of Canada may be taken on the English system, that is, a count of actual inhabitants over night.

'the present system, since the re-sults were published a few days ago, has been the subject of a storm of complaints from every part of Canada. Cities and towns in the east! and in the west are flooding the census bureau with protests against the alleged failure of the enumerators to count some hundreds, and in other cases thousands! of inhabitants. The western municipalities are almost unanimous in their complaint.
