THE CRECHE FUND

ANOTHER WEEK TO MAKE UP THE NEEDED SUM.

There Are Plenty of People Who Can Help—It is Not Unwillingness, But Thoughtlessness—Give a Helping Hand.

There is only one week more if the required \$500 is to be raised by the 1st of February. Fully one-third of the sum has already been handed in, and the small average of \$69 per day will make up the total by the date mentioned. Let us have your subscription to-day, so that the average will not fall below that mark for want of it.

If you are not convinced of the need, go out and see some of the cases yourself. Sisting before your eyes, the shivering need of the unfortunate, but go out and see the actual situation, see the poverty, hunger, dirt, neglect, see the old faces of children who ought not yet to know care, hear the brazen impertinence, the boldness, the vulgarity of the children who are reared in the street. Their little minds are polluted with base immoral and sensual notions, which they should never have known, but which can never be effaced. They will all ways carry with them those indelible stains of the horrible residue of cruel streets and lanes and the vulgarizing influence of low company.

See children whose mothers have to go out to work are most exposed to the evils of the street and in time become the chief source of danger to others. Thus the evils which result from the neglect of the poor widow's children, which is unperpetrated if they are to live at all under present conditions, grow by what they feed on. The circle of pernicious influence is ever widening and it raises other children also when the home discipline is lax. A creche will do a great deal to deprive this hungry monster of its victims and to save them for good citizenship. The city cannot afford to do without it; efficient charity demands it and the poor children absolutely need it.

Don't delay another day. Send your subscription to J. C. McConachie, 117 Fleet Street, and it will be published in the papers. Ask your friends to support this most worthy cause.

Dr. Maloney, Eganville, will likely oppose Graham.

CAN DO IT NICELY.

Cleveland, Ohio, Jan. 24.—According to clinical demonstrations at the Cleveland Academy of Medicine, an operation for appendicitis may be simplified and concluded as easily as the plumbing of clogged water pipes. Only a three-quarter inch incision is now necessary and the patient may be allowed out of bed twenty-four hours later.

Life Imprisonment.

Oregon, Ill., Jan. 24.—Dr. Henry Webster, Chicago, was sentenced to life imprisonment by Judge Farrand for the murder of Pessie Kent Webster last October.

THEY ARE REPENTING

which elected them with tariffs and taxes to further capitulate to the great and the mighty and the strong at the expense of the consumers who are the nation-builders.

Moreover, Hon. George E. Foster found it necessary to conduct an economic electoral post-mortem. He gravely informed parliament that Canada must look south for a partial solution of the present, car shortage and grain blockade obtaining throughout the prairie provinces. He followed this heterodox party declaration by stating that as a result of his initiative application had been made to the interstate commerce commission of the United States for leave to file grain routes through Minneapolis and Duluth, and "so relieve the situation by carrying the grain through southern routes. The commission," said Mr. Foster, "at length agreed, and the C.P.R. is now taking out grain by the south route and using foreign cars for the purpose."

Such is the irony of the situation which has succeeded the rejection of the proposals calculated to give the west an outlet southward.

Senate Resumed.

Ottawa, Jan. 24.—This afternoon the senate resumed its sessions and brings out the situation which may cause Premier Borden some anxiety, unless, indeed, the senate is absolutely dead, as a legislative and vetoing body. While the conservatives have the majority in the house, there is a large liberal majority in the upper house, which it is expected will have energy enough under the constitution of the dominion, will throw out many measures that Borden may send along as a matter of party politics. Unsurprisingly, much interest, to-day, attaches to the re-assembling of the senate, and the question is asked: Will that body show sufficient courage to induce Borden and his cabinet to push to accomplishment some measure of upper house reform, as Asquith did in England?

To-day will be last Wednesday "half holiday" this session, as Borden has given notice that hereafter the commons will hold night session on Wednesday night, the same as on Wednesday night. Up to date these nights have been devoted to festivities.

DEATH CLAIMS JOHN PARSONS.

Well-known Resident of Oswego, Aged Eighty.

Oswego, N.Y., Jan. 24.—The funeral of Capt. John Parsons, who died at his home, corner of West Seventh and Seneca streets, Sunday night, took place yesterday.

Captain Parsons was born in Vermont, England, on Oct. 8th, 1831, and came to this city 1858. A sailor of renown, Captain Parsons was one of the oldest and best known residents of this city. At eleven years of age he started his career of sailing, during which he visited nearly all of the civilized countries. In relating his voyages Captain Parsons told of many exciting experiences.

After coming to this city he continued to sail vessels on the great lakes for nearly twenty years, which brought him in contact with many people at every port on the chain of lakes. In 1870 Captain Parsons gave up his life's occupation to become superintendent of the D. L. & W. railroad company's coal trestle at this port, shortly after it was built. In this capacity he continued until 1875, when he was made an excise commissioner for a term of six years.

With his term as commissioner expiring, Mr. Parsons was made inspector in the United States engineering departments at Oswego, Buffalo, Erie and Sandy Hook. This position he held for a period of eight years. At that time the government decided to abolish the office, however, Capt. Parsons was retained in the service until 1883, during which he was chief inspector of customs at this port under the late Col. H. H. Lyman.

Capt. Parsons came into the limelight again in 1886, when he was made assistant postmaster of the assembly at Albany. Resigning from that position four years later his career as an official of the national and state government closed. From that time he lived a retired life. The captain had the distinction of being the father of the yachting spirit, which was inaugurated on Lake Ontario nearly half a century ago.

During a period of ten years which followed, he built several yachts, among them was the Idler, which for many years was the fastest yacht on Lake Ontario. Capt. Parsons represented the first ward in the common council during 1875-76.

He was a charter member of the First M.E. church and in fraternal circles was the second oldest member of Frontier City lodge. He was also an honorary member of the Oswego Yacht Club.

It is planned to solicit subscriptions from Catholics all over the world.

Rev. Prof. Austen Percy Misener, M. A., of Victoria College, passed away on Toronto on Wednesday morning. Mr. Misener was associate professor in Oriental languages and literature and was in his thirty-nine year. He was educated at St. Catharines. He is survived by a widow, formerly Miss Ethel Gould, of Colborne.

With the customary ancient civic ritual, Earl Grey, on Tuesday, received the freedom of the city of London. An hundred thousand dollars has been offered in Jacques Cartier Square, Montreal.
