

BORDEN YIELDS

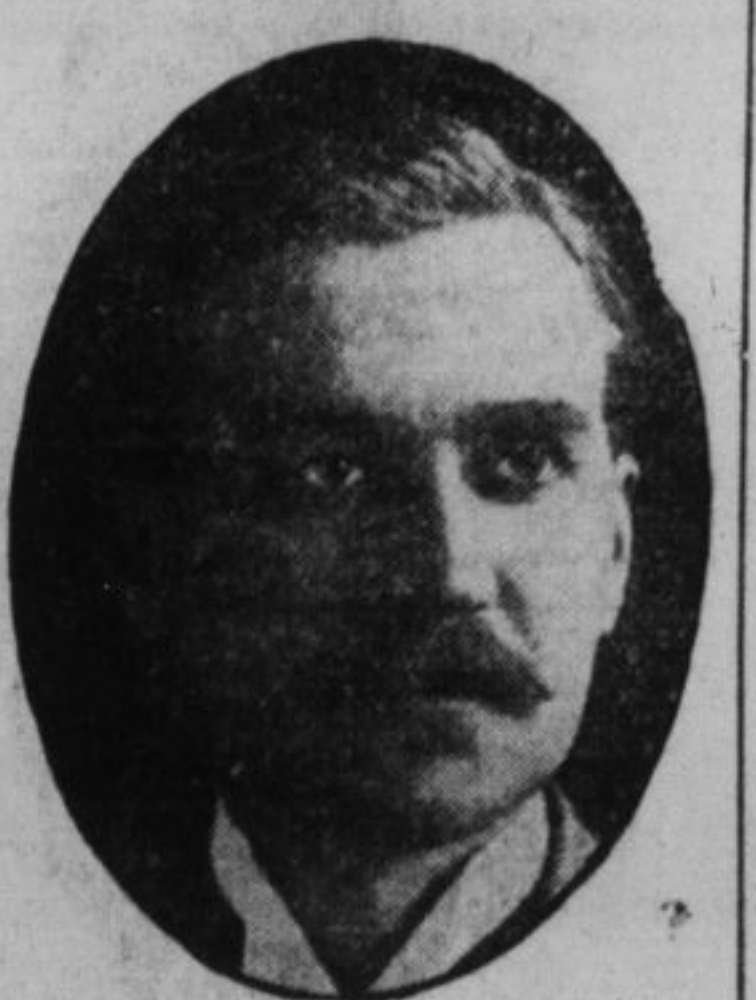

To Bourassa Who Named Men For Cabinet

ONLY ONE PROTESTANT

TO REPRESENT QUEBEC IN THE GOVERNMENT.

Premier Borden Was at His Wit's End Over Party Clamorings—The West in Arms Because There is No Farmer Minister.

Ottawa, Oct. 11.—It is interesting to compare the representation of the Protestant minority in Quebec with Mr. Borden as premier with that accorded it by Sir Wilfrid Laurier. It was frequently charged against Sir Wilfrid that under his administration the Roman Catholic church held too much of the balance of power, and Mr. Borden's accession has been heralded as almost to put an end to this. But Sir Wilfrid gave the Protestants of Quebec three ministers, one Hon. Sydney Fisher, with portfolio, and Sir Henri Joly de Lotbinière and R. B. Doherty without. Under Mr. Borden these same people have only Mr. Perley, without portfolio. The boasts that Mr. Bourassa would

HON. W. T. WHITE, Minister of Finance.

be disregarded here, it is very evident, not been quite fulfilled. Indeed Mr. Bourassa seems to have had quite a lot to say about the make-up of Canada's new government. The omission of Andrew Broder's name from the cabinet list will be a painful surprise to a large number of Canadian farmers. Until the last forty-eight hours everyone assumed that Mr. Broder was certain of a place, and both sides here expressed themselves as greatly pleased. Then, at the last moment, Mr. Broder was quietly dropped in favor of Martin Burrell.

Borden Almost Resigned.

Montreal, Oct. 11.—There is extreme disappointment among the Montreal conservatives over the personnel of the new Borden cabinet. It is openly stated that the difficulties which confronted Mr. Borden were so serious that as late as Friday night he was disposed to advise the governor-general that it was not in his power to form a cabinet. It was stated that Sir Hugh Graham was one of the men whose recommendations had to go to the wall and that he came back to Montreal a much disgruntled man. Sir Hugh's protégé, Mr. Marchal, was not chosen, while Mr. Pelletier, whom he opposed, was taken in to the cabinet. It is said that Sir Hugh secured the promise of the reversion of the high commissioner-ship.

The West up in Arms.

