

PEACE SCHEME

Of the Powers Has Been Announced.

GIVE ITALY TRIPOLI

AND FORM FEDERATION OF BALKAN STATES.

The Sultan's Caliphate to be Maintained and Integrity of Turkish Empire Guaranteed—Turkish Disorder Guaranteed—Peace.

London, Oct. 25.—The Daily Chronicle Constantinople correspondent wires as follows: "I learn from trustworthy sources of a joint proposal which has been made by Great Britain, Russia, and France, in full agreement with regard both to the war with Italy and the Balkans. Following are the terms of this joint proposal."

Disorder Tends Against Peace. Constantinople, Oct. 25.—Owing to the extraordinary state of affairs here, the conclusion of peace between Turkey and Italy seems adjourned to the Greek Kalends. The very weakness of those who at present govern Turkey is the main obstacle to peace.

The governing committee is losing its prestige and its courage and could not, even if it wished to do so, take on its shoulders the responsibility of making peace. It therefore sits tight and does nothing, that is to say, it allows the state of war to continue.

TURKS LOST HUNDREDS.

Tripoli, Oct. 25.—A combined attack of Arabian horsemen and Turkish cavalry against the Italian lines on Sunday morning was picturesque and fierce. The main attacking force was assisted by Turkish infantry and small guerrilla bands of Arabs, who directed a galling fire from the shelter of trees.

The Italians repulsed the enemy eventually surrounding and capturing several hundred. The enemy lost several hundred dead and many wounded. The Italian loss was not serious. Messages from the interior say that the reports of "flying Italians with destructive machines" are everywhere causing consternation and terror.

Advices from Benghazi say that the Arabian and Turkish losses in the engagement which followed the Italian disembarkation at that place are estimated at 400 dead and from 800 to 1,200 wounded.

HOW THE GIANTS WON

The Game With Philadelphia on Wednesday in New York.

New York, Oct. 25.—When Oldring, of Philadelphia, made his home run in the third inning of the world's championship baseball game here this afternoon, scoring three runs, people thought that the Athletics had the game and the championship included, for this win would have ended the series, giving Philadelphia four wins and New York only one. But a baseball game is never won until it is over, and the victory of the Giants in the tenth inning began in the fourth when Marquard was taken from the box and Ames substituted. The latter shut out the Athletics for the other seven innings.

In the seventh innings, (Combs, the Athletics' pitcher, was wild, and the result was that the Giants scored a run. With the score three to one, the Giants went to bat in the ninth and evened the tally, scoring two runs on hits by Fletcher, Crandall and Heyore.

ENGLISH LANGUAGE DRIVES HER TO DEATH.

A Girl From Colombia, Unable to Converse, Inhales Gas in New York.

New York, Oct. 25.—Disappointed by her inability to master the English language and longing for her friends, Miss Isabella Ayubach, nineteen years old, of Columbia, South America, committed suicide, yesterday, by inhaling illuminating gas in the home of her brother, John Ayubach, of No. 1,780, East Thirty-third street, Flatbush, with whom she lived. The girl had lived in this country for the last two years, but had been unable to learn English. Not being able to speak the language, she made no friends and kept in seclusion. Despite her isolation she was cheerful until recently when she began to long for life in Colombia.

NATIVE WINE POTENT.

Samples at Carp Above Local Option Standard.

Ottawa, Ont., Oct. 25.—Samples of native wine sent from the local option village of Carp to the provincial analyst proved to contain more alcohol than the law allows. Thus E. Irwin and Ira Craig, proprietors of the Brown and Dooly hotels, were today fined \$100 each and costs. Provincial Inspector W. E. Morrison preferred the charge in the county police court.

"DEVIL ANSE'S" SONS CONVERTED AT BIER

Eleven Brothers of Slain Men Yield to Feud Leader's Pleadings

Huntington, W. Va., Oct. 25.—Standing over the bier of their two brothers, Elias and Troy, shot and killed by an Italian in Fayette county, a few days ago, eleven stalwart sons of "Devil Anse" Hatfield, noted feud leader, who had professed religion, responded to the pleading of their aged parent, embraced religion, and pledged themselves to lead better lives.

The bodies of Troy and Elias Hatfield were taken back to their old home in Logan county for burial. "Uncle" Dyke Garrett, the veteran mountain preacher, who led "Devil Anse" to the altar, was summoned to conduct the double funeral.

