TO SAFEGUARD PUBLIC CITY COUNCIL MEETING

FROM BEING INJURED ON CITY STREETS.

Claimed City Authorities Should Take Action Regarding Automobiles and Rigs—Danger From Backing Out of Garages and Rigs Driving Out of Laneways.

That something must be done by the civic authorities to safeguard the public from injuries from automobiles backing out of garages, and from rigs driving out of laneways, on to the street, is the opinion expressed by a well-known local doctor, who has had a great many accident cases dealing with this particular question within the past six months or so.

"If no action is taken along this line," he pointed out to a Whig representative, "we will have a great many accidents, and perhaps some of them will result fatally." Other residents of the city have expressed themselves to the Whig in a similar way.

It is pointed out that the danger from automobiles backing out from garages, and from rigs driving out over the sidewalk on to the roadway, is very great, especially to little children, who are not able to look after themselves. Of course, older people are able to look after themselves, but even at that, there are times when a very difficult time keeping clear, as in the case of rigs coming out of laneways across the sidewalk, the horses are often driven so fast that the pedestrian has but a very short notice to get out of the way, even though he may be trying his best to do so.

A couple of cases occurred just recently which should be noted. In a particular case the young man is blind—was run into by an automobile backing out of a garage. Some time ago a little boy was passing a lively stable, on his bicycle, when a rig came out of the liver, at a lively rate of speed and knocked the little chap off his wheel. His escape was miraculous, as it was at first thought that he had suffered a fracture of the skull, and many other cases could, no doubt, be related.

"But what would you suggest as a remedy?" asked the Whig of the medical man.

"I believe that it could be covered by a by-law," he replied. "In the case of the automobile backing out of the garage I think the owner could be compelled to have a man stationed at the door to see that the public is warned and in the case of rigs coming out of laneways I think there could be a by-law compelling the drivers to wait their horses. This would prevent accidents. Serious accidents will happen if the matter is not looked after, and I think it would be a good thing for the council to take this matter up and see what kind of legislation can be given for the trouble. We should give all the protection we can to our little children."

It was pointed out that a person backing out a car from a garage could only see the one side of his car and in this way a child coming from the other side might very easily be run over.

CITY COUNCIL MEETING

LICENSE REDUCTION PETITION FOUND PROPERLY SIGNED.

A Committee Appointed to Report Upon the Reorganization of Civic Departments at the Mayor's Suggestion.

The session of the city council was very brief last evening, lasting only forty minutes. The petition requesting the council to submit a by-law to the people in January, limiting the number of tavern licenses to fifteen, was reported by the city clerk to be properly signed, and it was referred to the finance committee, which will arrange for the by-law. These communications were received from the mayor respecting a re-organization of the civic departments, a by-law regarding the purchase of Catarqui bridge, and a report upon cheap water power.

In attendance at the meeting were Mayor Graham and Alds. Carson, Cooper, Clugston, Elliott, Fair, Hanley, Harrison, Hoag, Kent, Linton, McCann, McCarthy, Rigney, Ross, Shaw and Toye.

Communications Read.
These communications were read: A. E. Ross, honorary president Infants' home, re remission of taxes. A. E. Ross, M. D., chairman public library, re remission of taxes. Smythe, King and Smythe re establishment of a box factory in Kingston.

M. P. Tappin, asking for a license to carry on a victualling house or restaurant on Princess street. Rodger and Wright, re election of a lamp-post on King street. William McCullough and others, asking for the renumbering of Main street.

Private secretary minister of public works, acknowledging receipt of city clerk's communication re dredging of Princess and Queen street slips.

G. M. Macdonnell and others requesting the city to submit a by-law at the next municipal elections to limit the number of tavern licenses to fifteen. This petition contains the names of 676 ratepayers, there being for this purpose 4,335 names on the revised list. Therefore, the petition contains more than ten per cent. of the qualified electors.

Kingston Business College, asking for the usual exemption from taxation as an educational institution.

The Mayor's Communications.
Mayor Graham placed three communications of his own before the council. First, he asked the board of works to bring in a report as to harbor improvements, so that a by-law for the purchase of Catarqui bridge could be put to the electors in January.

Second, he asked the light, heat and power committee to report at once on the question of cheap power, and recommended some definite action.

Third, he suggested that owing to the resignations of the city engineer and the waterworks superintendent, the council should consider the reorganization of the civic departments with a view to having a more up-to-date and possibly a less expensive mode of collecting the city's revenue. His worship suggested the appointment of a committee consisting of A. E. Ross, Clugston, Hoag, Kent, Rigney, Harrison, Shaw and Fair, and himself, with power to employ an expert accountant, to report on the possibility of a shorter form of book-keeping in the different departments, with a view to lessening the cost of the civic administration.

Ald. Elliott wanted to know if Superintendent Hewitt was still in the employment of the city.

The mayor said he was until the waterworks committee accepted his resignation.

Ald. Shaw thought that something should be done before the end of the year regarding the appointment of city engineer and waterworks superintendent.

Ald. Ross moved, seconded by Ald. Fair, that the committee suggested by the mayor be appointed to report upon the reorganization of civic departments as to administrative, and financial methods. The motion was adopted.

Ald. Elliott stated that his committee was doing everything possible with regard to the cheap power question, but had been handicapped by the failure of Hon. Adam Beck, chairman of the Hydro-Electric Commission, to report as to what the commission could do for Kingston.

