THIS IS DALTON'S FRENCH DRIP COFFEE POT

which your grocer will give you, absolutely FREE, with 2 tins of

Dalton's French Drip Coffee

AT 50c. A TIN

Dalton's French Drip Coffee is the Coffee that is all smiles. It is as different from ordinary Coffee, as pan-dried rolled oats are different from oats fed to horses.

Nature lines the Coffee berry with an inner coating to prevent insects destroying the berry while green. This coat is tough, indigestible and bitter with tannin. Ordinary Coffee contains this. tough, bitter shell. The Dalton's method is to roast the Coffee by a special process which retains all the richness and flavor, the exquisite bouquet and aroma.

After the Coffee is ground, another special process removes every particle of hull-leaving only the wholesome, healthful heart of the Coffee berry, rich in gastronomic charm.

You can drink Dalton's French Drip Coffee for every meal, every day, without fear of Headaches, Indigestion or, any other ill-effects resulting.

But Dalton's French Drip Coffee must be made right to taste right—and that means, without boiling. We limit one Coffee Pot to a family and desire that both kinds of our Coffee be bought.

The French Drip, or Percolator, Process is the only way to make really good Coffee. This, however, does not mean that you go to the extra expense of buying a costly Percolator.

We have secured sole rights for a French Drip Coffee Pot—one that is reliable, easy to clean, simple in operation. We have tested it for several months and can say that this French Drip Coffee Pot will make Dalton's French Drip Coffee just as it should be made-anyone can

If you like Coffee at all, we know that you will be delighted with Dalton's French Drip Coffee WHEN IT 18

PREPARED. To insure this, we give you one of these \$1.30 French Drip Coffee Pots, stely free, with your first order of a tin each of Dalton's MILD and STRONG Coffee at 50c, a tin.