When they saw their brothers cold in death, they heard the final benediction pronounced over them, the brothers went forward and made a public confession of faith in the God of their mother, and, more recently, of their father as well.

AGAINST CHURCH UNION.

Baptist Convention of Ontario and Quebec State Views.

Montreal, Oct. 26.—When the subject of church union was discussed in the Baptist convention of Ontario and Quebec the entire expression of opinion was against considering any amalgamation with sister churches, the general trend of argument being that union would mean complete surrender of the tenets and principles for which the church has stood in the four centuries of its existence.

LE DEVOIR MOUTHPIECE OF BORDEN CABINET

Bourassa's Paper Says Premier Did Well to Appoint Frenchman as Senator.

Montreal, Oct. 26.—Le Devoir is apparently the chief French mouthpiece of the Borden ministry, and the paper evidently wants the prime minister well thought of by the Quebec electorate. The Nationalist paper says that R. L. Borden did the correct thing in appointing Senator Lariviere when there was a rumor that an Englishman was after the position. Le Devoir also announces that the appointment of Senator Landry as president of the senate is an excellent one, so it does not look as if there was any danger of backsliding amongst the so-called Nationalist members-elect.

ONE WIFE'S WOES.

Told of Assault and Provocation Suffered.

Montreal, Oct. 26.—While listening to the torrent of charges against him, made by his wife, Patrick Ferris swooned and fell in the prisoner's dock, and his trial had to be postponed. His wife claims that in four years of married life all he has ever given her was \$1.50. He had beaten her, and in one of the beatings he had kicked her when a child was about to be born, and the baby died before birth. Another child had died of privation. He had become a cocaine fiend and when she remonstrated he beat her. She wanted him sent to jail for a long time, so that he would not bother her.

Railway for Owen Sound.

Owen Sound, Ont., Oct. 25.—Mayor Elias Lemon has launched a street railway project for Owen Sound, by which, if the plan is carried into execution, the town will build, own and operate six miles of electric railway, the initial cost being \$100,000.

CITIES GO OVER

To the Rebels in Chinese Revolution.

THE HISTORIC REFUGE

OF THE IMPERIAL COURT HAS SECEDED.

The Government's Nerve Shattered—It Is Reported That 10,000 Japanese Troops Have Arrived at Mukden.

Peking, Oct. 26.—The city of Sian, regarded as one of the government's most strongly fortified, has gone over to the rebels without a blow having been struck. Telegraphic communication with the place has been severed. The secession of this historic refuge of the Chinese court has badly shattered the nerve of the government.

The fall of Sian, first announced by American consular general Cresser, at Hankow, was by far the most important development of the revolt yesterday.

Nan-tang, capital of the province of Kiang-Si, Kwei-chow, capital of Kwang-Si, and Sukow have also gone over to the rebels. The last-named is strongly fortified and commands the entrance to Poo-Niang Lake.

Serious disturbances are reported to have accompanied the assassination of the Tartar general at Canton. It is officially announced that no news has been received from the tenth division which left Chingwangtao, Chi-li, by steamer on October 17th, for Hankow. Four are entertained for the loyalty of the garrison at Kiang-Yin, a strong fort on the lower Yang-Tze. There is no information here as to the whereabouts of Admiral Sui's gunboat.

Streets Red With Blood.

It is stated that the entire citizenship of Sien is now revolutionary and the streets are red with blood of those who refused to denounce the Manchu dynasty. This is the first word from Chentu for ten days and again there is great anxiety for Canadians and other foreigners there, though the rebel leaders took the same course as in other centres, all foreigners would be amply protected.

It is also stated that in Peking the emperor and his family are preparing to flee to Manchuria, where they would be protected by the Japanese, or to America.

Startling News.

Toronto, Oct. 26.—From the Canadian standpoint the most startling news from China this morning is that the Peking newspapers, in extra additional columns, are stating that imperial troops at Chentu, capital of Chentu province, where one hundred and fifty Canadian Methodist missionaries are stationed, have mutinied and killed their commander, General Chao Erh Fang, and all officers who refused to swear allegiance to the revolutionary party.

Japanese at Mukden.

