TWO MORE CITIES FALL INTO THE HANDS OF CHINESE REVOLUTIONISTS.

Soldiers Cut Off Heads of Two Republican Generals as Means of Settling Their Leaders' Jealousies.

Pekin, Nov. 9.—Fu Chow and Canton are the latest big cities to fall into the hands of the revolutionists, who practically control the whole province of Hu Nan, but are quarrelling among themselves, and conditions border on absolute anarchy.

Two republican generals here became jealous of each other's authority, and their soldiers cut both their heads off to settle matters between them.

The present dictator is a scholar, not a soldier, and has ordered all women and children and foreigners to leave the cities and hide in the country.

EXCITEMENT IN PEKIN.

The Revolutionist Army is Approaching the City.

Pekin, Nov. 9.—There is great excitement in this city, this evening, caused by the rumors of the approaching revolutionary army and the departure of a strong army corps of imperial troops. Permanent residents and foreigners who cannot get away are storing their houses and cellars full of rice and other provisions, expecting a long siege. Panic and bloodshed within the city is imminent. Foreign legations here are amply protected by their own troops, but legation officials see nothing to it but the overthrow of the Manchu dynasty.

MADE OFF WITH BICYCLE

While the Owner Was Watching Him From Office.

A daring theft was committed on Clarence street, early Thursday afternoon, when a lad walking along the street jumped on a bicycle owned by G. A. Bateman, the well-known insurance man, Clarence street, and made off with it. Mr. Bateman was looking out of his office window, and noticed the lad take the wheel, but by the time he got out to check him, the lad was almost out of sight.

The police were notified, but up to the time of going to press neither the missing bicycle nor lad had been located.

MAY STOP OFF HERE.

Hon. Sam Hughes is Awaited by the R.C.H.A.

Col. the Hon. Sam Hughes, minister of militia, intends making a surprise inspection of the R.C.H.A., on Saturday or Sunday, by stopping off here on his return from Vancouver, B.C. But the surprise will be his, as the men behind the gun are waiting for him. The soldiers, as usual, will be in line form, and the barracks all that can be desired.

WARNS WOMEN TEACHERS.

Hard Struggle to Hold Positions Under Equal Pay.

New York, Nov. 9.—Women teachers will have a harder struggle than ever before to obtain and hold positions in the schools, they were told yesterday, when a delegation called at city hall to thank Mayor Gaynor for signing the equal pay bill.

"Now that you are on equal salaries with the men, I am afraid there will be an eternal propensity to employ the men instead of the women," the mayor said to the teachers. "So long as you were paid less than the men there was a constant economical reason for appointing you in place of the men, but now that you are on even terms with the men I must warn you that you will have to hold your own and the teaching for you cannot send a committee here for me to help you in that."

The mayor said the additional salaries will add four dollars to the assessment on a \$10,000 residence, and added he did not believe such an assessment would prove a burden.

Speaking of the act, the mayor said he was reminded of a story of a big man with a little wife who frequently slipped his face in public. When asked why he tolerated such treatment, the mayor said the husband replied: "It does not hurt me at all and it pleases Mary, so why should I not let her have her way."

In expressing the gratitude of the women teachers to the mayor, Miss Grace Strachan said: "For the first time in history it will be written in the statutes of this state, that there shall be no discrimination in salaries against women on account of her sex. We fervently thank you for sparing you and permitting you to continue the work of progress to which you have devoted your life for many years."

The mayor presented to Miss Strachan the pen he used to sign the act.

TO HONOR LAURIER.

Ottawa, Nov. 9.—Saturday week, the 20th, will be the 70th birthday of Sir Wilfrid Laurier, and it is probable that advantage will be taken of the occasion by the liberal members of both Houses to manifest their fidelity to their leader, an individual address to the chief.

No plans have yet been matured, but it is understood that the demonstration will take the form of an address, and perhaps of a presentation.

Ottawa liberals are talking of presenting an individual address to the chief.

WRECKAGE IN NORTH SEA.

Seven Bodies Entangled in Remains of a Steamer.

London, Germany, Nov. 9.—A freight steamer arriving from Hamburg, today, reports having sighted wreckage in which seven bodies were entangled. It is thought that the wreck was that of the unknown steamer which sank off Cuxhaven during the storm of last Monday. The steamer's owners also saw other wreckage floating in the North Sea.

YOUNG MAN KILLED IN FELDSPAR MINE

Near Godfrey on Thursday Morning—Michael O'Connor Met Instant Death.

A fatal accident occurred at the Richardson feldspar mines, four miles from Godfrey, about ten o'clock on Thursday morning. Michael O'Connor, a young man, of Bedford township, was the victim. A telephone message to the Whig from Godfrey stated that Mr. O'Connor was standing on a stone in the mine when something gave way and he fell a distance of thirty or forty feet, being killed instantly. The remains were removed to his home and prepared for burial. Deceased was a drifter by trade, was unmarried, and lived with his widowed mother.

DEATH OF DANIEL EGAN.

A Well-known Citizen Passed Away Wednesday Night.

