

## TOWNS FALLEN

### Into the Hands of the Chinese Rebels.

## HAS TAKEN TWO YEARS

### TO PERFECT PLANS FOR THE REVOLUTION.

The Revolutionists Have Members in All Government Offices—To Leave Capture of Peking and Shanghai to Last.

Peking, Oct. 13.—Chinese reports state that I-Chang and Yochou Fu, southwest of the Yangtze river, have fallen into the hands of the rebels, and that Chun King is in danger of capture. The members of the cabinet admit that the garrisons at Paoing Fu, in the province of Chi Li, seventy miles from Peking, at Tien Tsin, and even at Peking itself, are honeycombed with rebellion.

Eight train loads of troops started yesterday from Paoing Fu province of Chi Li, for the affected district. The revolutionists have informed the consuls at Hankow that they will respect all treaties and loans and indemnities contracted by the Chinese government. A well-informed revolutionary sympathizer, told the Associated Press yesterday that the rebels probably would leave the capture of Peking and Shanghai to the last, because of the danger of foreign complications. He said that they had been two years in perfecting their organization, and now have members in all government offices. The national assembly showed revolutionary tendencies last winter, and the re-assembling of that body in a fortnight is regarded with anxiety. The provincial assemblies, almost without exception, are anti-government.

### Leader in United States.

New York, Oct. 14.—The first news of the presence in this country of Dr. Sun Yatzen, hailed as president of the Utopian Chinese republic, to be born, if the present revolution is successful, was announced in New York yesterday afternoon by the publishers of the Chinese reform news, a tri-weekly issued in the interests of reform in the Chinese empire. It was no news in New York's Chinese quarters that the accredited brains of the uprising was still in the United States. He has been lecturing, and, according to Chinese here, has sent more than \$200,000 to China to further the cause of revolution.

### SWISS SHEPHERD'S STARVATION

#### Lived Fifty Years in Dire Poverty to Save Money for His Sister.

Geneva, Oct. 13.—A strange case of a brother's fifty years voluntary starvation, was brought to light by the death near Lucerne this week of a Swiss shepherd near Dangeli.

Dangeli, who was seventy-seven years of age, was found lying on some straw in a barn in the village of Nebikon, near Lucerne. He was in the last stages of exhaustion, and was starving.

The farmer and his assistants, who found the man, sent for a doctor, and Dangeli told his story to him.

"My papers are correct," Dangeli said. "You will find that I am wearing three suits of clothes. In each of the suits are pockets in which you will find altogether \$6,400 in notes and shares.

"For fifty years I have worked in France as a shepherd, and I saved almost every penny of my earnings for my sister, who lives in Escholzmatt. I walked from France to Lucerne so that my sister, who is an old woman and unmarried, will benefit by every farthing of my savings. My life has been a purgatory."

The money was found on Dangeli, and will be given to his sister. She states that she long ago believed him to be dead, as he has never written to her.

### GRFY VISITS CONNAUGHT.

#### Pays an Unofficial Call, by Request, Upon His Successor.

Quebec, Oct. 14.—Earl Grey did not finally leave Quebec till after Thursday, midnight. He boarded the Empress of Ireland at nine o'clock. The Duke had wired:

"Dear Grey—Would very much like to see you tonight at nine o'clock, if possible, Connaught."

On the Empress a gangway was prepared and after the tender bearing the Earl drew alongside, unknown even to the shore officials, it was put from her to the tender.

A line of stewards cleared a passage on the Empress, and the Earl came aboard, bearing a magnificent bouquet, and proceeded to the saloon, where the Duke and his suite were assembled.

Earl Grey had a long conference with his royal Highness, and finally departed by the Intercolonial at midnight to join the Allan liner, "Victorian," at Rimouski.

The visit was an entire secret, though arranged early on Thursday morning.

The Ontario government may appoint a commission to develop the clay belt in North Ontario.

### DAILY MORANDA.

Five furs and hats to meet. The Campbell Bros., Princess Street. The Private Secretary, Grand Opera House, 3:15 p.m.

