**BISHOP FALLON'S VIEWS.**

What is Bishop Fallon's objection to the bilingual schools in Essex, schools that Sir James says do not exist? In his conversation with Mr. Hanna, as reported by the provincial secretary to Dr. Pyne, the bishop said there were children going to the public schools in certain parts of Essex who were unable to speak English three generations after their ancestors arrived in the county. This he held to be proof that the teaching of English had been neglected among the French-Canadians, notwithstanding the fact that they belong to a province of English-speaking people, part of an English-speaking continent where all children leaving school to engage in

**BOOSTING THE CITY.**

A friend of the Whig, and a former Kingstonian, sends a Duluth Herald, which gives the particulars of a new impetus which that city has received. Duluth is certainly a very progressive city, and one that has been given the benefit of splendid service by very enthusiastic citizens. They have had in remarkable evidence the civic spirit and when a rally was called for the consideration of new plans looking to the enlargement of the city's boundaries and the increase of her population, there was a hearty response from the people.

The men were at the meeting with the right word at the right time, and the occasion was one long to be remembered. It was pointed out that though the Commercial Club was a great help in the civic development, it was always at work and always achieving something. It was not

**BRITAIN'S SUN SHONE.**

Sir Edward Grey's revelations with regard to Germany's designs in Morocco have been complete. When he had finished his statement in the commons everyone breathed easier and for two reasons: (1) The policy of the British empire had been vindicated, and (2) the place of the mother country in the world's politics was shown to be, as usual, safe. The cablegram from Berlin, and to the effect that the German cruiser, Berlin and gunboat, Eber had been recalled from Agadir, revives the controversy that occurred between the British foreign minister and the German ambassador.

The terseness which took place at one time found relief only when the tone of Germany's communications became suddenly, necessarily, subdued. It was a specious plea of Germany that in order to protect the interests of her subjects she had to invade the best and only open port in Morocco, and seemingly, take possession of it for naval purposes. It was the act of a diplomat which Sir Edward Grey performed with both candour and courage, and which left the unmistakable impression that Germany was pursuing an unwarrantable

**EDITORIAL NOTES.**

The oldest member of the conservative party now doing duty in the commons, and the only conservative privy councillor, is Mr. Foster, but Mr. Monk leads the house in Mr. Borden's absence. Still pandering to the nationalists.

Le Devoir rejoices in the end of the naval policy. Mr. Bourassa boasts that he caused the wreck of it with the help of Mr. Borden. Eventually he will be the wreck of the government which has been so anxious to placate or please him.

The shameful alliance between the conservatives and nationalists is now being revealed in parliament. How long does anyone suppose it will continue? Mr. Borden will suffer for it that is appearing.

One sees the Asquith government dismissing the chancellor of the exchequer, because he spoke out sharply and in criticism of German oppression. The Asquith government found a brave little man in Mr. Lloyd-George, and his tongue is not to be silenced by German bluster.

The federal government is being de-

**WILL HE DO IT?**

Sir James Whitney ought to tell the people of Ontario in plain language whether he will have English taught thoroughly in all schools.

(1) By appointing qualified inspectors in French districts and insisting that they do their duty.

(2) By training teachers and insisting on the appointment of qualified teachers.

(3) By insisting on the use of authorized text books for the teaching of English, and excluding those that are not authorized.

There are twelve days before the election in which Sir James Whitney may answer these questions.

**TO PLACE CHECK ON ADULTERATION**

Higher Standard of Inspection of Food, Drugs and Beverages.

Ottawa, Nov. 29.—Notice has been given by A. C. Macdonnell (South Toronto) to a resolution to be presented to the commons, declaring that "the question of the adulteration and description of foods, beverages, and drugs demands the immediate attention of the government, and that it is desirable that the existing law on the subject be amended and strengthened, that standards of foods, beverages, and drugs be established, that the law so amended, and the standards so established be vigorously enforced, and that adequate equipment be provided for the purposes aforesaid."

Mr. Burham (West Peterboro) has given notice that he will move for the appointment of a special committee of parliament to enquire into "the government system of old age pensions, and he has also introduced a bill to amend the election act by abolishing the requirement of a deposit of \$20 by candidates for election."

**Took a Fresh Start.**

Yonks's Companion.

"Yesterday with the Fathers" Dr. Williams' Wonderful Newton gives an entertaining anecdote, concerning one of the "Fathers" and an observant small girl.

When preaching, the bishop had a peculiar habit of breathing in air like an organ bellows; and sometimes the whistling of his air-pipes could be heard by occupants of the pews near the pulpit.

A little girl in Old Trinity church, becoming restless during the preaching, asked her mother to let her go home. The mother refused, because she supposed that the bishop was approaching the end of his discourse.

After the third refusal from her mother, who whispered that the bishop would not like to see a little girl go out of church while he was preaching, and that he was almost done now, the child answered in a high falsetto:

"No, mother, he is not going to stop. I thought so now for three times, but he has gone and blown himself up again."

Choice steers are selling in Winnipeg for \$4.75 per cwt. It is a pity some of our Kingston butchers don't buy them, instead of letting Toronto get the good stuff.

A tremendous wave swept the decks of the steamship Sant Anna, from Marseilles, to New York, and caused the death of four seamen, and serious injury to three others.

Rev. George Mason, pastor of the Unitarian church at Boston, Mass., declares that he will not marry any couples who cannot prove they are in good physical health.

The French government has introduced a measure for combating "corners" in provisions of any kind of merchandise, designed to prevent the illegitimate increase in the cost of necessities.

Charles Wells, of Los Angeles, Cal., was the best student in domestic science at the high school there. The class consisted of thirty-six-thirty-five girls and Wells. He is engaged to be married.

Hon. F. D. Monk, minister of public works, when in opposition, used to pay the way of the Laval students to Ottawa, to hear him rail against the British empire and navy. This year he refused, and the students are mad and won't ask him to their annual banquet.

Dr. Herbert Connor, of the state prison commission, says that the Rev. C. Richeson, charged with poisoning Avis Linnell, told him that his engagement to her was broken by mutual consent, as she intended to pursue a professional career. He further stated that he was in no way responsible for her condition, and only learned of it to his sorrow, and surprise, when she unbosomed herself to him as her pastor, seeking sympathy.
