Until I took "Fruit-a-tives"

SARNIA, ONT., Feb. 5th, 1910. "I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors but

derived no benefit whatever. Finally, I read an advertisement of 'Fruit-a-tives'. I decided to give 'Fruit-a-tives' a trial and found they did exactly what was claimed for them. I have now taken 'Fruit-a-tives' for some months and find that they are the

only remedy that does me good.

I have recommended 'Fruit-a-tives' to a great many of my friends and I ought to be a reasonable certainty the end. cannot praise these fruit tablets too PAUL J. JONES

"Pruit-a-tives" is the only natural cure for Constipation and Stomach Trouble, because it is the only medicine in the world that is made of fruit juices and valuable tonics. Hundreds of people have been cured, as if by a mirscle, by taking "Fruit-a-tives", the

enormous prices or sacrifice ther Oats, 48c.; local wheat, \$1.05; busk have been as abnormal as were the conditions that prevailed last summer. An early cold dip, with sleighing, came in November, while much of the turnip harvest in Wellington and other northerly counties was still in the fields. This was followed by a soft spell during which plowing was resumed in Prince Edward, in the front of Durham and other sections. In Toronto a bunch of dandelions in full bloom was picked on Saturday

afternoon by F. Christie in a ravine crossing Bathurst street north. Methods of Feeding Hogs.

1. Where skim-milk is available, good returns can be gotten from feeding three pounds skim or buttermilk to me pound of a mixture of corn and horts. As the pig grows, gradually reduce the shorts. Toward the end of the fattening period, the slop should be limited, as hogs seem to "finish" better on small amounts of water or

2. The most common practice among swill feeders is to give the pigs al the swill they will clean up, endea-voring to get a growthy hog. Usual-ly they are fed little or no corn, and are sold in a half-fat condition. As previously mentioned, much cheaper gains could be gotten by adding one \$2.50; medium, \$1.50; small, roc.; pound tankage to ten or twenty mink, as to color and size, 82 to \$6; pounds swill. Finishing on corn would muskrats, 25c. to 42c.; weasels, 20c. to insure a better grade of pork.

3. Still another system utilizes hog- John Mckay, Brock street, reports power for the harvesting of clover, as follows: tion with the other two systems.

Poultry Pointers.

Judge not a hen by her beauty, but by the way she does her duty. You may feed all the food your hens can possibly use, but if you are short of grit, the results will not be satis-

It is not good for hens to dust in coal or wood ashes only, some folks claim, but we find that a few ashes lighten up the dirt.

Noon is a good time to supply the stock with some green stuff, such as cabbage or roots of any kind. The Erastus had worked so long and faithlatter can be cut in half, and the hens fully presented him with a mule, he will then pick them to pieces. "He's a bad kicker, Uncle 'Rast,' Have the floors of the houses well

bedded with some light litter, so that said the son of the family." "I told the biddies will be induced to scratch, father I didn't see what you would

fashioned way of preparing and mix- acts contumacious an' starts in to ing a wet mash is done away with, back, I's gwine to take him right on account of its tedious and needless out'n de cyart, turn it round, an' den expense of time and labor. The hop-harness dat mule in hindside belo'. per is filled with a variety of ground Dat'll humor him, an' it'll get my grains, and placed where it is accessi- eyart up de hill jes' de same." ble to the fowls at all times. With this arrangement the heas need never go to roost without sufficient food.

Every man who has had experience of the same town. in the hog business knows how hard Miss Ruchel Latham, of Halleck, and it is to profitably feed a "stunted" W. H. Earle, of Querrin, Sask., for pig or a "runt." The former can be merly of Lanadowne, were married on prevented by keeping the pigs healthy Wednesday.

and liberally supplied with a balanced, ration. But the lateer can only be avoided by selecting with great care sows capable of producing strong,

healthy litters. There is a marked difference in the number and vigor of pigs farrowed by sows of the same breed, and even greater difference between the breeds. Ordinarily, Poland-China sows farrow small litters (ten to nine pigs); but the pigs fatten quickly and mature

easily. On the other hand, Yorkshire sows produce large litters (ten to fif-Give the colt plenty of exercise dur- teen pigs), which develop into large, ing the cold weather if you want w growthy hogs. Berkshires and Durocsecure a steady growth with good Jerseys fall between the above extremes, both as regards size of litters

Feeding For Eggs.

is at all favorable, and seed goes have found that low-priced foodstuffs, into the ground early enough, there as a rule, are the most costly feed in Foodstuffs, to have a practical value gnd Home, be fitted to the horse, the variety that will furnish the poultry the just the nutriment required to deno develop whatever particular product

that may be desired, without the poultry having to digest a lot waste material, that they have no immediate use for. As the old saying goes, ".. s just what you put into a thing as to what you take out." This saying is certainly true in the poultry the ordinary market, but they can be industry, as hens are only capable of turned into an excellent quality of developing eggs or meat to that capacity in accordance with the material they have to work with. Nature has not given them the power of converting what they eat into any element

We have become accustomed to the To illustrate the matter in a plain place for the bacillus of glanders. | would only be seventy-three eggs per The official crop report of the hen in a year, but it contains fatdevelopment of the eggs, it is plain to be seen that the energy of the digestive organs, when fed on a corn ration entirely is taxed to about double the capacity they should be, which means a loss to the raiser of no less t than fifty cents per hen in a year.