### FIXED NURSE FOR GOING ON THE TRACK.

#### To Rescue a Little Girl Who Was About to Be Run Over.

Colombo, Ceylon, Oct. 13.—A native ayah (nurse) recently took out two little children for a morning's promenade. The younger child broke away from the nurse and ran on to the railway line just as an express train came in sight.

The ayah ran after the child and was able to snatch it from the line before the train passed. She saved the child's life but the railway company took proceedings against her for trespassing on the line.

### MADAMOISELLE A SPY.

Lipsic, Germany, Oct. 14.—Mademoiselle Louise Thiron, a French teacher, who was arrested as a spy, charged with having obtained from a German officer the secret mobilization plan of the German army, was yesterday, convicted of spying and sentenced to six months' imprisonment.

### SOULS SAVED AT \$70 EACH.

#### Boston Pastor Says 200 Conversions in His Church Cost \$14,000.

Boston, Mass., Oct. 14.—The Rev. Herbert S. Johnson, pastor of the Warren Avenue Baptist church, declares that the cost of saving souls in his church during the last year was \$70 each.

"There is only one way by which one can obtain the approximate cost of saving a soul," said Mr. Johnson, "and that is by taking the cost to run the church and dividing it by the number of apparent conversions made in a year. It costs us \$14,000 and we had two hundred apparent conversions making a cost of \$70 a soul."

### "IS BIGAMY WICKED?" ASKS PASTOR IN JAIL

#### Insists After Arrest That He Has Done No Moral Wrong.

Joliet, Ill., Oct. 14.—"I am not a criminal in the eyes of God. It's only your American laws that make me one," declared the Rev. John Horton, Congregationalist minister of Beecher, Ill., from a cell in a county jail in Joliet, where he was placed charged with bigamy.

Mr. Horton has a wife and three children in England. Last Saturday he was married in Chicago to Miss Annamaria, a member of the church of the Beecher Congregational church. He came to the United States from England only five months ago. He was assigned to the Beecher pulpit through the Moody Institute of Chicago, in May and occupied the pulpit until September 24th, when he resigned to accept a call to a Congregational church in Steubenville, Wis.

Before the ceremony, according to the prisoner's story, he informed Miss Horton's parents that he was already a married man, although he had not lived with his wife for ten years. They entered no objection to the wedding, he says.

### DRESS RUINS HOMES.

#### SAYS WOMAN PASTOR.

Fashion is Great Foe to Christianity and Health, Declares the Rev. Myra C. Hoyt.

Brookton, Mass., Oct. 14.—Fashion, according to the Rev. Myra C. Hoyt, pastor of the Free Baptist church, wrecks homes and is a foe to Christianity. "Silly women," she says, "spile enough false hair on their heads to fill a basket and foolishly run the risk of infection. You can't improve on nature. Why try? High, tight collars choke the wearers and shut off circulation. Ear rings are foolish. American women hold their heads high with pride at being freer than any of the other nations. Yet they meekly bow submissively and wear the yoke of fashion. The French people and their dressmakers are to blame for the usurpation of Christian simplicity by pagan servitude, in dress. There are other fashion centres where they make a trade of women's health, but Paris is the culprit.

"Fashion is the great wrecker of the home. It is a foe to Christianity. Women who labor in the shops here neglect their homes, their families and their church for dress. The folly of wanting to look like other women causes more strife for separate support than any other one thing."

### THE YUKON OUTPUT IS ABOUT \$4,500,000

#### Steady Increase in Production of Gold is Looked For.

Vanouver, B. C., Oct. 14.—Gold production of the Yukon district this year will be about \$4,500,000, or about \$250,000 in excess of the output in 1910, according to R. E. Stockton, of the auditor-general's department at Ottawa, who has returned from Dawson. Mr. Stockton has exceptional facilities for gaining correct information, as he audited all the government accounts, including the gold royalties of 24 per cent. The Yukon Gold Company controlled by the Guggenheims, had seven dredges in operation this past season, which has not yet closed, and were also extracting gold by other methods. Other companies are also doing considerable work. Mr. Stockton looks for a slow but steady increase of gold production in the Yukon.

## WARM WELCOME

### Given by French-Canada to the King's Uncle.

## IT WAS THE GRANDEST

### EVER GIVEN TO ANY GOVERNOR-GENERAL.

Anglican and Roman Prelates Sat Side by Side—Affectionate Comment Heard on All Sides as the Procession Passed.

