HAD A FINE DINNER

THE ENGINEERS OF QUEEN'S ENJOYED THEMSELVES.

The Speeches Were Exceedingly Interesting and Inspiring—The Theme Was the Upholding of a Canadian Nation.

The upbuilding of Canada was the dominant note of all the speeches at the dinner of the Engineering Society of Queen's university, in Grant hall, on Wednesday night.

Some three hundred were in attendance at the gathering and presented a stirring light throughout the activities of the evening.

E. L. Longmore presided and was supported on right and left by Principal Gordon, Dean Goodwin, William Chapman, Toronto Dr. W. J. Miles, Toronto, D. H. Browne, Copper Cliff, C. R. Coutlee, Montreal Peter Gillespie, Toronto, A. W. G. Wilson, Ottawa, Mr. St. George, Montreal, G. Guess, M.A., of Peru, Mr. Hogr, of the Canadian Engineers, Toronto, Col. Crowe, Captain Hughes, R.E., D. M. McIntyre, K.C., Ald. John Carson, Ald. D. A. Givens, H. A. Calvin, E. H. Penné, Ottawa, Dean Ellis, Dr. Jordan, Dr. Duppis, R. J. McClelland and J. G. Elliott.

The menu was of an excellent character and was well served by Marshall Reid, who had as his assistants a large body of the arts students. On the programme under every course was an expression from various members of the professional staff, and these were quite amusing when the circumstances under which they had been uttered were known.

The toasts were few in number. "The King" was remembered and was immediately followed by six addresses from prominent Canadians.

Willis Chipman, Toronto, talked vigorously on the need of pure water. He pointed out how contaminated Lake Ontario has become and estimated that in future years the cities

along its borders must filter the waters as well as treat the sewage, which has heretofore run unabated into the lake.

Dr. W. J. Miller, one of the early graduates of the School of Mining, was pithy and pointed in his remarks, contending that much of the success of the mining industry of Canada was due to the work of the School of Mining, Kingston was one of the best centres of the whole dominion for the location of such a school. It has advantages not possessed by any other place.

A. L. Browne, metallurgist at Copper Cliff, discussed the view that university training was of little value in practical life. He showed the feasibility of this idea and in a glowing eulogy extolled university education as providing culture, friendship and inspiration to every one who passed through its halls. With knowledge practical work could be readily mastered, Mr. Browne made the address of the evening.

C. R. Coutlee, Montreal, discussed on the possibilities of Canada, and the demand there was for the highest type of citizens, so that the foreign element flocking to our country can be assimilated and made thoroughly British in type. This was to be the white man's burden.

Peter Gillespie, of Toronto, pointed out to the young engineers the great responsibilities that rested upon them in the work of transportation and city planning, and declared that these great requirements were but in their infancy. He predicted an enormous population for Canada and a string of times for those upon whom the responsibility of government must rest. Engineers must bear their full share.

A. G. Wilson, of the bureau of mines, Ottawa, called for a better knowledge of the English language, showing the necessity for it in the reports that engineers must make. They should know the language so well as to convey their thoughts in the plainest form to those who require their services.

E. E. Watta, proposed the toast of "The Faculty," and Prof. J. C. Gwillim readily responded. The toast to "Sister Universities" was proposed by N. A. Kemp, and responded to by R. E. Billington, of McGill, Montreal, and Charles F. C. Sweeney, of the Royal Military College. They all spoke of the benefits of cordial relationship between the universities, and praised Queen's for her liberality and support and the genuineness of her interests in the sister universities.

During the evening the faculty song was delivered in two parts by a fine orchestra. The song was dedicated to the faculty, a cake-cutting, which was presided over by each of the professors. It created much amusement.

The gathering broke up at midnight with the feeling that the fifteenth annual dinner just concluded, was the best that had ever been held at the University by the Engineering Society.

AT THE POLICE COURT.

Much Tangled-Up Case Before the Magistrate.

It was a very much tangled up case that Magistrate Farrell had on Tuesday morning. "Bert" Wright was accused of stealing a stove and a baby's crib from one, Elizabeth Blakely, but in the end the charge against Wright was withdrawn, as it was shown that he did not intend to steal the articles, but in getting at the facts of the case a queer mix-up was revealed.