Winnipeg, Oct. 11.—The west is up in arms over the personnel of the Borden cabinet. The idea of Burrell, a fruit grower of British Columbia, being minister of agriculture is entirely

out of harmony with sentiment as it is felt here. Conservatives believe that Roche should be minister of the interior. The general opinion outside is that the superior influence of the nationalists of Quebec and the masters of high finance has been felt, and that the producers of the soil will come far short of having an almighty

voice in the administration of the affairs of Canada.

Northrup for Speaker.

Ottawa, Oct. 11.—W. B. Northrup, M.P. for East Hastings, is prominently mentioned as speaker of the commons, though no decision has yet been reached. Senator Landry will be speaker of the senate.

Hon. Martin Burrell, minister of agriculture, is the only member of the cabinet who has not yet arrived. He is on his way from British Columbia. A coincidence arises from the fact that the Borden government takes office just one week earlier than did Sir John Macdonald after the defeat of Premier Mackenzie, in 1878. At that time the defeated government took three weeks to quit, while Sir John required nine days to form his ministry.

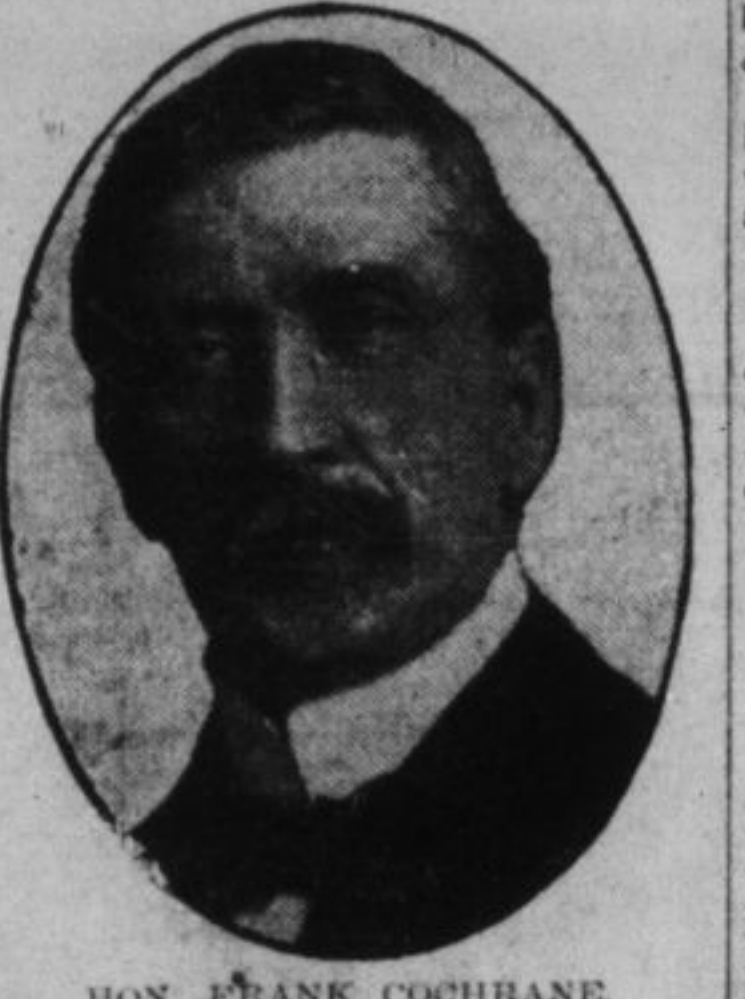

HON. J. D. HAZEN, Minister of Marine and Fisheries.

AN AGED OSWEGO CAPTAIN

Who is Called Father of the Yachting Spirit.

Oswego, N.Y., Oct. 11.—Capt. John Parsons, perhaps the best known sailor on the Great Lakes, celebrated his eightieth birthday, yesterday, at his home at the corner of West Seventh and Seventh streets. Capt. Parsons is widely known at all lake ports. He is really the father of the yachting spirit which was inaugurated on Lake Ontario by prominent residents of Oswego more than four decades ago, and nearly all of whom have since died. In 1875 Capt. Parsons built the yacht Sapho, which later was called the Vixen.

The idler, which for many years was the fastest yacht on Lake Ontario was built by Capt. Parsons in 1877. During his career, Capt. Parsons traveled extensively, having made a trip around the world during which he met with many exciting experiences. He possesses a most remarkable memory and is hale and hearty.

HON. FRANK COCHRANE, Minister of Railways and Canals.

THE TOWN OF GANANOQUE

An "At Home" Held by the Daughters of Rebekah.

Gananoque, Oct. 11.—Harmony lodge, No. 15, Daughters of Rebekah, held a largely attended At Home in Turner's hall, last evening. The Citizens' band orchestra furnished music.

The funeral of the late George Laughton, who passed away at Alexandria, on Saturday, was held yesterday afternoon from the home of his mother, Mrs. Joseph Laughton, Stone street, to Willow Bank cemetery. Rev. Henry Gracey conducted a short funeral service, after which Leeds lodge, No. 201, A. F. & M. took charge of the obsequies. The funeral was largely attended, and the floral tributes were numerous.