Quebec, Oct. 14.—What does Quebec think of the new governor-general of royal blood who assumed office on Friday with ceremonies of rare impressiveness? The answer was given not merely by the cheering thousands who voiced their welcome and their loyalty in one continuous roar of applause, which echoed from lower town to upper town, and from the King's wharf to St. Louis Gate, and the very corner chamber of the parliament buildings. It found expression in the decorations of the buildings along the route, stores and other business houses bearing French names being even more profusely decked than those of their English neighbors, and, moreover, it was the Union Jack which was almost invariably displayed, the tri-color being used less generally than on any other of the occasions on which Quebec has had reason to celebrate.

Still more significant were the remarks of those who hung over the parapets awaiting the opportunity to join their voices in the great chorus of acclaim. On all sides were to be heard the most cordial comments, and after the procession had passed, and the cheering at any particular point had somewhat abated, the comments were almost affectionate.

In the council chamber itself, that wonderful riot of color, in which military trappings and the ermine and red of judicial robes shaded into the purple of the Episcopacy, it was Quebec that everywhere predominated. By the side of the church of England-bishop, in hood of scarlet and white, sat Mgr. Begin, archbishop of the Roman Catholic see, and with him a dozen other bishops of the same church, mitred abbots, all the representatives of that religion which is so much a part of the life of the average French-Canadian. No, there can be no doubt that French-Canada welcomes the royal duke with enthusiasm greater than that displayed for any other governor-general who has ever been sent to represent the crown of Britain. It needed not the address of Sir Lorne Gouin to emphasize this point, but much emphasis was given to it in the speech of the French-Canadian prime minister of Quebec. Then the happy reply, delivered in French by his royal Highness, completed and crowned the most remarkable expression of cordiality for Britain by French Canada that has ever been seen.

### CARDINAL GIBBONS' JUBILEE.

#### Ceremonies Will Take Place in Baltimore Sunday.

Baltimore, Md., Oct. 14.—Archbishops, bishops, priests and laymen of national prominence, who are members of the Catholic church, will gather in Baltimore, to-morrow, to attend the elaborate religious observance of the dual jubilee of Cardinal Gibbons, marking the fiftieth anniversary of his ordination to the priesthood and the twenty-fifth years of his cardinalate.

Mgr. Falconio, the papal delegate, will represent the pope and bestow the pontiff's blessing. Canada will be represented at the ceremonies by Archbishop Bruchesi, while the Archbishop of Mexico will come in person as the representative of his country and the other Latin-American countries.

Many of the visiting clergymen will remain and participate in the first national congress of the Holy Name Societies of the United States, Canada and Mexico, which will be held on Monday and Tuesday.

### MARY GARDEN BACK REFUSES TO WED.

#### Finds Men Uninteresting, But Says She is Going to Wear Pants.

New York, Oct. 11.—Mary Garden lauded in Hoboken yesterday from the liner, George Washington. She declared that she had lost weight while abroad and, with a distinct wink, remarking that she was going to make the tailors of America and the tenors of everywhere jealous by wearing pants.

She also expressed the hope that she would be able to give some pointers to the male creation as to how to wear masculine things. The fact is she will play Prince Charming to Massanet's Cinderella.

Asked about reports of her contemplating marriage with a count or baron, Mary said she never would marry. Men are so uninteresting and so much alike. As to marrying for money, that was ridiculous, as she made all the money she wanted and spent a lot of it, too, although she was born in Scotland.

### Offered Wife For 12 Hens.

Burlington, Iowa, Oct. 14.—Judge Smythe, in the district court, yesterday, heard an unusual divorce case. Mrs. Lucinda Wetzel wished separation from her husband, Robert Wetzel, who she claimed had attempted to sell her to a neighbor for twelve chickens, or for a dog, which he proposed afterward to kill. The court refused the divorce.

