a cup, pour on hot water and stir.

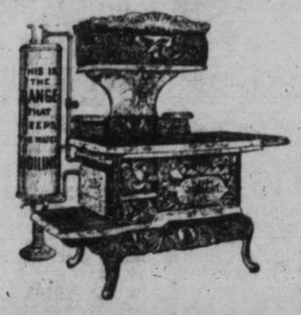
THE LEAST FUEL, THE MOST SATISFACTION,



Covers a Whole Series of Fine Features

The reason we sell so many Happy Thought Ranges is because while other ranges have one or two special features the Happy Thought combines all the good features known in modern range building. The most of them were originated by the makers of the

HAPPY THOUGHT

and are found in no other range. We have adapted and improved all the latest inventions in stovemaking, so that now we have achieved what they have been so long striving for—a range that gives perfect satisfaction.

Have you ever tasted a roast, prepared in the Happy Thought oven—cooked perfectly, yet retaining all its juicy, appetizing qualities? The reason for this is because the Oven Ventilation is thorough and effective. A current of fresh air, constantly circulating, keeps it fresh and pure.

This is only one of the host of special features that has made the Happy Thought so highly prized by Canadian housewives.

More than a quarter of a million "Happy Thoughts" are in daily use in Canada.
