BIRTH OF GIRL BROKE THE SPELL
All Other Babies For More Than a Year Had Been Boys.
Sterling, Conn., Oct. 24.—The strange dearth of girls in Sterling, Conn., has been broken, and there is great rejoicing in that little town. For more than a year all the babies born in Sterling were boys, until yesterday, when a little girl arrived in the home of Rev. H. E. Anderson, the new pastor of the Baptist church. The situation had become most perplexing. Of almost fifty pupils in the district school, there was only one girl. When a family moved to Sterling the children invariably were boys. Vital statistics of the town showed all the births for the last year were of boys. When Rev. Mr. Anderson was called and it was discovered he was the father of four sturdy boys, some of his parishioners felt they had made a mistake. The belief now is that everything soon will be all right. The new baby has received scores of presents.

The party throughout the county is pretty unanimous on the man. It is doubtful as yet whom the liberals will put up, but it is understood that S. Edgar Mastin, Bloomfield, is slated. Mr. Mastin is manager of the Farmers' Canning company.

BOY'S FOOT BADLY SCALDED.

Mother Says Zam-Buk Acted Like Magic!
Hamilton, Oct. 21.—Mrs. E. Capell, 31 Sydney street, Hamilton, tells how beneficial Zam-Buk proved in her family. She writes: "My little boy, aged one and a half years, put his foot into a pot of boiling water. The foot was so badly scalded that the skin came off with his stocking, and he had a shocking scald, from instep to toes. I at once sent for a supply of Zam-Buk, and as soon as this was applied, it seemed to act like magic and gave him ease. It was good to tell that Zam-Buk stopped the pain, because up to applying it I had to nurse the child all the time, but soon after I applied Zam-Buk he was anxious to get on the floor and go on with his play."

"I only used four boxes of Zam-Buk, and the scald was then entirely healed; so I consider this the best investment I ever made. I believe Zam-Buk would have cured the scald even more quickly had the boy been lying down all the time, but after beginning with Zam-Buk, he made the scald so easy that he was soon on his feet and playing about again. I might also tell you that my next boy to him, aged five years, had some bad broken chilblains. We used Zam-Buk on these also, and it cured them. For sores of any kind I shall in future use only Zam-Buk." Housekeepers everywhere speak familiarly of Zam-Buk. It is a sure cure for eczema, rashes, ringworm, chapped hands, scurvy, heat rashes, cuts, burns, ulcers, discharging sores, abscesses, piles, inflammation, festering, and all skin injuries and diseases. 50c. box, all druggists and stores, or Zam-Buk Co., Toronto, for price. For skin diseases use also Zam-Buk Soap. 25c. tablet.

NO STARS AND STRIPES ALLOWED IN TORONTO.
Cut Out of Picture Shows by Order of Censorship Board.
New York, Oct. 21.—Manufacturers of moving picture films here are disgusted over an order from Toronto that the United States flag must be cut out of films sent for exhibition in the Ontario capital. Films depicting civil war incidents are said to have been sent back a week ago as showing too much waving of the Stars and Stripes. This was regarded as no more than natural, but when a film showing the rescue of a drowning man was sent back because the launch effecting the rescue had the American flag flying at the stern the film makers expressed wonder. They attribute the rejection of the film to the anti-reciprocity campaign.

SIX COMETS REPORTED.
Two of Brightest Can be Seen With Naked Eye.
San Francisco, Cal., Oct. 24.—Six comets, two of them bright enough to be seen with the naked eye, are now within the neighborhood of the sun, according to reports from Lick observatory, University of California. Two of the small bodies are paying regular visits in the course of their ordinary orbits. The other four are strangers, dropping in now and then, and for the first time, so far as the astronomers know. Of the two brightest, one is visible just after sunset north of the sunset point. It has a bright head and a tail about seven degrees long. It will remain visible for several days. The second comet is said to be brighter than Halley's. It was discovered by Dr. Brooks last July. It had last night a tail twenty degrees in length. It should be looked for in the morning just before five o'clock, north-east of Venus, the morning star.

It isn't safe to judge the world by your view of it.

Coweta, Okla., Oct. 21.—Edward Suddeth, a negro, who shot and killed City Attorney J. D.