### COTTON PURCHASE CONTRACT.

#### Plan Includes Moisture Test, and Reduction of Weight Margin.

Berlin, Oct. 14.—The international committee of the Cotton Spinners and Weavers Society, in session here, adopted a uniform contract for the purchase of raw cotton, including the introduction of a moisture test, the reduction of the margin of overweight and underweight to one instead of five per cent., and the retention of the option to demand net weights in the purchase of cotton. The committee is organizing a trip of cotton men in 1912 to study Egyptian cotton raising.

### EGG-LAYING CONTEST.

Storrs, Conn., Oct. 14.—Arrangements are about completed for the international egg-laying contest to be conducted under the supervision of the Connecticut Agricultural College. The contest will last one year, commencing November 1st. There will be 500 hens in the race, four hens to a team, and each team houses by itself in a separate pen. A fifth bird will be permitted as a substitute in case of sickness. One hundred small frame houses have been erected for contestants. The entries are from Canada, Mexico, Cuba, South America, Europe, Japan and the United States.

### LAWYER ALTERED DOCUMENT.

#### Prominent Member of the Utica Bar Guilty of Serious Offense.

Utica, N.Y., Oct. 14.—Edwin H. Risley, a prominent lawyer in this city for forty years, was found guilty of having taken a document from the office of the county clerk, where it had been filed, and inserting two words in the context. The words materially changed the meaning of the document, which was an important contract against the Ironclad Manufacturing company, of New York. Risley was the attorney for a client who claimed that the company was infringing upon a patent held by him.

### THEY WED DESPITE BAN OF CATHOLICS

#### Couple Turn to Episcopal Bishop When Bride Rejects Prenuptial Contract for Children's Education.

St. Louis, Mo., Oct. 14.—Sanction of the Catholic church to their marriage being refused, Huntington Smith and Miss Caroline Lackland, the couple turned to the faith of the bride and were wedded by Bishop Daniel S. Tuttle, of the Protestant Episcopal church. The ceremony was performed at the Lackland home.

Miss Lackland has objected to signing a pre-nuptial agreement to rear any children of the union as Catholics. A dispensation was, therefore, refused by Archbishop Glennon. "A mother does not want other persons rearing her children," explained Miss Mary Lackland, a sister.

The bride is a granddaughter of the late Rufus C. Lockland, who was president of the Boatmen's bank, and treasurer of the St. Louis world's fair. The couple departed for a tour of the east.

### TRANSFIXED ON BLADE.

#### Fought Bloody Duel With Sharp Scythes.

Geneva, Oct. 9.—Two young Swiss, named Dessimo and Quennoz, cousins and rivals in love, quarrelled while making hay at the village of Conther, canton of Valais, and fought a duel with scythes, the other haymakers being afraid to approach them.

Quennoz received a severe gash in the thigh, but the duel continued until Dessimo, in avenging his scythe, over-balanced and fell upon the sharp blade. He was transfixed, and died within a few minutes. The police are looking for Quennoz, who has disappeared. It is stated that he was attacked first by his cousin. Owing to the injury he received, it is unlikely that Quennoz is far from the village.

### SOME SHARP CENSURE FOR HON. ADAM BECK

#### Not Straight in Answering Questions Says a Hamilton Controller.

Hamilton, Oct. 14.—Hon. Adam Beck and Colonel Hendrie have notified the city that the hydro-electric commission is prepared to give it a better rate for power at once if it signs up to the co-operative contract, and have asked that a committee from the council be appointed.

When Mayor Less brought the matter up at the board of control, Controller McLaren, the defeated liberal candidate, in the Dominion election, caused a stir by charging that it was a political dodge intended to have an effect on the approaching provincial elections, in which Colonel Hendrie will be the conservative candidate in West Hamilton, and Controller Cooper in East Hamilton.

He charged that the head of the hydro commission "had not been straight at any stage of the game in answering questions," and said the people of Hamilton had been deceived.

"All fresh," kodak supplies," Gibson's.

## DUKE CHEERED

### By Immense Throng as He Enters the Capital.

## VIEWS OF RECEPTION

### TO BE SHOWN BEFORE THE KING AND QUEEN.

#### Ottawa Was Never Before so Lavishly Decorated—Hundreds of Kingstonsians Were Present at the Capital's Reception.

Ottawa, Oct. 14.—Several hundred Kingstonsians are in the Capital and were on Parliament Hill this afternoon, when an immense throng did honour to Queen Victoria's son, the Duke of Connaught. The Kingston basketball players are being entertained at the Y.M.C.A. and elsewhere, while Queen's footballists were met at the station by the Ottawa University band and serenaders and escorted through the streets and to Parliament Hill. The big game is scheduled for about three thirty o'clock, but it will likely be four before it starts. The decorations and preparations for the welcome to the Duke and Duchess are the most elaborate the Capital has ever known.