The Misses Essie De Long, Gussie Dempster and Hattie Conner, and Clifford Sime went out to Seeley's Bay, last evening, to take part in an entertainment.

Among those who took advantage of the cheap trip to New York City, yesterday, were Mr. and Mrs. C. J. Wilson, Mr. and Mrs. Bellis, and Mrs. Mrs. Charles R. Cotton.

Mrs. J. J. Moore, spending some time with relatives in Rochester, has returned home. Miss S. A. Cross, North street, has returned from a short visit with friends in the township.

GREEN ORANGES UNDER BAN.

Government Will Not Permit Shipment of Unripe Fruit.

Washington, Oct. 11.—The department of agriculture has prepared for confiscation of any shipments of unripe oranges or other unripe fruit from Florida.

Secretary Wilson, who has been in communication with the Florida agricultural authorities, announced, yesterday, that any attempts to ship artificially ripened fruit out of Florida or to "process" unripe fruit on its journey to the north would be the signal for government action.

Andrew Brennan, a prominent conservative of Stormont, was found dead at his home.

A SHORTAGE IN BARRELS.

The Apple Crop in Nova Scotia the Largest Known.

Knoxville, N.S., Oct. 11.—Exceeding 1,500,000 barrels, the apple crop in Annapolis valley, the most prolific apple producing section in the world, is larger this year than ever before known in the history of apple growing in this country. The problem which now confronts the growers is to get enough barrels to hold the crop. Farmers are finding it hard to purchase barrels at forty cents each and can obtain only a limited supply. Many are picking and storing apples in bins until a supply of barrels can be had.

A TELEPHONE GIRL SAVED THE REPUBLIC

She Warned the Authorities Before the Royalists Cut the Lines.

Lisbon, Oct. 11.—A quick-witted telephone girl at Vinhais, a town on the Spanish frontier, which has been a centre of royalist activities, has perhaps saved the Portuguese republic.

When the royalists arrived there she called up the authorities at Braga and succeeded in notifying them before the royalists cut the wires. As a result of the girl's warning the royalists were surprised and defeated with losses estimated at 150.

BLAMES FLIES FOR LOSS

Of Six Thousand Lives a Year in California.

Berkeley, Cal., Oct. 11.—Ordinary house flies cost annually six thousand lives and an economic loss of \$18,000,000 in California alone, according to a report issued by the university of California.

William R. Herms, assistant professor of entomology, who prepared the indictment against the flies devoted five years to investigating them. Flies, he finds, transmit typhoid, dysentery, tuberculosis, "pink eye," and under certain conditions, leprosy, erysipelas, small-pox, plague, trachoma, Asiatic cholera, sleeping sickness, and many other diseases. This they do mostly by planting a colony of germs wherever they put their feet down.

Thousands of deaths among infants, Mr. Herms holds will be averted when mothers and nurses learn to keep feet from crawling on the faces or hands of babies.

GERMANY FACES A GRAVE FOOD DANGER

Increase in Prices Causes Serious Misgivings as to Coming Winter.

Berlin, Oct. 11.—It is not without serious misgivings that the coming winter is being regarded. It was a splendid summer, but there was a drought throughout the country, and the price of food has risen so enormously that many persons see ruin staring them in the face. Economic experts regard this as Germany's greatest danger for months to come, and steps are already being taken to guard against the suffering that the enormous rise in prices will cause.

Among other measures which are being demanded is the importation of American canned meats—a commodity which has been prohibited in Germany for the last few years. Whether the government will yield to the stress of public opinion in this respect remains to be seen, but there is little doubt that some step will be taken in order to meet the necessities of the case.

GLAD TO COME TO CANADA.

Duke of Connaught Says So—Will Visit Eastern Cities Soon.

Montreal, Oct. 11.—A special correspondent on the Empress of Ireland, cables that he has interviewed the Duke of Connaught, who said: "Everybody knows that I am most glad to return to Canada, whose acquaintance I first made forty-two years ago, and renewed in the nineties while on my way to India. I shall be delighted to be in the dominion once again."

The winter programme of the royal highness will include visits to the important cities in Eastern Canada. Montreal will not be visited until November 1st.

TURKS WERE BEATEN OFF.

After Determined Attack on the Italian Troops.

Rome, Oct. 11.—Official word was received here of fighting early yesterday when Turkish irregulars made a determined attack on the Italian defenses in inner Tripoli, and were beaten off only when vessels of the fleet in the harbor turned on their searchlights and used their guns with powerful effect. The Italian casualties numbered hundreds and the Turks also left a large number of dead on the field.

It is rumored here that many of the Italian casualties were caused by the fire of Italian ships' guns, badly aimed and falling short into the Italian troops.

