

FELL FROM A HAY LOFT

Suffered Tortures With His Kidneys Until He Tried Gin Pills

You might think that Mr. Baker needed a surgeon more than GIN PILLS. But there were no bones broken. His back was strained, which was harder to cure because nothing seemed to do any good. It is the same with a sprained ankle and broken leg. You can set the fracture and it will be well in six weeks—but the sprain may take months to get well.

However, Mr. Baker found the quick way to get relief from the pain—he tried his own words.

AULTVILLE, ONT. "I have been a great sufferer from kidney trouble from an injury to my back caused by falling from a hay loft about six years ago. This left my kidneys weak, so that every cold I got would settle in my kidneys and cause intense suffering. I was advised to try GIN PILLS. I found, to my surprise, after taking two boxes, that the pains were relieved and I began to feel better. I am still taking GIN PILLS and feel sure I will be completely cured. I recommend GIN PILLS to all who suffer from any kidney trouble." C. BAKER.

You see the fall had strained the kidneys and they were affected by the slightest chill. GIN PILLS immediately strengthened the kidneys—soothed any irritation and thus enabled the kidneys to overcome the effects of the fall.

If you are having pain in the back—or trouble with kidneys or bladder through accident or overwork—do just as Mr. Baker did—take GIN PILLS. They will help you—cure you—or we will promptly refund your money. Buy six boxes at your dealer's. If, after taking them, you feel that Gin Pills have not helped you, return the empty boxes and get your money. We will take your word for it. 50c. a box, 6 for \$2.50. Sample box sent free if you write National Drug and Chemical Co. of Canada, Limited, Dept. B Toronto.

Death at Hartington.

Hartington, Oct. 23.—On Wednesday, 18th inst., death claimed one of Hartington's oldest residents, in the person of Mrs. Challis, relict of the late James Challis, of this place. She died at the residence of her daughter, Mrs. Rutlan, Desmond, where she had been residing for the past few months. Her maiden name was Dawson, and she was born at Ernestown, in 1824, and had reached the ripe old age of eighty-seven on her last birthday. She was married to James Challis in 1843 and moved to this neighborhood, where she lived ever since. She had a family of three sons and eight daughters and all but three survive here. The sons are James, of Fulten, N.Y.; John, of Oak Flats, and Edward, living on the homestead; the daughters, Mrs. Jeffrey, of Reynoldstown; Mrs. Garrison, of Petworth; Mrs. Rutlan, of Desmond; Mrs. Connors, Murvale; Mrs. Hicks, Wagarville. Three daughters, Mrs. McMahon, Mrs. Melroy and Mrs. Scates, predeceased their mother, the two latter by only a few months. The deceased was well known and respected, and retaining her strength and vigor almost to the last, was able to mingle with her friends until a very short time ago. She was an affectionate mother and a thrifty and faithful helpmate. On her mother's side, Mrs. Challis was a distant relative of the late Sir John A. Macdonald.

An Amazing Pension Roll.

Montreal Gazette. The number of persons on the pension roll of the United States for the past fiscal year is 892,008, the total of their pensions amounting to \$159,842,287. This means a tax of \$1.50 for every man, woman and child in the United States and its possessions. The pension expenditure is one of the strongholds of the high tariff system of the United States, as neither political party dares to propose any cutting down of pensions, and the high tariff supporters are always ready to raise the cry that tariff reduction will cut away the revenue that provides the pensions. The advocacy of pensions is organized. The opposition to pensions is disorganized. Politicians do not trouble themselves greatly over unorganized sentiment. The actual approvers of the civil war on the pension roll number 329,844. The last pensioner on account of the revolutionary war died in April of this year.

It sometimes happens that a woman regains her ideals after marriage by breaking into the widow class. It's easy enough to feather your own nest if you are satisfied with borrowed plumes. Fortunate is the man who does not have to pay cash for his expenses.

WAR KILLED CHANCES.

CHARLES M. SCHWAB.

Pekin, Oct. 26.—Charles M. Schwab, president of the Bethlehem Steel Corporation, who has been negotiating with the Chinese government for the construction of warships, has been unable to conclude a contract owing to the revolution. He left for home today by way of Siberia.

WINTER ECZEMA

Cured by Zam-Buk.

Mrs. P. W. Drummond, of Thetford Mines, Que., writes: "Every fall as soon as cold weather sets in, my little daughter's face and hands would be covered with rough watery patches, which before long turned into scabby sores. These would itch and smart terribly, and would remain on her face from fall until spring. This happened for three years, and we could get nothing which did her any good, until a short time ago I started using Zam-Buk and now, after using half a box of same, the sores have entirely disappeared, leaving her skin as smooth and clear as it could possibly be."

Zam-Buk is also a sure cure for ulcers, abscesses, ringworm, blood-poison, scalp sores, chapped hands, cold sores, and all skin diseases and injuries. 50c. a box; all stores.

From the Inside.

Hamilton Times. At the Brampton Tory nomination convention on Saturday, Hon. I. B. Lucas indulged in a little talk about the coming provincial election. Said he: "Some people say we are going to annihilate the liberal party in this province. Well, I don't think so. What I say is, don't be over-optimistic." Mr. Lucas will not be surprised to see a stronger opposition returned. He thinks that there will be a very weak party, but it is quite evident that Mr. Lucas has been reading the signs and studying the shortcomings of the Whitney government. He went to some trouble to explain the tyrannical methods by which Sir James rules the legislature, and manages it like a machine. "You know Sir James has a will of his own," was the euphemism which he used to explain the premier's dictatorship. Mr. Lucas did not use the word "dictatorship," but he made clear enough his meaning. "Somebody has had the same treatment of the question of tax reform, the discussion of which was so furiously suppressed by the premier. It is not astonishing to learn from the remarks of Mr. Lucas and other conservatives who have had the courage to talk, that dissatisfaction is rife in the party with Whitney's bulldozing methods. Hon. Mr. Lucas' expectation of a stronger opposition may be realized.

