OPERATIONS AVOIDED

By Lydia E. Pinkham's Vegetable Compound

Belleriver, Que.—"Without Lydia E. Pinkham's Vegetable Compound I would not be alive. For five months I had painful and irregular periods and inflammation of the uterus. I suffered like a martyr and thought often of death. I consulted two doctors who could do nothing for me. I went to a hospital, and the best doctors said I must submit to an operation, because I had a tumor. I went back home much discouraged. One of my cousins advised me to take your Compound, as it had cured her. I did so and soon commenced to feel better, and my appetite came back with the first bottle. Now I feel no pain and am cured. Your remedy is deserving of praise."—Mrs. Emma Chartel, Valleyfield, Belleriver, Quebec.

Another Operation Avoided.

Poughkeepsie, N.Y.—I run a sewing machine in a large factory and got all run down. I had to give up work for I could not stand the pains in my back. The doctor said I needed an operation for womb trouble but Lydia E. Pinkham's Vegetable Compound did more for me than the doctors did. I have gained five pounds. I hope that everyone who is suffering from female trouble, nervousness and backache will take the Compound. I owe my thanks to Mrs. Pinkham. She is the working girl's friend for health, and all women who suffer should write to her and take her advice.—Miss Tillie Plessig, 5 Jay St., Poughkeepsie, N.Y.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases.

WOMEN OPPOSE BILL

COMPULSORY INSURANCE OF SERVANTS NOT POPULAR.

Stamps For Week for Each Servant, Which Employer Pays One-half.

London, Nov. 21.—If statements of the opposition press indicate popular feeling enough nonsenses are up in arms against the government's bill for the compulsory insurance of servants. Protests are rising meeting and in women's letters in the newspapers show dissatisfaction with the proposal not only among employers, but also among servants. This latest legislation, which is supposed to mean nothing, will require a premium of six cents per week for every servant, the employer paying half. A failure to comply with the provisions subjects one to a fine. As proposed originally the bill appeared to give government inspectors the right to enter dwellings, but in response to criticism that was amended so as to deny such inquisition. The statement in a newspaper that the inquisition would become general, brought forth an angry denial.

The feature compelling the mistress to purchase and affix government stamps to the insurance card weekly, produced irritation that is vented in the newspapers.

RELIEVES BAD STOMACHS.

Your Out-of-Order Stomach Will Feel Fine in Five Minutes.

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach, if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your Stomach of poisons, excessive acid and stomach gas, which sours your entire meal—interferes with digestion and causes so many sufferers of Dyspepsia, Biliousness, Constipation, Griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any Pharmacy here, and will convince any Stomach sufferer five minutes after taking a single dose that fermentation and sour stomach is causing the misery of indigestion.

No matter if you call your trouble Catarrh of the Stomach, Nervousness or Gastritis, or by any other name always remember that a certain cure is waiting at any drug store the moment you decide to begin its use.

Pape's Diapepsin will regulate any out-of-order Stomach within five minutes and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

A YOUTHFUL SINGER.

She Was Heard With Great Acceptance.

Picton Times.

She was only a baby, barely three years old, but she had all the unconscious fearlessness of a prima-donna, with many years of experience before the public to her credit. She stood on a chair by the big organ and sang her little Sunday school hymn clearly and sweetly, without apparent effort or any thought of the audience before her than that they were nice people for whom she wanted to sing. After her song was finished she was kept in the choir seats with the young ladies. Later on in the evening's programme a quartette arose to give their number and stood just in front of the youthful vocalist who had sung previously. And then it was noticed that a baby face, with fair hair tied with a big white bow, was softly and carefully crowding in between the two centre singers as she stood on the seat behind. As she gained a place for herself, without the slightest hesitancy, she took up the thread of the song with perfect regard to time and tune, singing through with the others to the end. Her clear, bird-like tones ringing out above the other voices, reaching distinctly to every part of the church. She had learned both words and music from hearing the young ladies practice a few times. Little Miss Houck, whose home is with an aunt, Mrs. Haight, Washburn street, is an especially sweet little lady, and has a remarkable musical temperament, that it is to be hoped may develop satisfactorily as she grows older.

COMFORTABLE.

Traveller in West Gives Praise to New Railway.

A world-wide traveller, having just returned from a visit to Western Canada, has written to one of the chief officials of the Grand Trunk system his unsolicited opinion of the Grand Trunk Pacific railway, and how it serves the travelling public. He says:

"I had the pleasure of travelling from Edmonton to Winnipeg on the new line of the Grand Trunk Pacific, and I would like to say that of the 7,000 miles travelled on railways during my last journey the time I spent on the Grand Trunk Pacific was the most comfortable of my entire trip.

"The road-bed is evidently a fine piece of work, the cars clean and comfortable, the men in charge were most polite and obliging and any question asked of them was answered in a most gentlemanly manner.

"I would like to refer specially to the dining car service, and its equipment, which is the best I have seen. It was in fact a revelation to me after having travelled so far on other roads—the meals being specially good, combined with pleasant surroundings, and beautifully served.

