THE CRUEL ARABS

GENERAL CANEVA TELLS OF MUTILATION OF SOLDIERS.

Women Stone the Troops—Leader of Italian Forces in Tripoli Charges Also That Turks are Using the "Dum-dum" Bullets.

New York, Nov. 18.—General Caneva, commanding the Italian forces in Tripoli, made the following message to the International News Service:

"Tripoli, Nov. 16.—You may inform the newspapers that the only reproach we feel is that of excessive cruelty and benevolence towards the natives. By public proclamation and orders to all troops of the Italian government we have directed our soldiers to treat the Arabs in a friendly manner and to respect their traditions.

"I have distributed hundreds of tons of grain and barley to the starving population, paid ten lire for each rifle delivered by the Arabs and recompensed generously all native labor.

"On October 23rd, Turkish regulars with 8,000 Arabs armed with Mauser rifles, attacked our front line, supported by Arabs from the town and the oasis.

"It then became necessary to protect ourselves, besides other Europeans. I ordered the instant shooting of the rebels and the arrest of Arabs carrying arms.

"I have certainly not exaggerated the repression. The proof of this consists in the fact that the correspondents of all nations were allowed to assist in the operations and go everywhere.

"The decapitated bodies of Italian soldiers were found in the oasis, where shots are continually fired against the Red Cross hospital. The whole of the world should admire the exemplary conduct of our soldiers, who respect the women and protect the children.

EUROPE'S SWELLEST BARBER IS KING-PETER

His Majesty Also Runs a Drug-store and Auto Agency in Capital.

Belgrade, Nov. 18.—The recent widely heralded statement that the barber shop owned by King Peter of Serbia has proved a glittering financial success, naturally caused a flutter of disgust in monarchial circles.

"But generally speaking, the announcement was received with equanimity by the rank and file of European ability. That the Serbian king should operate a tonsorial parlor is thoroughly in accord with the commercial spirit of the times.

"Peter doesn't actually shave the customers himself, but it is a fact that his hairdressing establishment is the finest in all Belgrade and he adds to his degradation by also running a first-class drug store, and acting as the agent for the leading French firm of automobile manufacturers—by proxy, of course.

The Orange Hall at Marlbank, and the house next door, were destroyed by fire on Tuesday evening. The fire was witnessed by the owner of the house and his son-in-law, who were waiting at the railway station for the remains of a relative, and did not know it was their home that was burning.

REMOVING HER SKIN. From the Feminine World.

The quickest and surest way to make a good complexion out of a bad one is to actually remove the skin from the face. This can be done easily, safely and privately by any woman. The process is one of gentle absorption.

Get an ounce of pure mercurized wax from your druggist and apply it at night like cold cream, washing it off in the morning. In a few days the mercuride in the wax will have absorbed the disfiguring outside, revealing the fresh young skin underneath.

BEWARE OF BLOOD POISON.

Zam-Buk is a Sure Cure. James Davey, of 786 Ellice avenue, Winnipeg, says: "A few months since I was cured of a poisoned finger through the timely use of Zam-Buk."

"I cut a deep gash across the knuckle on the first finger of my right hand in the morning. A lodestone nail, I suffered at the time with the soreness and pain, but had no idea it would become a serious wound. However, in about two days I was greatly alarmed, as my whole hand and arm to the elbow became suddenly inflamed, and the finger was much discolored, showing signs of blood-poisoning. The pain was dreadful and I was forced to leave off my work and go home.

"The wound on the knuckle had been poisoned by dust and dirt getting into it. I then decided to start the Zam-Buk treatment, and having first bathed the cut, I applied the healing balm. It soothed the pain almost instantly, and by next day there was a great improvement.

"In a week's time, through perseverance with this wonderful preparation, a complete cure had been effected. Zam-Buk is just as good for serious ulcers, scald sores, abscesses, piles, ringworm, boils, varicose ulcers, ruing sores, cold sores, chapped hands, etc. It draws all poisonous humors from a wound or sore and then heals the tissue, for cuts, bruises, and all skin injuries. Zam-Buk should be used in conjunction with the balm for washing wounds and sore places. Excellent too for baby's nath.

All druggists and stores sell Zam-Buk at 25c. per box and Zam-Buk Soap at 25c. per box. Zam-Buk Soap of price from Zam-Buk Co., Toronto.

Something is Doing. With Mr. Rowell and Hon. MacKenzie King touring the province, young men with present-day ideas—the election campaign will glow with the new interest given to it by progressive opinion aggressively advanced.

Interests Jumping themselves. Ronar Law may not be a genuine, but he has the "interests" behind him. And in this country there is a well-defined suspicion when the "interests" really jump themselves they can sometimes elect a man who couldn't possibly elect himself.

SMALLER WARSHIPS. Sir W. H. White Favors More Moderate Dimensions.

New York, Nov. 18.—Smaller battleships and cruisers were advocated by Sir William H. White, former chief constructor of the British navy, in an address before the annual meeting of the Society of Naval Architects and Marine Engineers.

"My personal conviction," based on a long continued study of the problem," he said, "is that the war course in warship building would be found in a return to more moderate dimensions, and a reduced unit cost for capital ships. Experience has established the fact that, without having resort to the extreme dimensions which have recently found favor, it is possible to produce capital ships which shall be powerfully armed, well protected, and capable of high speed.

"The value of high speed in capital ships has been much discussed, but it really opens up a separate field into which it would be undesirable to enter now.

MONTREAL METHODISTS CRITICISE PRESBYTERIANS.

They Declare That Services in McDonald College Were Made Presbyterian After Unionism Was Promised.

Montreal, Nov. 18.—(Special) The Presbyterians were gathered together only fifty yards away from where the Methodists were assembled in a denominational meeting yesterday, it was much better than even that short distance intervened.

The Methodists said some things about the Presbyterians which were far from complimentary. They accused their sister denomination of a breach of faith in one specific instance at least, that of McDonald college.
