When the people ask for bread it is an ill thing to give them the sword.

When the people riot for food a nation is in the vestibule of revolution.

By good sense and good fortune it may escape the extremity, but not often by bayonets.

Food rioting in France and Austria, striking in Spain and business embarrassment in Germany are symptoms of a trouble which will not be cured by government.

Here are two cases reported by Mr. Skinner which tell of continued failure to cure indigestion by dosing the stomach. Both were cured thoroughly by using Dr. Chase's Kidney-Liver Pills.

A. C. Skinner, Atlantic street, Hardwoodhill, Sydney, C.B., writes: "My wife was troubled with indigestion, and tried all sorts of medicines in vain. Hearing about Dr. Chase's kidney-liver pills, I got her to try them, and to our great delight she was cured. We would not think of being without them in the house for use when the liver and bowels became sluggish."

"I told a friend about them and gave me a box. He had suffered from indigestion for years and tried most everything he could get. Dr. Chase's Kidney-Liver Pills were also successful in his case, and he says they beat any medicine he ever came across."