"I beg to say that if it gives you as much pleasure to read this letter as it gives me to write you, you will perhaps pardon liberty I have taken in addressing you."

This is but a specimen of the many letters that are being received by the Grand Trunk Pacific officials, praising the exceptionally fine road and service that is now being operated in Western Canada.

How to Safely Peel Your Face

From Beauty Culture.

If you have a muddy, sallow or blotchy complexion, the most sensible thing to do is to remove it—rather than to patch it over or "doctor" it with any cosmetic, rouge or lotion. The only way to really remove the complexion—aside from resorting to an expensive and painful surgical operation—is by means of ordinary mercolized wax. Spread the wax over the face, as you would cold cream, washing it off in the morning. This gradually absorbs the lifeless and the half-dead outer skin, in minute, almost invisible particles—and gradually the fresh young skin beneath beams forth. Then you have a clear, smooth, velvety, healthy-hued complexion, such as no unnatural method can possibly produce.

Surface defects due to weather, ill-health or the ravages of time, of course disappear with the discarded skin. Ask the druggist for an ounce of pure mercolized wax; this is usually sufficient.

THE SPORT REVIEW

PERCY LESUEUR HAS A NEW GOAL NET.

Lawson Does Not Know Whether He Will Play With Toronto Argonauts Against 'Varsity Next Saturday.

Peterboro will play intermediate and junior O.R.A.

There will be no hockey at Brantford this season.

Alerts and Argonauts will clear about $1,000 each out of the Saturday game.

Alf. Smith, of Ottawa, will throw in his lot with the Canadiens, of Montreal, as manager.

The Eastern Baseball League has been granted a higher classification by the National Association.

Smirlie Lawson has not yet made up his mind whether he will play for Argonauts, Saturday, against 'Varsity.

Petrolea and Alerts of Hamilton will meet in a sudden-death game for the championship of the junior O.R.F.U.

Montreal professions will play twenty hockey games in that city. They will charge $1.25 and $1 for reserve seats, or $1 and 75c. if taken by the season.

At Adelaide, South Australia, "Jack" Donaldson, the South African sprinter, Sunday, defeated Arthur Postle, the Australian, and C. E. Holway, the American, for the world's championship. The distances were 100, 110 and 130 yards. Holway was outclassed.

The Calgary Tigers, who, by virtue of their victory over the Winnipeg Rowing Club, Saturday, have earned the title of rugby champions of Western Canada, are determined to demand a game with the winners of next Saturday's contest between the Argonauts and Varsity to decide the championship of the dominion.

University of Toronto and the Argonauts, finalists for the dominion championship, have agreed on Phil. McKenzie, of Montreal, as referee and Frank Robbins, of Hamilton, as umpire, in the deciding game for the national title at Varsity Stadium next Saturday. Mr. McKenzie has not officiated in any games this season. He refereed the Canadian final at Hamilton last fall, and also handled the Ottawa-Hamilton play-off at Kingston in 1908.

Ottawa Journal: Percy Lesueur's new goal net is some class. The main point is the cord fastened across the top. Instead of the net running back at the top, there will be a cord or bamboo rod from the top of the two posts running level with the top, and the nets will be brought up and over the back. This will force the goal tender to always stand outside the nets, and will also keep out the shots that so often come in at the top of the present nets. At the same time, it will catch some of the goals that are shot from close in and with the present nets go out at the top.

ANTI-FAT NOSTRUMS.

Should Not be Used Under Any Circumstances.

An article in one of the magazines makes some startling allegations regarding the use by society women of drugs to reduce superfluous flesh. The Medical Journal is quoted as saying that physicians are called to attend women who are really in a most precarious condition of health owing to their administering a dangerous drug to themselves in the vain hope to attain the slender figures of girls. The Journal says that most of the trouble is attributed to the indiscriminate use of thyroid glands of animals, a drug extremely useful in some diseases, when properly administered, but a dangerous thing for the ignorant to meddle with. The Medical Journal states that the extract is put up in patent medicine and sold through the mails.

So serious has the situation become that it has been taken up by one medical association, which denounces the use of this dangerous nostrum. The attention of the association was directed to the facts by a recent newspaper article in which it was declared that society women of New York, Boston, Philadelphia, Newport and Narragansett, who recently were reported ill because of their social activities, were, in fact, victims of thyroid poisoning, the drug being taken in some form to keep down the accumulation of flesh which follows a round of feasting. Referring to this drug, the journal of the association says:

"Like most effective drugs, it has its dangerous side. A few years ago when Germany placed strict restrictions on the sale of thyroid, it was common gossip that this action was accelerated by the fact that some of the first women of that country had had an experience similar to that reported from Newport. Thyroid is stated to be used more extensively as an anti-fat than for any other purpose. It would be well for physicians to make enquiries on this subject when consulted by obese patients complaining of sleeplessness, nervousness, palpitation, gastric disturbances, etc. Patients are not very likely to volunteer the information that they have been taking thyroid and still less that they have been patronizing some mail-order house."