Shanghai, Oct. 26.—A report that 10,000 Japanese troops have arrived at Mukden, Manchuria, is causing uneasiness among the supporters of the revolution, who believe that Japan is about to aid the Manchu government. The Japanese authorities here are silent on the question and will neither confirm nor deny the report. It is almost impossible that peace can ever be made, unless one of two extraordinary things happen either the coercion of Italy by a combination of her allies and friends or a reversion to the sultan of the reins of government of Turkey, since there is no other authority capable of assuming the grave responsibility of concluding a peace based on the loss of the last African possession of the Ottoman empire.

Has Been Dismissed.

Pekin, Oct. 26.—An imperial edict, today, cashiered and dismissed Cheng Huan Huan, for whose dismissal the national assembly put in a demand yesterday. The edict says Cheng failed to carry out the railroad scheme to benefit the people. This is the man whom the foreigners thought was the strongest in the government.

SUNDAY SCHOOL GROWTH.

Figures Presented Annual Reports of Association.

Brockville, Oct. 26.—There are 500 delegates attending the convention of the Ontario Sunday school association, being held in the First Presbyterian church, which a hundred years ago established the first Sabbath school in the province. The secretary's report showed receipts of \$10,938.47, and a balance of \$400. There was an increase on the number of superintendents of departments of work in the counties from 103 to 238, and in the townships from 171 to 398. There are now 595 teachers who hold teachers' training certificates. The association embraces 5,622 schools, 29,407 officers and teachers, and 495,761 scholars in all departments. Sixty-two of the one hundred counties are fully organized, and 629 conventions were held. There are 872 cradle rolls, representing a membership of 24,230. The organized Sunday school classes show an increase of 906 to 1,110. The membership of the training classes is 1,754, with 379 in the first course grades, home department number 243, representing a membership of 15,924, during the year 37,371 scholars joined the church.

EMPEROR'S NEPHEW MARRIES.

Archduke Ferdinand Charles Renounced Rank—Weds Commoner.

Vienna, Oct. 25.—Archduke Ferdinand Charles, nephew of Emperor Francis Joseph, who recently renounced his rank and all privileges as a member of the imperial family, has married in Switzerland the daughter of Hofrat Schweizer, a professor of engineering. The archduke wished to renounce his rank in 1903 to marry this young woman, but the emperor refused his permission. The marriage however, is now with his majesty's consent, and he has granted his nephew an annuity of 40,000 crowns. The archduke has assumed the surname of Burg, and will reside in Switzerland.

He entered parliament some years ago, and when the Borden government was returned, he was made secretary of state.

BREATH MUST NOT SMELL OF LIQUOR

Else Grand Trunk and Canadian Northern Employees Will Be Instantly Dismissed.

Toronto, Oct. 25.—The Grand Trunk and Canadian Northern railways will henceforth rigidly enforce the rule concerning the use of liquor on their roads. Yesterday and on Saturday three conductors were "pulled off" their run on account of using liquor. An order has gone forth that employees on whom the smell of liquor is detected will be dismissed without any explanation.

"Grace Darling of America."

Newport, R.I., Oct. 25.—Death on Tuesday night, claimed Ida Lewis (Mrs. W. H. Wilson), widow of Lime Rock Light for more than half a century, heroine of numerous thrilling rescues, and frequently alluded to as "the Grace Darling of America." Mrs. Wilson generally known by her maiden name, Ida Lewis, was the daughter of a lighthouse keeper, and was born at Newport, R.I., in 1841. At great risk she saved many shipwrecked persons from drowning, and had received medals for heroism from the United States government, the Humane Society of Massachusetts and the Life Saving Benevolent Society of New York.

Judge Exonerates Burnham.

Buffalo, N.Y., Oct. 25.—Frederick Burnham, of New York, was exonerated by Justice Tome of Kenmore, who last week found Mr. Burnham guilty of cowardice and criminal negligence in connection with the wrecking of the famous racing boat, Dixie IV, here on September 16th, when a spectator was fatally injured. It was shown that at the time that Dixie was wrecked Mr. Burnham was still sticking to his post at the wheel and was thrown over the stern by the force of the boat's impact against the rocks.

Bullets Followed Cheese.

