

Tightens Her Skin—Loses Her Wrinkles

(From Social Mirror.) "I want to tell you how easily and quickly I got rid of my wrinkles," writes one of our correspondents. "While in London a friend, much envied because of her youthful appearance, gave me a formula for a home-made preparation which has the effect of instantly tightening the skin, thus smoothing out wrinkles and furrows. "The principal ingredient is powdered azoic acid, which I found could be procured at drug stores here. An ounce of azoic acid is dissolved in a half pint of water. After bathing my face in this but once the transformation was so marvellous I looked years younger. Even the deep crow's feet were affected, as were the annoying creases about my neck. It seems difficult to believe that anything could produce results like these, but several to whom I recommended the remedy have been similarly helped, including an elderly lady whose cheeks had become quite baggy."

TRAVELLING.

GRAND TRUNK RAILWAY SYSTEM

Eastern Ontario Live Stock and Poultry Show OTTAWA, ONT., JANUARY 15th to 19th Round Trip Tickets will be issued at \$3.70 Good going Jan. 14th to 18th, return limit, Jan. 20th.

WHITE STAR DOMINION

LARGEST STEAMER IN CANADA CHRISTMAS SAILINGS FROM Montreal, St. John, Halifax, N.S., St. John's, Nfld., and other ports.

Tips For the Farmer

BY UNCLE JOSEPH

Timely Pointers.

Sawdust is said to be an excellent substitute for straw for bedding for cows. Perhaps the time may come when farmers will be buying sawdust for bedding, but the day is a long way off if proper care is taken of the straw.

Working in the straw pile at three-fifths limit is hard on disintegrating work. It is so hard to get men to work a good straw pile that some farmers pay extra wages to their straw pile men in order to have a pile of straw that is a real stack.

When one finds himself with more cattle on his hands than he can feed liberally through a long, hard winter he is at a loss to know whether he should feed liberally in the fall and cramp them in the spring or reverse the operation. There is one way around this knotty problem that works quite well and that is to sell some of the stock and keep the rest well. If any feed can be spared in the spring there will be many buyers.

Value of Cow Testing.

An address on the value of cow testing was delivered by C. F. Whitney, of the dairy department at Ottawa, at the closing session of the Eastern Ontario Dairyman's association yesterday. Before a cow can return a profit of even one cent she must give over 4,000 pounds of milk per year, he said.

Record Cheese Price.

The highest price ever received on an Ontario cheese board—fifteen cents—was paid last week for a grade of Glendinning in his presidential address at the Eastern Ontario Dairyman's convention, held at Campbellford last week. But this high price was accompanied by a feed shortage, in many sections, that offset its benefits.

ASTHMA CATARRH

WHOPPING COUGH CROUP BRONCHITIS COUGHS COLIC Vapo-Resolene

A simple, safe and effective treatment for bronchitis, asthma, catarrh, whooping cough, croup, bronchitis, coughs, colic, etc. Used with success for thirty years.

GIFTS

Large stock of Fancy Boxes of Chocolates. Big variety of best makers' goods kept in our store.

Geo. Masoud's

Wandering Yankee

As Mr. Amos A. Gard, the well known Litterateur of Ottawa Ont. is called, says in an unsolicited testimonial For Zutoo Tablets

Zutoo Tablets

"Zutoo Tablets stop my headaches so completely that I do not mind having them any more."

END STOMACH TROUBLE.

Indigestion, Gas, Dyspepsia and Heartburn Go in Five Minutes.

As there is often some in your family who suffers an attack of indigestion or some form of stomach trouble, why don't you keep some Diaperin in the house handy? This harmless blessing will digest anything you eat without the slightest discomfort, and overcome a sour, gassy stomach five minutes after.

Tell your pharmacist to let you read the formula, plainly printed on these 50-cent boxes of Pape's Diaperin, then you will readily see why it makes indigestion, sour stomach, heartburn, and other distress go in five minutes, and relieves at once such miseries as belching of gas, eructations of sour, undigested food, nausea, headaches, dizziness, constipation and other stomach disorders.

Some folks have tried so long to find relief from indigestion and dyspepsia or an out-of-order stomach with the common-every-day cases advertised that they have made up their minds that they have something else wrong, or believe there is a case of nervousness, gastritis, catarrh of the stomach, or cancer.

With the Live Stock.

Never put hot water directly into the cream. A reliable thermometer should always be kept handy and used. Guesswork doesn't pay when making butter.

Record Cheese Price.

The highest price ever received on an Ontario cheese board—fifteen cents—was paid last week for a grade of Glendinning in his presidential address at the Eastern Ontario Dairyman's convention, held at Campbellford last week.

HEAVY DRINKER CURED.

Samaria Cured Him and He Helps Others. A man who has been released from the awful ravages of drink, and whose first thought is to help others, shows the spirit of true brotherhood and philanthropy. Read his letter:

"I will you please send me book on drink, also circulars relating to your valued remedy for the drink habit. I wish to hand these to a friend who will remember that I have taken your remedy. I never think of taking or using strong drink in any way, as all I want is health and I cannot speak too highly of your wonderful remedy. You may use my name in any way you wish in public."

HORNS AFFECT FLOW

CATTLE SAID TO BE BETTER OFF WITHOUT THEM.

While Some People Think it Cruel to Dehorn Cattle, Experts Agree That Practice Improves the Herd. One of the many odd jobs on the farm, that should not be neglected in the off season, is dehorning the young cattle and such cows about the place.

The implements necessary to perform the work are a thin rope, and a clean, sharp meat or mitre saw, with a rigid back. Dehorning clippers may be used instead of a saw, but are more expensive when they have to be purchased since they are for only one herd.

The horns should be severed from a quarter to half an inch below where the skin joins the base of the horns, cutting from the back toward the front. In case the cut is made too high, an irregular and unsightly outgrowth of the horn may follow.

Just as Rivers was about to sit down to dinner there came a ring at his telephone. "Well," he said, placing the receiver to his ear. "Who is this?" demanded a high-pitched, impatient voice.

WOMEN PEARL DIVERS.

They Set Out at the Tender Age of Fourteen.

The pearl divers of Japan are women. Along the coast of the bay of Ago and the bay of Kokosha the thirteen and fourteen year old girls after they have finished their primary school work, go to sea and learn to dive.

They wear a special dress and the hair twisted up into a hard knot. The eyes are protected by glasses to prevent the entrance of water. Tubs are suspended from the waist. A boat in command of a man is assigned to every five or ten women divers to carry them to and from the fishing grounds.

When the divers arrive on the grounds they leap into the water at once and begin to gather oysters at the bottom. The oysters are dropped into these tubs suspended from their waists. When these are filled the divers are raised to the surface and jump into the boats.

They dive to a depth of from five to thirty fathoms without any special apparatus and retain their breath from one to three minutes. Their ages vary from thirteen to forty years and between twenty-five and thirty-five they are at their prime.
