NEWBURGH, Ont., Feb. 12th. 1910. Just about a year ago, our daughter Ella (fourteen years) was taken with terrible pains in the right side. We at once put her under the care of a first-class floctor, who pronounced it a case of Appendicitis and advised an operation. We took her to a Hospital in Kingston where she was again immediately examined by an eminent specialist. He said she had Appendicitis and must be operated on at once, if we wanted to save her life.

'Luckily for us and for her, an uncle e in with some 'Fruit-a-tives' and insisted on Ella taking them. Good results were apparent almost from the first dose, and the treatment cured her.

'Pruit-a-tives' saved our daughter from the surgeon's knife and to-day she is enjoying the best of health".

"You know I skun my ankle like sixty when we banged into that bob last night. I just rubbed on a little Carbolated Vaseline when I went to bed, and now it's all healed up as slick as ever. I'd hardly know I'd got a scratch."

# Vaseline

Of course, you have "Vaseline" in your household, not only for the boys but for yourself and the whole family.

Carbolated Vaseline contains just a bit of Carbolic Acid, which makes it antiseptic and healing. There are several other special forms of "Vaseline," each for a particular use.

All are made with the same pure "Vaseline" that is known and used all over the world. The particular specifics with which the "Vaseline" is blended, such as Carbolic Acid, Menthol, Capsicum, etc., simply add a special efficacy to the general soothing and toning properties of the "Vaseline" itself.

Druggists everywhere carry the "Vaseline" specialties—put up in glass bottles and in the handy, sanitary little tin tubes shown here.

You will find our "Vaseline" booklet, telling all about them, useful as well as interesting. It contains all kinds of practical information for home, health and comfortjust as serviceable to the bachelor (girl or man) as to the mother. Sent post-paid on request. Write for your copy today.

Refuse to accept substitutes. Insist on "Vaseline," made only by the

THREATENED WITH PARALYSIS

Peter E. Summers relates his experience:

"I was troubled with Nervous Delifity for many years. I lay it to indiscretion and excesses in youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guested my secret. Imaginative dreams at night weakened me-my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shally, eyes blurred, hair loose, memory poor, etc. Numbers in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, but received little benefit. I