Psoriasis Was Cured

After Five Years of Suffering—Three Doctors Failed and Said Case Was Incurable.

Itching and Burning Was Terrible Until Relief and Cure Was Effected by Dr. Chase's Ointment

Psoriasis is another name for chronic eczema. It is the worst form of this dreadful itching skin disease. Once eczema has reached this stage it is usually considered incurable. But here is a case which proves again the wonderful healing power of Dr. Chase's Ointment. Not only does relief come quickly, but the resulting benefits are thorough and lasting. Mrs. Nettie Maisey, Concession, Ont., writes: "I thought it my duty to write you telling you the great benefit I received from using Dr. Chase's Ointment. For five years I suffered with what three doctors called Psoriasis. I doctored with three different doctors, with no good results, and one of our noted doctors told me if any one offered to guarantee me a cure for \$50.00 to keep my money in my pocket, as I could not be cured. "The disease spread all over my face and head. The itching and burning was hard to bear. At last my brother read in the paper about Dr. Chase's Ointment as a healer. I used 8 boxes, and I am glad to say I am entirely cured, not a sign of a sore to be seen. I can hardly praise the ointment enough, and you are at liberty to use my testimony, as I hope thereby to induce other sufferers to try the same." BUDGET FROM YARKER.

Many Farmers Will Have to Purchase Potatoes.

A night gang of men have been put to work on the C.N.R. while another lot of men are lowering the rock-bed of the branch to drain off the marsh.

There are quite a number of farmers in this section who will have to buy potatoes and there are many who have a good fair crop, but the crop is a short one.

Mr. and Mrs. James Gordon spent over Sunday at Tamworth at the home of their daughter, Mrs. Percy Thornton.

Children of school age will have to attend school in Yarker. The law will be enforced.

Earl Vanluven and wife, of California, were here for a few days at E. Vanluven's. Patrick Manning and wife, of Auburn, N.Y., visiting his mother here, left for his home last week.

Mrs. E. Vanluven and Miss Gertrude Lee have returned home from Franklin. They were visiting at the home of Rev. Mr. Batstone. Miss Pearl and Florence Amos, of Camden East, are at Mrs. J. W. White's.

John Kimmett has rented the farm of Charles Freeman. Mr. Freeman will move to Yarker. Mrs. F. Walsh has moved to Montreal. Mr. Sanderson, who bought the residence of F. Walsh, has moved here.

WEDDING AT CATARAQUI

Of Reeve Gardiner and Miss Dusky Blair.

Cataraqui, Oct. 25.—A pretty wedding took place, to-day, at noon, when two young people, one of this place, Roscoe Gardiner and Miss Dusky Blair, were united in marriage at the home of the bride's mother by Rev. T. C. Cassidy. The youthful bride looked very charming in her wedding gown of white marquisette, trimmed with baby's Irish lace, and equally so in her travelling suit of brown, with brown beaver hat. The house was tastefully decorated with ferns, chrysanthemums and the scarlet rowan berries. After a dainty wedding breakfast Mr. and Mrs. Gardiner took the afternoon train for the west. After their trip they will return to their home just west of the village. Many presents testified to the esteem in which Mr. and Mrs. Gardiner are held. Some of these gifts were presented in the form of a "shower" at the home of J. W. Vallou on Monday evening, October 23rd. A large number of people gathered together and music, speeches, etc., filled in a pleasant evening.

Miss Edna Edwards is home from Manitoba, where she spent the summer visiting relatives. Mr. and Mrs. P. W. Wallace are attending business college in Kingston.

After months of terrible suffering, patiently borne, Mrs. Thomas Smith, Sunnyside, passed to rest on Monday last. Her maiden name was Louisa Silver. She leaves, beside her husband, one daughter, Miss Edna, at home. A large number of relatives and friends attended the funeral service held in the Free Methodist church here. A brother, Charles Silver, is here from Brantford to attend the funeral.

Andrew Howie, Sunnyside, has sold his farm to C. Clark of Sillyville, and Henry Silver has bought the home of the late Charles Counter, which is situated on the Sydenham road. The purchasers will each take possession in the spring.

Position of Alberta.

Montreal Gazette. The fact that the population of Alberta, as shown in the census returns, falls short of reaching the 400,000 mark means that that province will have to wait five years for the \$1,200,000 increase in its annual subsidy from the dominion treasury to which it is entitled when its total population reaches that figure. The provision made by the legislation constituting the two new provinces to the west of Manitoba was, it will be remembered, that in lieu of public lands each was to receive the interest on a capital sum of \$37,500,000 beginning at the rate of one per cent, the rate to increase to one and a half per cent, when their population reaches 400,000. Alberta's annual subsidy will thus continue to be \$375,000, instead of \$562,500, until the next western census is taken, five years from now, when undoubtedly the province's population will be more than 400,000.

Nineteen Ducks at One Shot.

A recent experience of Floyd Clark, of Clayton, N.Y., and a companion goes to show that there are some ducks on the St. Lawrence this season. Mr. Clark was at Hickory Island, where he is employed, when he saw a large flock of ducks light on Ant Island, a short distance away. The ducks were driven there by a heavy gale which was blowing. Mr. Clark and his companion took a small punt and put out for the island, but the boat was nearly swamped before they reached it. They landed on the opposite side from which the ducks were, fired upon them, and after some difficulty on account of the high sea picked up nineteen black ducks which they had shot. Next morning they set out their decoys and shot nine blue winged teal. This is believed to be the record bag of ducks yet.