W. F. Nick acted for the accused, and D. A. Givens appeared for the prosecution and the two succeeded in getting at the facts and having a settlement.

Elizabeth Blakely, the complainant, rented a house to Wright and it was alleged that the latter, when moving, removed the articles mentioned which had been seized by Mrs. Blakely for rent due from another tenant.

Wright, however, contended, that he had no intention of stealing the articles, but had been given permission to use them while he was in the house. He was quite willing to hand over the things to Mrs. Blakely, and the case was disposed of with this understanding.

WHERE ARE THE REMAINS

Of William Coleman Who Died in General Hospital.

Enquiry is being made as to what has been done with the remains of the late William Coleman. The deceased had been working on the C.N.R., near Perth Road, and was fatally hurt by a stone falling and striking him on the head. The remains were said to have been buried in Cataract cemetery, but on enquiry it was found that they had not been interred there. If the remains are not claimed within forty-eight hours after the death took place, it is the duty of the anatomy inspector to look after them. As yet he has not received any information as to what has been done with the body. The remains may have been buried in another cemetery.

Knew His Brother in China.

Hum Haw, proprietor of the New York Chinese restaurant on Princess street, comes from Hong Kong, China, where John L. McPherson has been for the past six years. Hum's brother is still in Hong Kong, and Mr. McPherson knows him well.

Yacht Club Dance.

Another enjoyable dance was held in the yacht club Wednesday evening. Quite a large number attended and danced until the wee sma' hours of the morning. Refreshments were served during the affair.

Will Not Receive.

Miss Lillian Knowles and the young ladies in residence at the Y.W.C.A. building will not receive again on Saturday afternoon until after the New Year.

"Known in every home in Kingston, high-class sweets are sold at Gibson's." Music! Buy book over 100 home songs, 50c., to sing Christmas time. Dutton's music store.

The home high-class sweets for Christmas, Gibson's Whig on Saturday.

Two HOLIDAY BOOKS

THE FOLLOWING OF THE STAR By Florence L. Barclay, Author of "The Rosary."

A WEAVER OF DREAMS By Myrtle Reed, Author of Lavender and Old Lace; etc.

A beautiful Christmas love story, instinct with the same depth of feeling, glowing imagery and refinement of literary art as "The Rosary," and told with all the power and sweetness which won for Mrs. Barclay's earlier books their place in the front rank of recent fiction. Net, \$1.35

A delightful love story showing the same power of characterization, the same charm of fancy and the same delicate sense of humor which distinguish her earlier books. Exquisitely bound in lavender cloth. Frontispiece in color. Price, \$1.35

TO AID SANTA CLAUS

TO HELP HIM MAKE MANY HOMES HAPPY.

The Citizens Are Urged to Help Make a Fund that Will Bring Cheer and Gladness to Every Destitute Home.

This Christmas of 1911 promises to be the most prosperous that the dominion has seen for a long period in her history.

Our bountiful harvests and the blessings of an excellent year in the financial and business world ensure for all except the least fortunate a season of cheerful good-will, which has never been surpassed in the nation's history, and this fact will help to make the outlook seem more dismal for those of the least fortunate ones to whom the season carries no promise and no cheer.

The brighter the light the darker the shadow, and the more cheerful and prosperous and generally beautiful is your Christmas the deeper appears the gloom which shrouds the lives of those unhappy little humans to whom Christmas is merely a time when, perhaps, the cold dark weather makes the fact that there is no fire in the stove a life-sized calamity.

If the public could only read the little messages that daily come pouring into this office, perhaps it could appreciate more fully the wants of the children.

On December 9th, the Whig acknowledged \$45.80 for the Santa Claus fund. On December 11th, through error this amount was made \$48.80, though nothing was added over Sunday. To-day we deduct the \$3 caused by the error and acknowledge \$52.80. To this has been added the following:

- Whatsoever Circle, King's Daughters \$5.00 Mrs. C. A. Barry, St. Lawrence, Ont. 1.00 Master Norman Gage 1.00 "Mary" 1.00 Miss M. Smith 75 E. and M. Allen 33 A Friend 70 A Little Boy 65
