IAm Willing To Prove I Can Cure You

To That End I Am Giving Away \$10,000 Worth of Medicine

In order to show beyond all doubt that I am in possession of a medicine that will cure kidney trouble, bladder trouble or rheumatism. I will this year give away ten thousand dollars' worth of this medicine, and anyone suffering from these diseases can get a box of it absolutely free. All that is necessary is to send me your address.

I don't mean that you are to use a part of a tor all of it and pay me if cured. I mean that I will send you a box of this medicine absolutely free of charge, a gift from me to the Uric Acid sufferers of the world, so I can show them where and how they may be cured. I will not expect payment for this free medi-cine, nor would I accept it now or later if you sent it. It is free in the real meaning of

For twenty-five years—a quarter of a cen ary—I have been trying to convince the pub For twenty-five years—a quarter of a century—I have been trying to convince the public that I have something genuine, something better than others have for the cure of atubborn, chronic rheumatism, for torturing kidney backache, for annoying calls to urinate. But it is hard to convince people—they try few things insuccessfully and give up all hope and refuse to listen to anyone thereafter. Happilly, I am in a position now to demonstrate to sufferers at my own expense that I have a medicine that cures these diseases. I don't ask them to spend any money to find out; I don't ask them to spend any money to find out; I don't ask them to believe me, nor even to take the word of reliable people, but all I ask is that they allow mo to send them the medicine at my own cost. That is surely fair.

To this end I have set aside ten thousand dollars, which will be used to compound my medicine. Much of it is ready now to be sent out, all of it fresh and standard. There will be enough for all sufferers, though there he thousands of them. And anyone who needs it can get some of it free. But in order that I shall know that you have a disease for which this medicine is intended, I ask you to send me some of your leading mymtoms. If you have any of the symptoms over, see which symptoms you have, then write me ahout as follows: "Dear Dr., I notice symptoms in the list printed bree you need my medicine and if you will write me I will glady send your use. Look the symptoms over, see which symptoms you have, then write me about as follows: "Dear Dr., I notice symptoms on maker"—here put down the numbers, give your age, full address, and send it to me. My address is Dr. T. Frank Lynott, 837 Franklin Building, Toronto, Cun.

The ten thousand dollars I am spending for the compounding of my medicine is only a spending for the compounding of my medicine is only a spending for the compounding of my medicine is only a spending for the compounding of my medicine is only a spending for the compounding of my medicine is only a spending for the The ten thousand dollars I am spending for the compounding of my medicine is only a part of the money I am devoting to this cause, for the package of medicine I send you will be fully prepaid at my expense. From any standpoint you view it, YOU incur no expense or obligation. Just tell others who you know are suffering who sent you the medicine that cured you.

I am promising to give away ten thousand dollars' worth of medicine, and I will do that; I am promising to send any sufferer who writes me a box of this medicine and full directions free of charge, and I will do that

Are You a Victim of La Grippe?

INFLUENZA, or, as it is popularly known, La Grippe, is an infectious disease which should not be treated lightly—in even apparently mild cases, complications may readily develop and as it is peculiarly depressing to the heart, serious failure of heart power is a positive danger. Other complications which may set in are pneumonia, bronchitis, neuritis and meningitis.

As may be seen from the above, La Grippe even when mild

in its onset, is fraught with very positive dangers if not taken strictly in hand,

MILDUID HIVALIUD FURI

(A la Quina du Pérou)

is extensively recommended by the medical profession for Influenza as it mitigates cough, promotes expectoration and at the same time allays irritability.

The principal ingredient of this wine tonic, extract of cinchona bark, is a

standard remedy for the fever that is always present in this disease, whilst the pure Oporto grape wine prevents cardiac depression, gradually restoring normal strength to all organs affected.

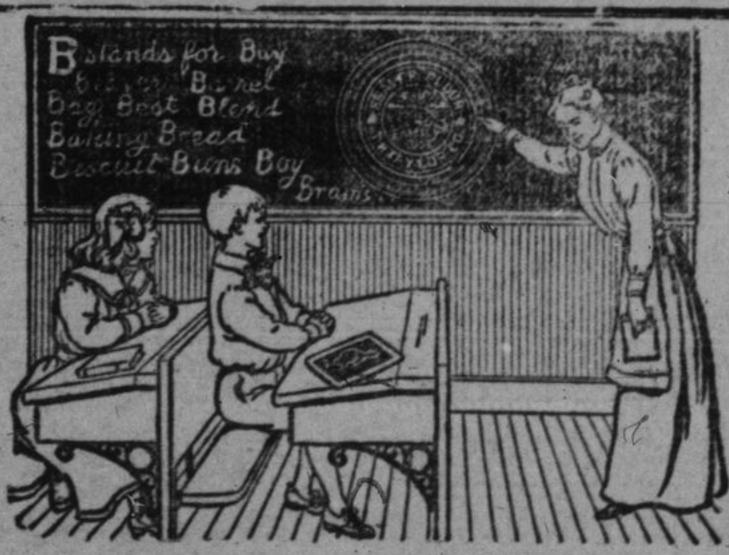

It is pleasant to the palate, the cinchona being perfectly covered, and can be borne by the most delicate stomach. Dr. JAMES NEWELL, Watford, Ont., says:

"I have found "Wilson's Invalids' Port" of great use in the convalencement
of exhausting diseases. I have since my attention was directed to this wine,

prescribed it in several instances, probably half a dozen, to my patients recovering from Influenza (I,a Grippe) and with very happy results. They found it very comforting and refreshing, much more so than ardent or distilled spirits, which are usually not relished or borne well".