North Bay, Ont., Oct. 25.—Samuel Veraldi, an Italian stockbroker, was in fact \$100 and costs in police court as the result of an altercation over a small purchase by a Swede laborer, named Anderson. Veraldi threw a fifteen pound cheese at Anderson, who returned the missile, smashing a show case. Veraldi then chased Anderson to the street with a revolver, firing three shots at him. One lodged in the foot of a clothing merchant, Max Clavier, who was sitting in front of his own store, and the other bullets went wild.

SIXTH CONTEST

In World's Championship Baseball Game.

ODDS ON ATHLETICS

ALTHOUGH GIANTS WERE HOPEFUL OF WINNING.

Ames Was in the Box for New York and Bender for Philadelphia—Win for the Athletics Means End of Series.

Philadelphia, Pa., Oct. 25.—Fair weather and a great crowd was promised, this morning, for the game, this afternoon, between the Giants and the Athletics. Both teams were practising bright and early. The odds are strong in favor of the local team winning today's game, and series. The probable line-up is: New York—Devere, I.; Doyle, 2b.; Spodgrass, c.f.; Murray, r.f.; McKie, lb.; Herzog, 3b.; Fletcher, s.s.; Meyers, c.; Crandall, p.

Philadelphia—Lord, I.; Oldring, c.f.; Collins, 2b.; Herzog, 3b.; Murphy, r.f.; Davis, I.; Barry, s.s.; Thomas, c.; Flank, p.

At the last minute the batteries were announced as Ames and Meyers for New York, and Bender and Thomas for Philadelphia. Bender won his game on Tuesday, and Connie Mack placed confidence in him to repeat today.

New York started off well, Doyle scoring in the first innings on Murphy's fumble. In the third, the Athletics scored a run, and things began to get more interesting. Then came the fourth inning, when the Giants were held scoreless, while four Philadelphia players crossed the plate, making the score five to one, and the Athletic supporters fairly mad.

In the fifth innings Witte replaced Ames for New York. All pitchers seem to look alike to the Athletics, who added another run in the sixth, making the score 6 to 1.

C.N.R. MAY LEASE THE INTERCOLONIAL.

Prepared to Submit Proposition to New Government.

Ottawa, Oct. 26.—It is stated in railway circles here that the Canadian Northern railway is likely to submit a proposition to the new government, having reference to the intercolonial railway system. The Canadian Northern railway is gradually linking up its transcontinental line, which will be completed in 1913 to Quebec. Connection between Quebec and the Atlantic seaboard has yet to be determined, and the idea prevails that, in lieu of constructing an independent line, or at least before deciding upon it, the Mackenzie and Mann interests will endeavor to lease the Intercolonial. Otherwise there may be four lines three of them through lines, paralleling each other, in practically the same territory. As yet, however, no proposition has been submitted for the government's consideration.

Gas is supposed to have filtered through from a leak in the cellar, causing an explosion and instant conflagration when it touched the light. One man, blown from his bed through the roof, was picked up dead. Many heroic rescues were made by the inmates, citizens and firemen. Fifty-eight people were in the building.

Justice Bordwell, this morning, delivered a sharp rebuke to both sides for delay in getting to trial.

NOTHING CAN AVERT GREAT RAILWAY STRIKE

Calamitous Industrial Warfare, That Will Affect the Whole United Kingdom is Feared.

London, Oct. 25.—It is believed now that nothing can avert another great railway strike, a prolonged fight to a finish, between the companies and men, which would inflict incalculable damage on the industries of the nation. The men are entirely dissatisfied with the report of the railway commission, and at a meeting of the executives of the four unions on Monday next a resolution will be proposed refusing to accept the findings. A national railway strike in Britain would directly involve 300,000 employees, but a vastly greater number would soon be affected by the enforced curtailment or closing down of other industries. In fact, judging from the brief strike some weeks ago the whole nation would soon be in a state of industrial paralysis.

The last strike was terminated on August 21st by the government's intervention. The men and the railway then agreed to allow the government to appoint a special commission to investigate conditions, and the managers gave the assurance that the recommendations of the special commission would be locally accepted, even if adverse to the contention of the companies on any question of representation, which presumably meant that if the commission decided that the principle of recognition of trade unions should be incorporated in the contract, the board agreed to accept the decision. As a matter of fact, the commission reported that it was impossible that the companies should let their employees interfere with matters of discipline.
