HELD ON ONTARIO.

Need of Gift Will Not be Extended to Lake Erie.

The George cup, made famous on Lake Erie craft to enter the races, and international sailing races, will be kept as a cup for Lake Ontario boats only for the coming year at least.

Another plan suggested is to have the Lake Erie craft try out for the championship of that lake, and then a race for the championship of the two lakes, the winner of the George cup on Ontario, representing the lower lake, there would be little difficulty.

TO SAVE THE THRONE

PREMIER REPUDIATES PROMISES EMPEROR'S ABDICATION.

Republicans Plight Believed to be Cause of Striking Turn in Situation—Peking Does Not Fear Attack.

Peking, Feb. 10.—It is now believed in many quarters that Premier Yuan Shi Kai will possibly succeed in saving the throne after all.

The Peking papers no longer mention abdication or discuss the throne's retention from government. Certainly Yuan Shi Kai does not intend to proceed with abdication unless compelled to do so.

The opinion is held here that the rebels do not possess the power to compel the premier to act. The republicans' readiness to agree to the permanent amnesties and also their willingness to grant to the courts liberal concessions, inspires the belief that they themselves recognize their inability to capture Peking.

Reports received at the capital indicate that the republican movement is worse than in which Premier Yuan finds himself. Considerations of property, forced assessments and brigandage are causes of discontent throughout the republican provinces.

Should Yuan Shi Kai accede to the republican demands his own authority would terminate; he would be at the mercy of the republican leaders and the heretofore loyal army, would divide between the republicans and the Manchus, with the latter's supporters hostile to him, believing he has been treacherous. But retaining the throne, whose power already has been delegated, he undoubtedly would be the country's strongest man.
