The Home of **ORANGE MEAT** and **ORANGE MAIZE**, Kingston, Canada

The largest premises in Canada devoted exclusively to the manufac-
ture of Flaked Foods from Wheat and Corn.

Their Products are Known All Over
the Dominion

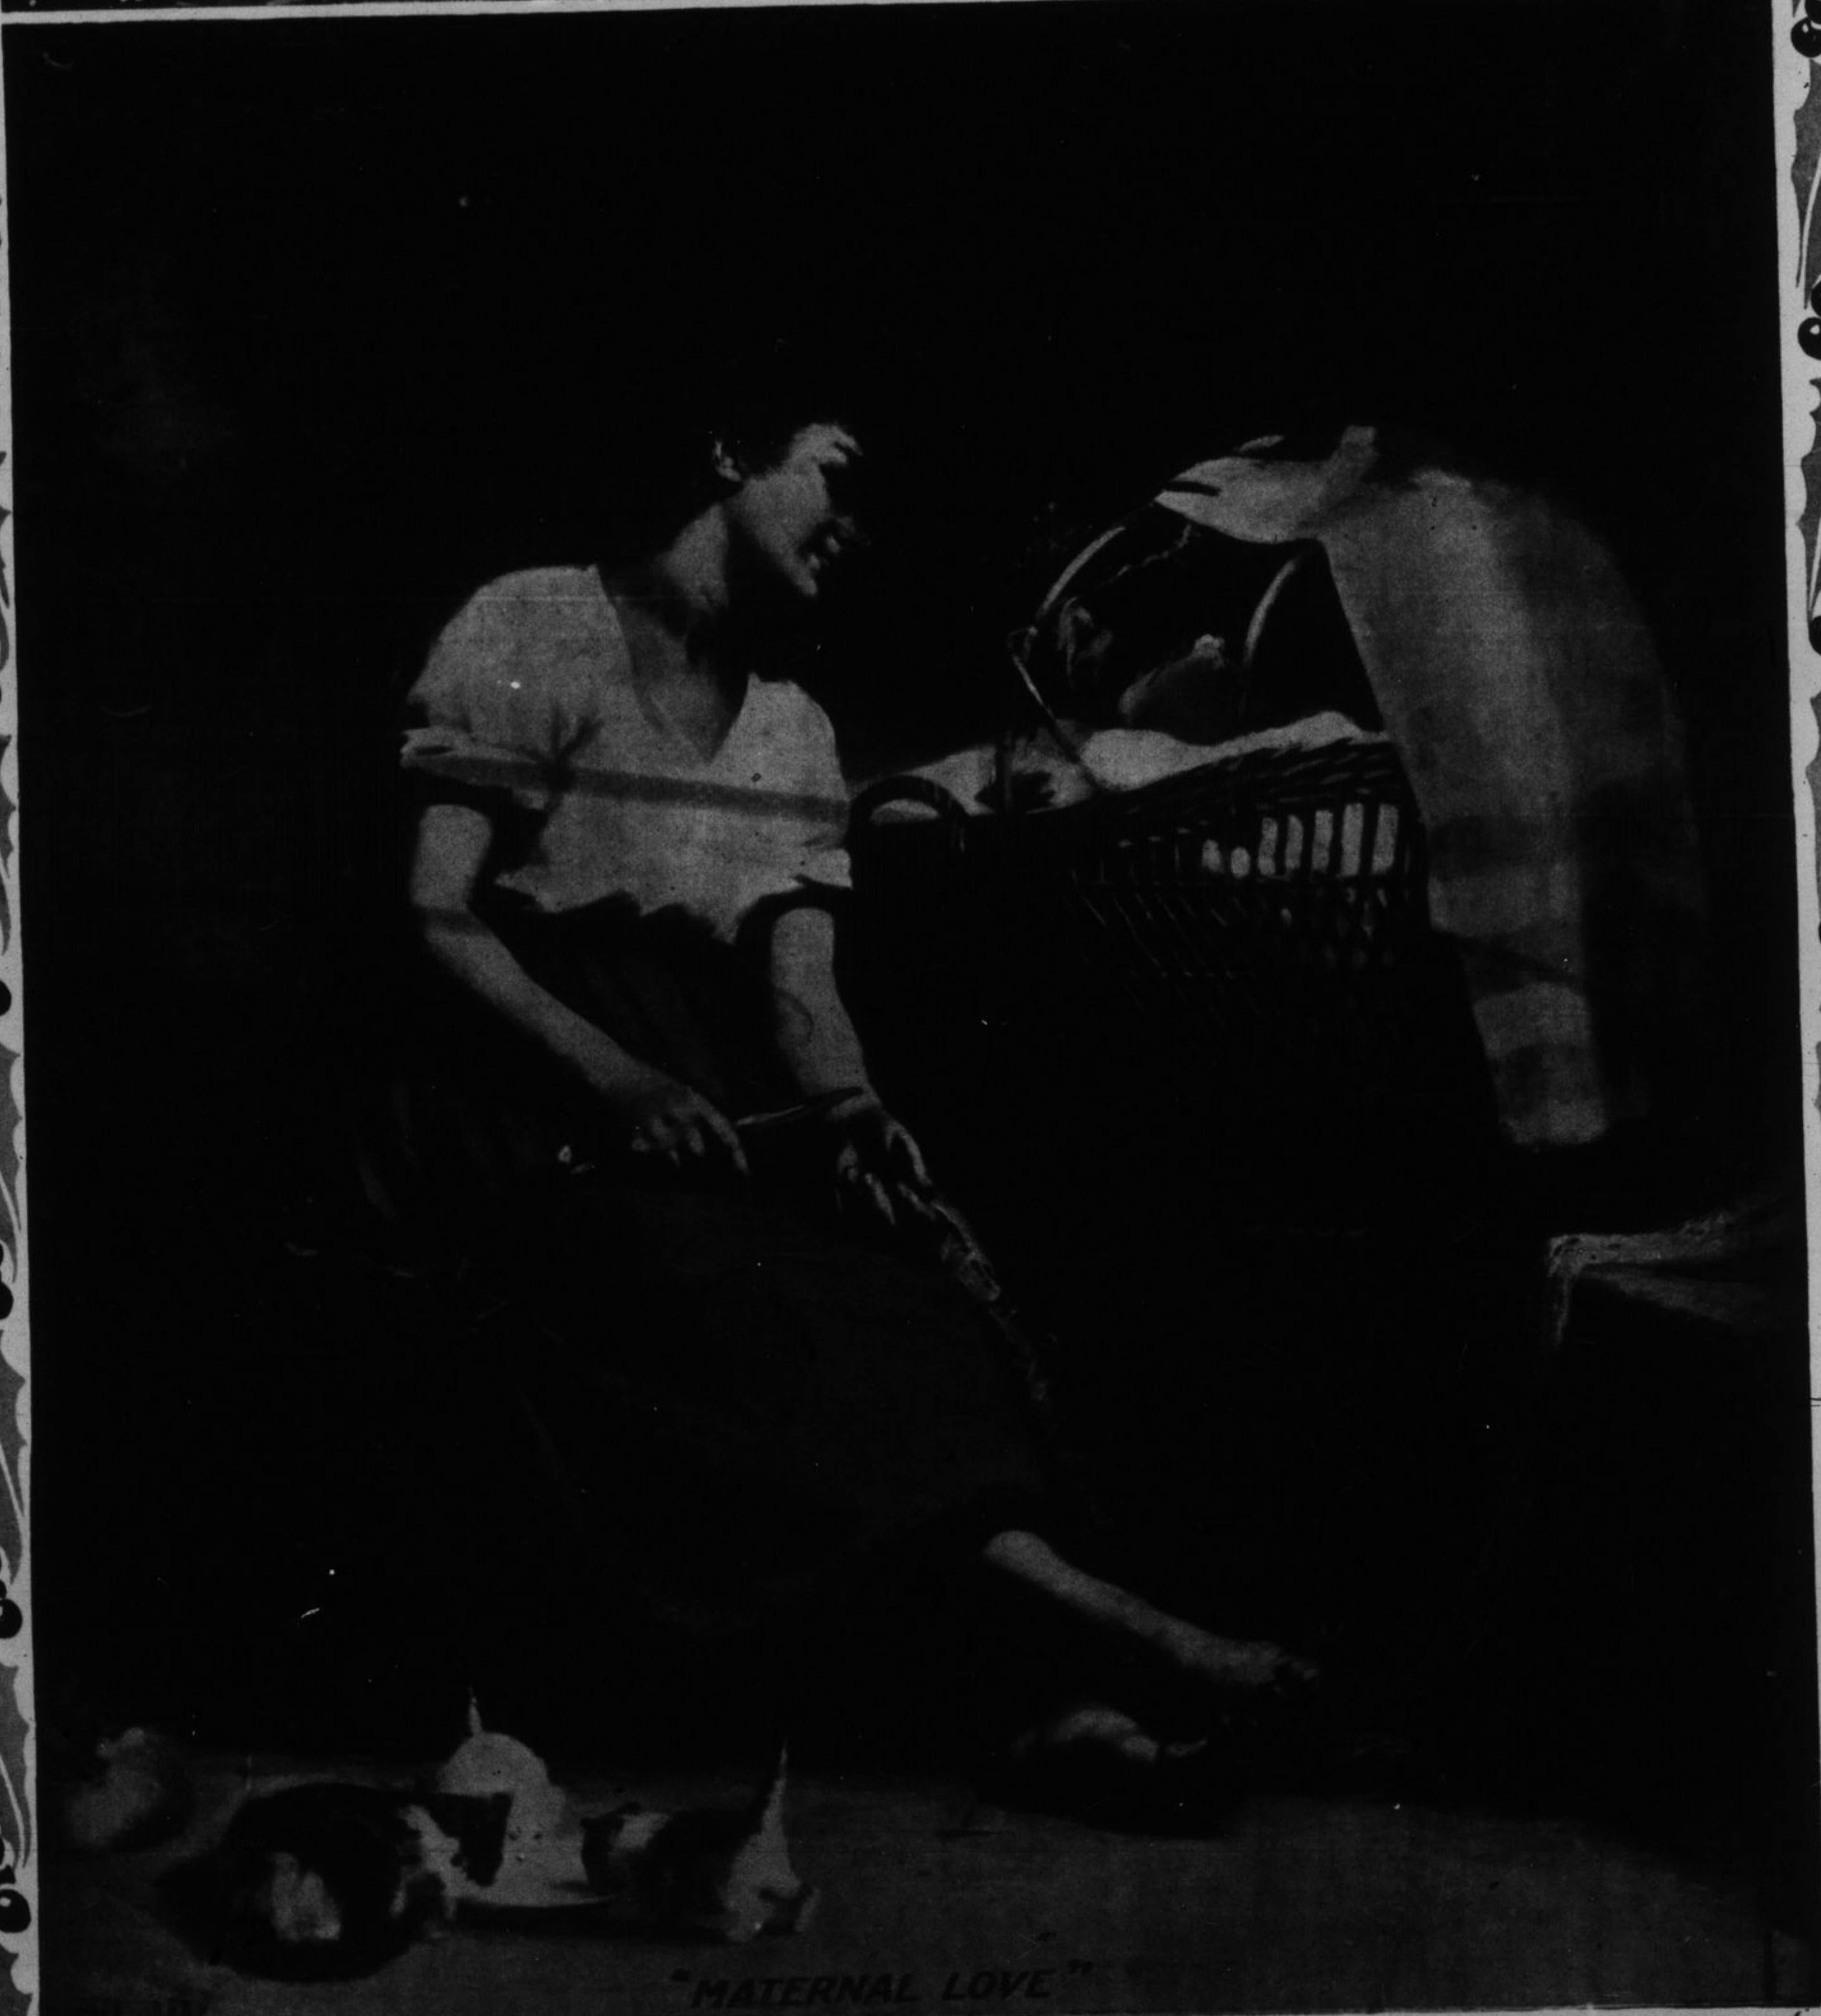

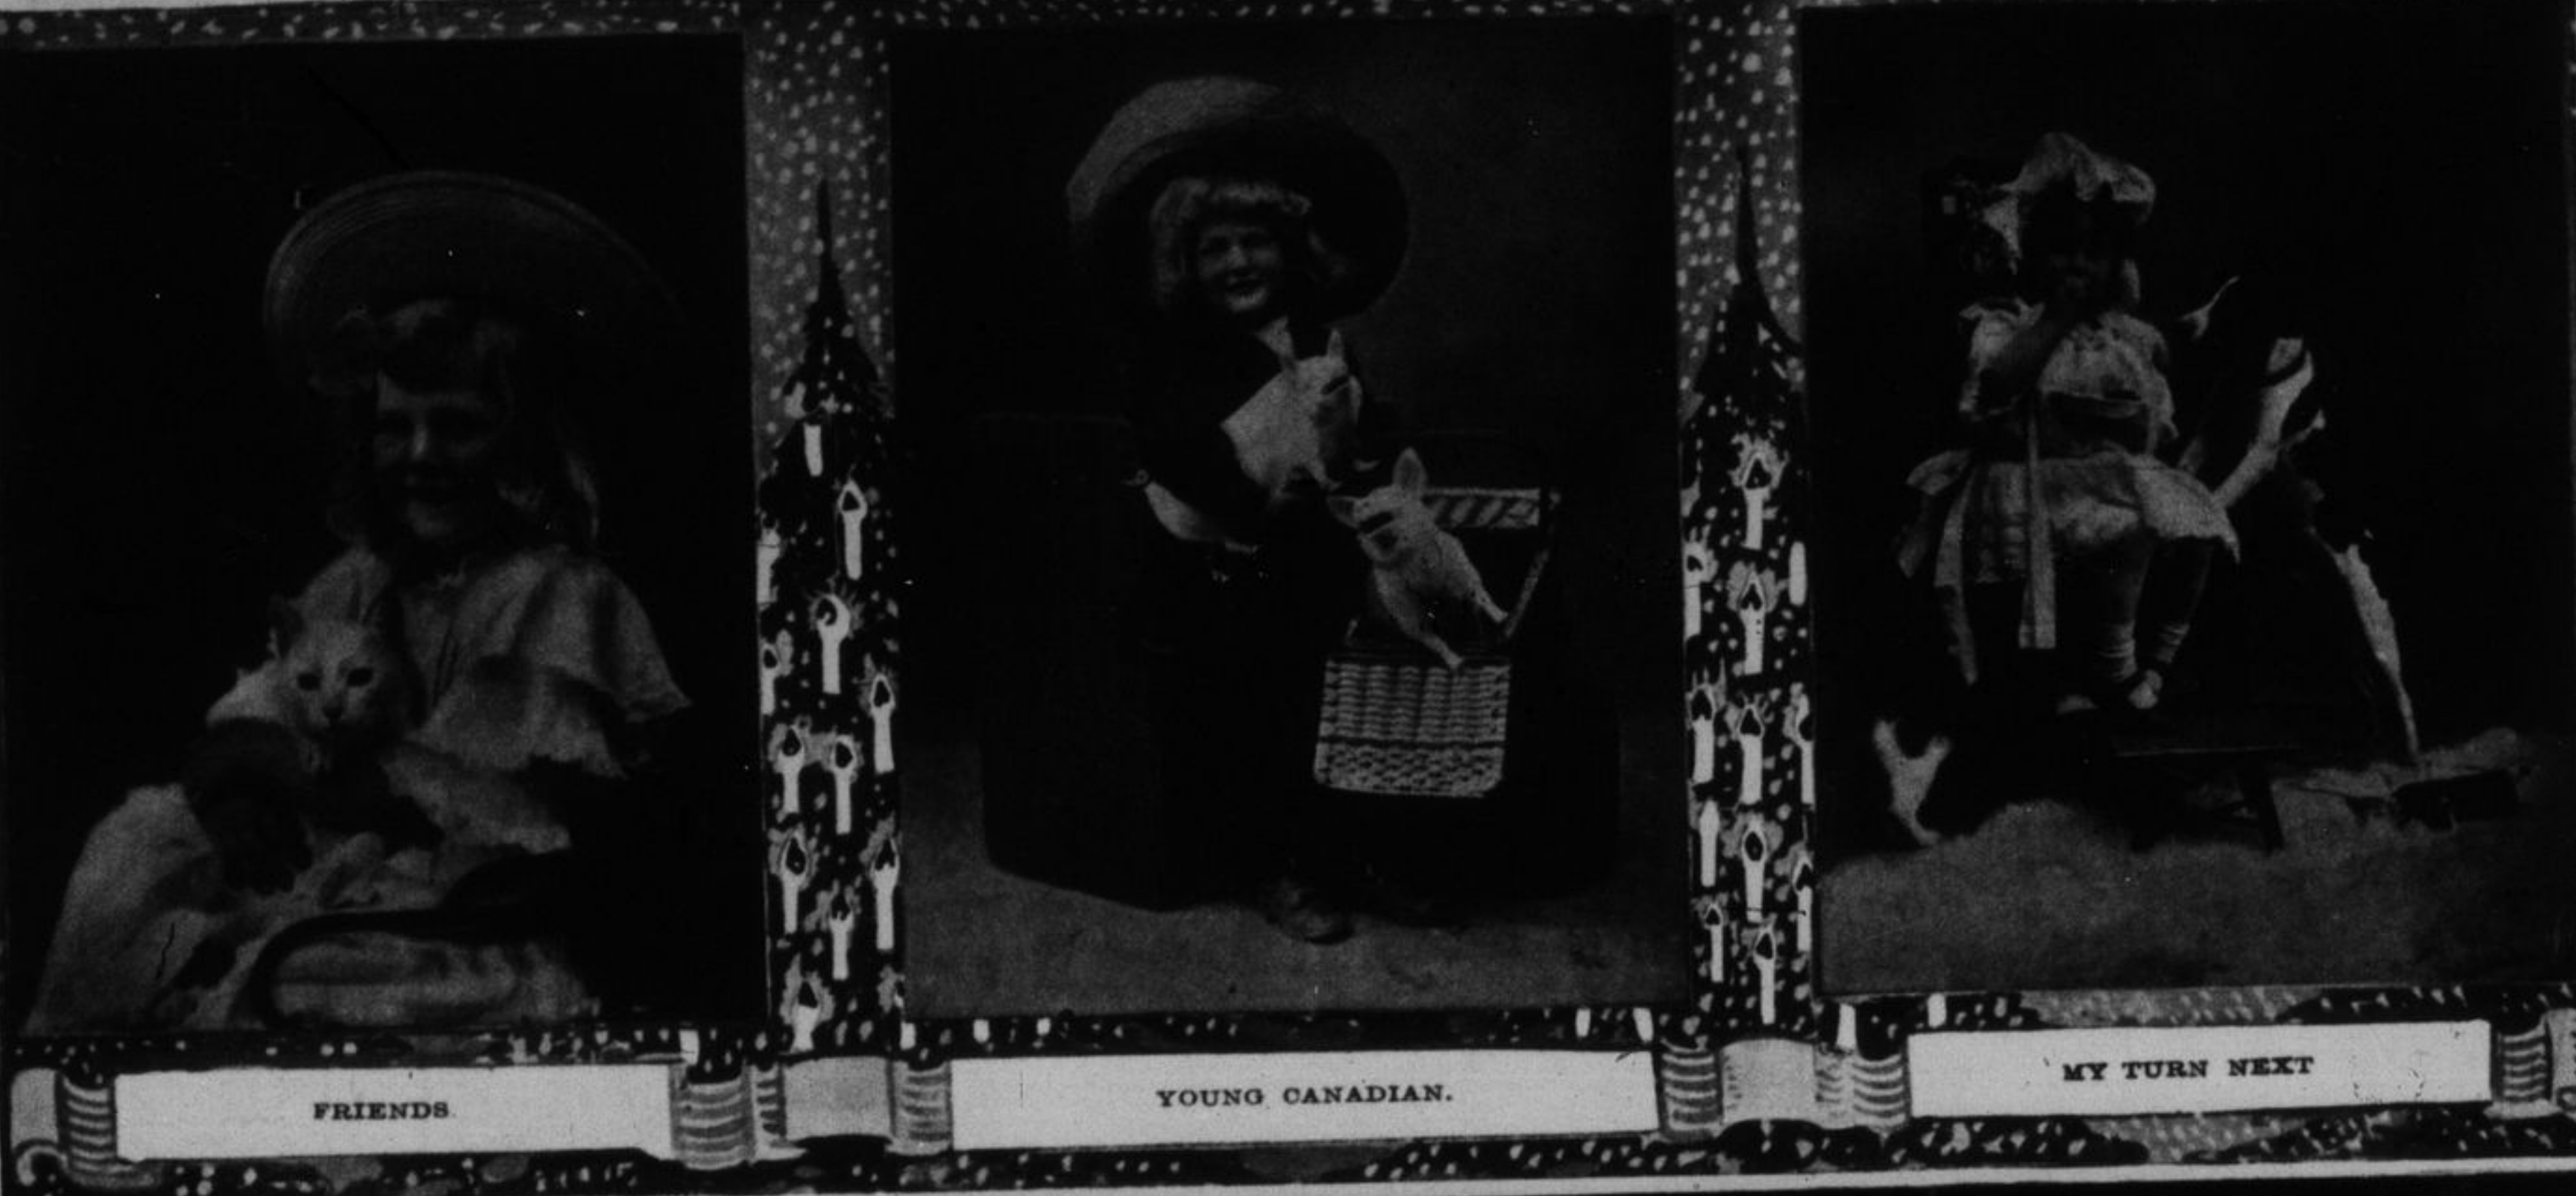

ORANGE MEAT

Only the choicest wheat is used in the making of **ORANGE MEAT**. The wheat after being washed is thoroughly steam cooked. Malt, sugar and salt is added. The whole wheat berries are then flaked and toasted, which develops their maltose qualities. Each wheat berry thus provides the highest percentage of nutriment.

ORANGE MAIZE

This is made exclusively from Corn. The choicest white corn is procured, which is degerminated, flaked and each kernel broken into grits. They are then steam cooked, flaked and toasted. Enough diastase is used to convert the starches into a most easily digested and nutritious food, commonly known as **TOASTED CORN FLAKES**

FOR SALE AT ALL GROCERS

THE ORIGINAL OF THE ABOVE FAMOUS OIL PAINTING IS FROM THE BRUSH
OF CANADA'S GREATEST ARTIST
PAUL PEEL
AND NOW HANGS IN THE NATIONAL ART GALLERY, OTTAWA, CANADA.
