Prof. Von Wasserman has had remarkable success in treating mice, which had been in 'phones, and when the programme for fected with cancer by injecting into the veins a preparation of cosin and selenium. After the fourth injection the cancerous tumors almost disaping the cancerous tumors almost disaping the world. At present it stands peared and in ten days some were entirely cured.

The professor, in making this announcement, was careful to say that he was not yet justified in assuming that similar results could be attained in human beings, but he contended that the view which has hitherto been held that it was impossible to reach a tumor by chemical means through the blood and thus destroy it has been proved by his experiments, to be untenable. The experiments were tried of sarcoma.