Over 100,000 Ottawa, Hull and Ottawa Valley point residents are in the city to tender a welcome to Canada's new governor-general, with a royal salute, profuse decorations, and special preparations in many ways the citizens received the Duke and Duchess. On Parliament Hill there must have been over 30,000 people. In an enclosed space were 1,000 special guests while on an elevated platform were Hon. R. L. Borden and members of his cabinet, Sir Wilfrid and Lady Laurier, and scores of distinguished politicians, ecclesiastics, representatives of foreign governments, and men in business and professional life. Mayor Hopewell presented a civic address of welcome, to which the Duke replied.

Cinematograph views of the proceedings were taken, and there has been a special cable from London requesting that they be shown before His Majesty and members of the royal family. There were scores of congratulatory messages received and sent by the Duke.

### THE REBELS ARE WINNING.

#### Whole Chinese Towns are Joining the Revolutionists.

London, Eng., Oct. 14.—Authoritative despatches from Peking and Tokio this morning, indicate that the Chinese revolution continues to spread and there have been sanguinary battles within the last twenty-four hours, which have resulted in defeat of the government troops by the republican revolutionists. Whole towns proclaim themselves under the new republican government, and in most cases, if there are any troops in town they go over to the revolutionaries.

The Manchurian dynasty government must depend largely on its well-organized and manned gunboats on the rivers. These fleets have been sent up with instructions to bombard all cities and towns in the hands of revolutionists, and foreign consuls at Peking are extremely anxious lest in general reprisals, on both sides, foreign residents may be massacred. Each hour brings reports of terrible massacres of Manchus.

### DIVORCE MILL HALTED.

#### Rush of Those Seeking Release From Marriage Curbed.

Kansas City, Mo., Oct. 14.—As the first legal steps towards curbing the rush of divorce seekers to Kansas City from other parts of the state and from other states the eight circuit judges here adopted a resolution to permit an attorney employed by the board of public welfare to investigate and testify in all divorce cases. Among his duties will be the content of undefended cases.

The plan is similar to a system now in force in England, where all undefended divorce suits are contested by a special proctor.

The new regulation will be put into effect at the next term of court, beginning Nov. 13th.

### CITY IN MEXICO DESTROYED.

#### Guayamas, With Large American Colony Wiped Out.

Mexico City, Oct. 14.—There is a credible report here that the town of Guayamas, with a population of 30,000, has been destroyed by a cloud-burst or a tidal wave.

Guayamas is in the state of Sonora and on the Gulf of California.

The office of the Southern Pacific railroad here admits that it has been unable to give any wire connection with Guayamas for four days, but denies any knowledge of any disaster.

There is a large American colony in the town.

### Repairs to Olympic.

London, Oct. 14.—Despatches from Belfast say the hole in the starboard quarter of the Olympic made by the ram of the British cruiser is thirty-three feet below the water line, and is thirty-three feet wide. Repairs will occupy two months and will cost \$500,000.

### The Convention Ended.

Lethbridge, Alta., Oct. 14.—The miners' convention concluded yesterday but the members have nothing to say as to the outcome. The district executive is meeting and it is believed that the final decision has been left to them.

### WHITE PLAGUE IN QUEBEC.

#### The Death Rate is Higher Than in Ontario.

Montreal, Oct. 14.—Striking statements concerning the spread of the "white plague" in this province are contained in the report of the royal commission on tuberculosis, which has just been published. The report includes the following features:

That the death rate from tuberculosis is higher in Quebec than in Ontario or the adjacent states.

That while in other countries the death rate decreases from forty to fifty per cent., as a result of a well-organized campaign, it remains stationary in Quebec.

That the death rate in the rural districts in Quebec nearly equals that of the cities.

