OBJECTS OF THE COMPANY

The Company is formed for the purpose of acquiring Real Estate in the City of Montreal and neighborhood, improving, sub-dividing and selling same in large and small portions in accordance with the demand.

BOND ISSUE.

Part of the proceeds of the sale of the present issue of Bonds will be used for the purchase of certain desirable properties on which the Company has secured promises of sale on most favorable terms, and from time to time as profitable investments offer.

SECURITY FOR BOND HOLDERS.

The Bonds will be secured by Deed of Hypothec and Conveyance in Trust to The Crown Trust Com pany of Monteral, of all the properties purchased by the Company. All Bonds issued shall be alien upon all property of the Company, and Bonds issued from time to time to pay for property shall rank 'Pari Passu' with the Bonds previously issued.

## SINKING FUND.

Out of the revenue derived from the sale of any property of the Company, the Company shall pay to the Trustees a sum sufficient to constitute a Sinking Fund for the redemption of the Bonds at a price not to exceed 105 and interest if redeemed before maturity. The Directors may, however, with the consent of the Trustees re-invest any portion of the said Sinking Fund in other properties,

said properties coming under the above mentioned Deed of Conveyance and Hypothec. The Company shall have the right to redeem the whole or any part of the Bond Issue on any interest date after August 1st, 1914 at 105 by drawing upon the Sinking Fund in accordance with the term of the trust deed.

PRESENT ISSUE OF BONDS.

The Company has secured 655 arpents of the most valuable farm land on the north-east side of the Island of Montreal, extending in a formation of five arpents commencing at the Terminal of the Street Railway at Tetreaultville and following the proposed Street Railway line to the north shore of the Island, with a frontage on that shore of 12 arpents,

The Company has also secured some 2,000 acres of the choicest farm lands on the south-westernelevation of He Perrot, which will be available for high class suburban residential purposes, within easy access from the City. Transportation facilities, even now, are fairly easy, there being some 30 trains a day each way on the Grand Trunk and Canadian Peaific, western lines, passing the property, while a ferry gives regular communication with Lachino and St. Annes. With regard to the properties already in hand, it is proposed to sub-divide immediately, and to dispose of the lots in large or small blocks for prices low enough to insure quick sales.

ESTIMATED PROFIT. The Company's property at Riviere des Prairies, consisting of 655 arpents, will give at least 7,000 lots 25 x 100 square feet and The property at He Perrot, consisting of 72,000,000 square feet, after allowing for streets, lanes, etc., to the extent of onethird the area, will give 5,000 lots averaging 10,000 square feet and worth at a very conservative estimate \$1,000 per lot

The cost of the above property is .... \$950.000 Estimated cost of surveys, plans, etc. .... 100,000 1,050,000

Present issue of Bonds shall be made at par and shall entitle the purchaser of any portion thereof to a bonus of 25 per cent. of their holdings in the Common Stock of the Company. TERMS OF SUBSCRIPTION.

25 per cent. Cash with application, and the balance on call from time to time, as the Directors may, deem advisable, but calls shall not

exceed 25 per cent, of subscriber's holdings in any one month. APPLICATIONS.

He did not give a lecture, but he gave a talk so amusing and fascinating that his reputation as a clever young man was established at once.

Canada's Capital.

In the old days before the several Canadian provinces entered upon the present confederation the Parsiament met alternately at Montreal and Que-bec, and the officials of the Government selected their own place of restdence. The rivalry between those cities was so scute that neither could be chosen for the capital, and in 1857 both joined in an address, which was ratified by Parliament, asking Queen

Victoria to settle the dispute. During the following year she named Ottawa, then a lively little lumber camp of 5,000 or 6,000 people, occupying an exceedingly favorable laves most of the year in Ottawa. Mrs. geographical location.