Daniel Egan, a well-known merchant, passed away at his residence on Lower Bagot street, about midnight, Wednesday, following an illness extending over the past two years. Deceased was forty-nine years of age and was born in Kingston. He lived here all his life and for the past seventeen years he had conducted a cigar store on Princess street. Ill-health forced him to retire about six years ago and he had gradually failed since that. He was a Roman Catholic in religion, and the funeral will take place Saturday morning from his late residence, besides his wife and three daughters, all at home, he leaves a brother, Matt, in Buffalo, and one sister, Mrs. James Black, of this city.

FAST PRAISES LINCOLN.

Most Judicial Temperament of Any Man in History.

Frankfort, Ky., Nov. 9.—A new light was thrown on the outstanding character-figure of Abraham Lincoln, yesterday, when President Taft, who came here to witness the dedication of a monument to the "emancipator," said: "I do not think it is too much to say that Lincoln had the most judicial temperament of any man in history."

Mr. Taft paid his tribute with that of Kentucky's mark of reverence for her greatest son in the new state capitol, when a monument to the war president, given by the descendant of a long line of Kentucky pioneers, was dedicated.

Approved the Stamps.

ANXIETY IN JAPAN.

Move to Reinstatate Matsura in the Premiership.

Tokyo, Nov. 9.—The situation in China of a house divided against itself is causing grave anxiety here. Many doubt the capacity of Premier Saionji's cabinet to cope with the delicate position in which the revolution in China places Japan.

The followers of Prince Matsura are actively at work trying to reinstat him in the premiership. The prince is now with the emperor, who is reviewing the military manoeuvres at Kushi, and it is possible that he will be asked to resume office.

The ministry is now confronted with the difficulty of adjusting the financial programme to the naval demand, the uncompromising attitude of the minister of the navy, Vice-Admiral Saito, may precipitate the collapse of the government, and the tendency in this direction will only be increased by the Matsura party, to bring about the return of the prince to power.

MEDIATOR TO END WAR.

Foreign Secretary Grey Answers Questions in House.

London, Nov. 9.—The question of mediation between Italy and Turkey was brought up again in the House of commons yesterday when a member asked the government if it had taken any steps toward tendering its good offices in the direction of peace.

Foreign Secretary Sir Edward Grey said, in reply, that the government had not been precluded by its own declaration of neutrality from offering its good offices in the way of mediation to Italy and Turkey, but the views of the belligerents were so divergent that no basis exists where upon neutral powers can offer any mediation which would not be refused and even resented by one or the other.

FLOUR MERGER.

Eight Mills Propose New \$2,000,000 Combination.

Kansas City, Nov. 9.—Owners of eight flouring mills in as many towns of Kansas, will meet here for the purpose of completing a merger of the mills into one company with a capital of \$2,000,000.

The merger, if one consummated, is to be made in compliance with the latest decisions of the supreme court of the United States as to what constitutes a merger in restraint of trade. The millers say their purchase is not to control prices or curtail output, but to reduce the cost of operation and the cost of marketing their product.

Marine Case in Court.

Magistrate Farrell had a special session of the police court, Thursday afternoon, to hear a marine case, dealing with the payment of wages. One of the deck hands on the steamer Turret court, which arrived in port during the morning with grain from Fort William, claimed that the boat was in his debt, to the extent of \$30 for wages, but after the evidence was taken, it was found that he was only entitled to \$7.50, and this amount the captain of the boat had been willing to pay. The case was disposed of in this way.

Morocco, the Congo, Tripoli.

The Morocco situation has been settled to the satisfaction of everybody—that is of everybody who is considered in the diplomacy of Europe.

France is given a free hand in Morocco. That country becomes substantially a dependency of France. Who grants France these privileges? Germany. What right, title or interest has Germany in Morocco? None. Why, then, should Germany presume to tell France what she shall do or not do on the continent of Africa? Because Germany has the workshops. In return for Germany's grant to France of what Germany had no more title than the United States, the Germans get a slice of the French Congo and a million people.

The people of the lands transferred were of course not consulted. It cannot be justly said that their interests were not considered. They will be better off under French and German rule.

The ancient law of force is still the first law of diplomacy. Might doesn't make right in diplomatic intercourse, but it makes treaties. The nations of Europe parceling Africa out, by agreement among one another, and then proceeding by "pacific penetration" to exploit their colonies for all they are worth is far from the ideal of civilization. But it is far better than the method Italy is employing in Tripoli.

Eleventh Hour Decision.

Stratford Beacon.

Sir James Whitney has stood out persistently against the reform of the assessment laws, although pressure, and strong pressure, too, has been brought to bear upon him by those of his own party. On this particular question Sir James has shown a disposition to tax progressiveness, rather than become progressive in his administration. This much desired reform is part of the liberal policy, and now that the battle is on Sir James will doubtless attempt to embody something of this nature in his platform. If he does it must be regarded in the light of political expediency, the same as his eleventh hour decision to do something for New Ontario.

Wrong Man to be Sure.

Seattle, Wash., Nov. 9.—When Lord Sholto Douglas, brother of Mrs. B. of Queensberry, read in the morning papers that a New York suicide had been identified as himself, he laughed and remarked it was not worth the telegraphic tolls to wire contradicting the report. He conducts a small cigar business here.