That in most cases the victims range between twenty and forty-five years of age, when human life is of the greatest national importance.

Tripoli, Oct. 14.—Four aeroplanes have arrived here from France. They will be sent to Tripoli, where it is proposed to make the first experiments in the use of flying machines in actual warfare. They will be piloted by Italian officers, who will undertake to drop bombs into the enemy's encampments.

### TO DROP BOMBS.

Overwhelming Force of Moors Surprised Detachment.

Gibraltar, Oct. 14.—The Spaniards have suffered severe defeat in their operations against the Moors around Melilla, according to reports received here from native sources.

These reports say that an overwhelming force of Moors surprised a detachment of Spanish soldiers near Melilla and cut them to pieces. Hundreds of prisoners were taken and immediately decapitated.

### BORDEN MINISTRY ALL SUPPORT HOME RULE

#### So Declares Westminster Gazette, Which Wonders What Unionists Think Now.

London, Oct. 14.—The Westminster Gazette wonders if the English unionists' enthusiasm for R. L. Borden and his cabinet will be modified on discovering they're all convinced supporters of Irish Home Rule. The average Tory believes to be a home ruler is to be a traitor. He will begin to think Mr. Borden as disloyal as the much-condemned Laurier.

### SYDNEY-AUCKLAND CABLE.

#### Plan Has Approval of New Zealand Government.

Auckland, N.Z., Oct. 14.—Premier Ward, of New Zealand, moved in the House of Representatives, yesterday, a resolution approving the plan of the Pacific cable board to lay a cable direct from Auckland to Sydney, N.S.W. The board will meet cost, estimated at fifty thousand pounds, out of the reserve fund.

The new cable is very urgently needed to cope with the increasing business. Traffic is lost to a large extent daily through delays in transmission. The new cable would entirely obviate this difficulty.

### TURKEY LACKS A LEADER.

London, Oct. 14.—The Daily Telegraph's Constantinople correspondent, in reviewing the situation, says that Turkey lacks a government, practical leaders or a policy; that she is floundering hopelessly and crumbling away for want of a binding force to keep her constituent elements together.

### Royalist Ship Escapes.

Brussels, Belgium, Oct. 14.—A steamer named Zeebrugge, after taking on a cargo of hulk cases, which it is understood contain arms and ammunition, a wireless apparatus and provisions, suddenly left Antwerp last night. It is believed that the steamer is the property of the Portuguese royalists.

### Burned to Death.

Sackett's Harbor, N.Y., Oct. 14.—Oliver Emory, a retired soldier, aged about fifty-five years, was burned to death when fire destroyed the little building in which he lived almost nearly across the Dexter highway from the guard house.

### JAPAN IS WATCHING THE CHINESE REVOLT

#### War Office Last June Held Opinion Situation Serious For Manchus.

Tokio, Oct. 14.—There is great interest here in the uprising in South China against the Manchus. It is recalled that as long ago as last June the Japanese war office expressed the opinion that the situation in the Bowersy kingdom looked very serious for the Manchus.

Speculation is rife now as to what Japan should do in case the Peking government invites her to interfere and put down the uprising. At least 20,000 troops would be required to do this, and none of the other powers would be able to land such a large body of men in Chinese empire within a reasonable time. It is believed Japan favors the revolutionaries.

"All fresh," kodak supplies," Gibson's.

### WEATHER PROBABILITIES.

Toronto, Ont., Oct. 14th, 10 a.m.—Ontario Valley and Upper St. Lawrence—Light winds and fine to-day. Sunday, southerly winds and warmer; showery before night.

## Saturday Steacy's

First Appearance in Kingston.

## Jas. Redden & Co.

### PITTSBURGH REVOLTS AT HIGH LIVING COST.

Business Men Appeal to Mr. Wickersham to Halt Chicago Corner in Butter and Eggs.

Pittsburg, Pa., Oct. 14.—Pittsburg today opened war on high prices of foodstuffs. The city has asked the government to investigate a well-authenticated report that a \$5,000,000 to \$10,000,000 combination exists in Chicago, which is cornering the fresh butter and egg market.

The price of butter jumped four cents a pound here yesterday, and experts say that from now on prices of all foodstuffs will soar.

Have You Seen