THE BYE-ELECTIONS FIXED

Ottawa, Oct. 11.—The Borden cabinet to-day appointed this treasury board: Hon. Messrs. Foster, Doherty, Monk, Cochrane and Rogers.

The nominations for the bye-elections for the new ministers will be on Oct. 25th.

Meeting of the Cabinet.

Ottawa, Oct. 11.—There was a meeting of the new cabinet again this morning, at which the new ministers got used to the feeling of leather chairs in the council chamber, and discussed some small matters, which demanded immediate attention. After it was over they went off to their respective departments to become acquainted with their staffs. They leave in a body this afternoon for Quebec to greet the new governor-general, and Ottawa will be dead till their return.

Fortier, of Fort Erie, aged eighty-six, was placed under suspended sentence by Justice Middleton, after he had pleaded guilty to committing an indecent assault on a young girl, under fourteen years of age, who is now in the Alexandria Home, Toronto. THERE IS HOPE

That All Other Hostilities Will Be Suspended

IF TURKEY ASSURES

THAT SHE WILL NOT INTERFERE WITH TRANSPORT

Of Italian Troops to Tripoli—The Powers Will Decide Cretan Question in Favor of Porte if Turkey is Conciliatory.

Berlin, Oct. 11.—Although Germany insists that the time is not ripe for an offer of mediation to end the war between Turkey and Italy, pending the completion of the Italian occupation of Tripoli, the government is endeavoring further to localize the hostilities and prevent fighting in the Red, Aegean and Adriatic seas.

If Turkey will give assurances that she will not interfere in the transport of the expedition of Tripoli, there is hope that all other hostilities will be suspended. The prolongation of war movements outside of Tripoli presents great risks to international shipping, and it is even feared that the service on the Suez canal might be interrupted. The landing of the Italian expedition is said to present difficulties not anticipated. The weather on the Tripoli coast has interfered and it will be at least a week probably before Italy is ready to treat with Turkey.

It is learned in diplomatic circles that Italy probably is willing to indemnify Turkey to the extent of about \$12,000,000, but it is a question whether she is still willing to recognize Turkish suzerainty over Tripoli in any form. Popular feeling and desire to avoid future sources of conflict may have changed the attitude that Italy held before the war began.

The Cretan Question.

Athens, Oct. 11.—It is stated here to-day that the powers have intimated to Turkey that if she acts in a conciliatory manner in the matter of a settlement of the dispute with Italy over Tripoli, they will decide the vexed Cretan question in favor of the porte.

WANT BORDEN TO BACK THEM.

Will be Asked to Make Statement on Behalf of Tariff Reformers.

London, Oct. 11.—E. A. Goulding, M.P. for Worcester, is going to Canada. The Manchester Guardian asserts that he intends to interview Premier Borden with the idea of obtaining some pronouncement from him which would be of use to the tariff reformers here. Protection is to be disguised partly as an imperial preference, and the Canadian elections are to be held up as a great object lesson.

The Guardian adds that so far Mr. Borden has spoken no word, nor is there any reason to suppose that the new government of Canada intends lowering the tariff in order to please the British disciples of Chamberlain.

REVOLUTION AGAIN HAS BROKEN OUT

In Various Parts of China—British Gunboats Ordered to Scene.

Peking, Oct. 11.—A revolution has broken out again in different parts of the empire. The revolutionists have captured Wu Chang, the capital of Hu Pei province, where trouble was reported for some days. The commander of the government troops was killed, with many of his soldiers. Population six hundred thousand.

London, Eng., Oct. 11.—News of a fresh outbreak of revolution in China is regarded here as very serious, and English gunboats are ordered to proceed at once up the river to the affected district. Private despatches here say the women and children of foreigners are taking refuge on steamers and are sailing for Peking. It seems that a large part of the government army went over to the revolutionaries, and they have several modern guns and thousands of the latest rifles.

BISHOP FALLON SCORES THE HIGHER CRITICS

Undermining the Faith of the People—Eucharistic Congress at London.

London, Oct. 11.—The first diocesan eucharistic congress in Ontario, possibly in Canada, was held in St. Mary's church, yesterday, closing with the benediction of the blessed sacrament, last night.

Bishop Fallon preached, and in the course of his sermon made forceful reference to the higher critics. "Today," he said, "there are so-called Christians crucifying Christ anew. In this very age, at this very hour, in Canada, not many hundred miles from London, are men in the pulpit denying the Virgin birth. Isn't it a hideous thing to think that from Christian pulpits there are men who, with one stroke, would destroy every possibility of a logical Christianity? In the hurry and bustle of the age you may not realize how serious it is, but they are undermining the faith of the people. I say to you, isn't it a good thing that there is the old Catholic church left, with its faith in the inspired scriptures?"