Mayor Graham replied that if Mr. Beck could not furnish Kingston with a quote on there were others with whom the city could deal.

The Finance Report.
These recommendations of the finance committee were adopted.

That the account of the light, heat and power department for two lamps amounting to seventy dollars, be paid.

That the council notify the Grand Trunk railway company of the poor condition of the Grand Trunk railway station in the city, and what at the junction, and on account of it being dangerous that the same be remedied as soon as possible.

That the request of the Y.M.C.A. for fifty dollars to provide proper bathing facilities for the boys and girls of our city, be granted.

On the recommendation of the Canadian Manufacturer asking for a postage advertisement that the request be not granted.

Ald. McCann held that Kingston did not do enough outside advertising. Other small cities did much more.

Other Business.
The council by three-fourths vote, consented to the streets Kensington avenue and Edgely street being laid out in the west end of the city, near Centre street.

Ald. McCarthy gave notice that he would move that copies of all by-laws passing before the council be sent to the Aldermen before the council meeting.

Ald. Shaw wanted to know what was being done to aid in the "carry-

ABERNETHY'S

OFFICERS OF R.C.H.A. Brass Bedsteads Denote Refinement

HELD THEIR SPORTS ON MONDAY AFTERNOON.

At Barfield—The Events Were Finished Before the Rain Came—The Officers Showed Lack of Practice.

The sports for the officers of the R.C.H.A. were held Monday afternoon under adverse weather conditions, but as they had been postponed once before it was thought advisable to go on with them unless the rain prevented. The rain fell a few times, but very lightly, and nothing hindered, until the last event was over at four o'clock. A tremendous gale was blowing from the southwest and made everything lively on Barfield commons, where the events were run off. Owing to less practice the officers were not in very good condition consequently the performance was not as high class as that given by the men of the battery some time ago. The lemon-cutting was about the best feature of the afternoon as it required a steady hand and good nerve as well as a well-trained horse. The animals were in fine condition and composed the best mounts in the force. Sergt.-Major Gimblett acted in a capable manner as starter while Capt. Crowe acted as time-keeper. The results of the contest were:

Tilting the ring and vent pegging—Capt. Boak, Capt. Constantine, Lieut. Watson.

Dummy thrusting—Capt. Palmer, Capt. Elkins, Capt. Constantine.

Riding and jumping—Capt. Roy, Capt. Elkins, Capt. Boak and Major Eaton, tied.

Tent pegging—Capt. Elkins, Capt. Roy, Capt. Palmer.

Cutting Turks' heads—Capt. Constantine, Capt. Palmer, Capt. Boak.

Lemon cutting—Capt. Constantine, Major Eaton, Capt. Palmer.

AT THE GRAND.
The Russian Countess gave a Delightful Programme.

Lovers of classic dancing were given a most delightful treat, at the Grand, last night, on the occasion of the visit of the Russian countess, Tamara de Swirsky. The countess charmed her audience from the very start of the programme to the finish, and at the close everyone in the audience was ready to agree with all the critics, who have already regarded her and referred to her as the greatest inspiration and interpretive dancer of the age. Her work was exceedingly well done. The audience was rather slim, but, to use an old phrase, all that was lacking in numbers was amply made up in enthusiasm, as the countess was greeted with round after round of applause, and the different dances she gave well merited all the applause, and the many curtain calls.

A report which originated from some unknown source, stated that the programme contained numbers which should be eliminated, and this was indeed to be very much regretted, as it contains nothing whatever objectionable, and can be regarded as first class in every respect. It is indeed a rare treat to see the countess interpret the creations of the master composers.

The countess has her own orchestra, and this in itself is a fine feat, the different number for the dances being rendered with a finished touch, which was most delightful. The entire evening might be regarded as a feast of good music and dancing. The inclement weather, no doubt, prevented many from attending, but should the countess come to Kingston again, she can be assured of a large audience.

The countess practically plays the music in her dancing, and mention should be made of the fact that she is a graduate of the Paris Conservatory of Music, winning first prize, a gold medal. She also carried off the highest honors at a competition taken part in by three hundred people of all nationalities.

"Naughty Marietta."
When the new comic opera, entitled, "Naughty Marietta," is presented by Oscar Hammerstein at the Grand on Wednesday, Nov. 8th, by a company of seventy and augmented orchestra, it is said the theatre-going public of this city will have an opportunity of seeing the greatest operatic success that has been presented here for several seasons past.

"Naughty Marietta" is said to be written in the best style of Victor Herbert and Lida Johnson Young, and a very capable company of singers, dancers and comedy specialists, will portray the musically dramatic story of the opera.

Miss Florence Weber will be seen as

CHANGING HER FACE

(From the Household Friend)

Any woman not satisfied with her complexion can remove it and have a new one. The thin veil of stifling half-dried cuticle is an embarrassment and should be removed to give the fresh, vigorous, young skin underneath a chance to show itself and breathe.

There is a simple old-fashioned home remedy which will always do the work. Get an ounce of pure mercuric wash from your druggist and apply it at night like cold cream, washing it off in the morning. The mercuric wash will gently absorb all the filthy skin and leave a healthy and beautiful complexion, as fresh as a child's. Naturally it takes with it all such facial blemishes as freckles, tan, rough patches, sallowness, liver spots, pimples, etc. It is pleasant to use, effective and economical. The skin so treated immediately looks years younger.
