Five Minutes Complete Relaxation by 150,000,000 People to Mark Peace Celebration.

New York, Nov. 20.—Absolute relaxation, so far as possible, of the activities of 150,000,000 English-speaking people throughout the world for five minutes for silent prayer and contemplation is a suggestion which Senator Hoar, of New York, has made for the celebration of the one hundredth anniversary of peace among English-speaking peoples.

The suggestion came out tonight in connection with the appointment by Mayor Gaynor of a committee of one hundred prominent New York men to have charge of the celebration of the centennial so far as this city is concerned. The national committee plans to commemorate the peace anniversary by the erection of permanent memorials, rather than through the celebration of pageants. For this reason it has been necessary to organize far in advance of the time of celebration, which will extend from Feb. 17th, 1915, until some time in the summer, during which Great Britain, Canada and other parts of the English-speaking world will participate in the celebration.

The date suggested for the five-minute's stoppage of activities of English-speaking people is Feb. 17th, 1915, the date of the ratification by the American and British governments of the treaty signed at Ghent, Belgium.

Among the suggestions for permanent memorials of the century of peace, one is the building of a water-gate to be erected on the Canadian and American sides of the Detroit river, at Detroit and Windsor, Ont.; another, that an arch be built on the Canadian frontier over the New York to Montreal highway, now under construction; still, another proposal is for the erection at local points along the international boundary of boundary monuments of artistic design and permanent character.
