HUMANS USE MILK

TOLL OF DEATH FROM TUBERCULOUS COWS.

Dr. Rutherford Urges Effort at the Live Stock Convention to Check the Dire Disease.

Ottawa, Feb. 11.—Veterinarians all know that you cannot raise healthy calves from tuberculous cows. And yet how many thousands of children are fed from tuberculous cows. The health officials don't seem to realize this.

This statement was made by Dr. Rutherford, veterinary director-general, at a crowded session of the National Live Stock Convention held in St. Patrick's Hall, here. The subject was "Bovine Tuberculosis, and Andrew Graham of Pomeroy, Man., presided.

Tuberculosis, Dr. Rutherford said, was a matter of extreme importance to live stock owners in Canada. Cattle were more susceptible than any other animals, horses not very much so, sheep almost immune, but hogs very readily susceptible to the tubercular germ. It was a scientific fact that from 60 to 80 per cent. of the human family had tuberculosis in some form in their system. This was almost always traceable to cattle.

In regard to the possibility of eliminating tuberculosis from the cattle herds of the country, the speaker said that it could best be accomplished by a careful, sound conscientiously followed policy with the co-operation of the stock-breeders. While a great campaign with a fixed time limit had been tried in Minnesota against tuberculosis in cattle, it had cost \$25,000,000 and was so unsuccessful that it had perforce to be abandoned. A similar campaign in Canada would cost \$75,000,000, and the speaker said that he did not think it would be worth while.

In regard to tuberculosis among hogs Dr. Rutherford said that this was almost always caused by the hogs being allowed to run with cattle or to drink whey from cheese factories.

WHITNEY GETS ANGRY

WHEN WAITED ON BY TEMPERANCE DELEGATION

Which Asked for Abolition of the Bar, Treating System and Drinking Clubs, But He Was Pacified.

Toronto, Feb. 11.—The platform of the Dominion Alliance as reported in the morning papers to have been adopted at their conference, yesterday proved to be a boomerang when a big deputation waited upon Premier Sir James Whitney this morning.

"Was this platform, denouncing the government, as it appears in the morning papers, adopted by the alliance, yesterday?" asked Sir James.

President Gibson and Secretary Benjamin Spence, of the alliance deputation, attempted to pour oil on the turbulent waters by saying it had not been definitely adopted, but was being considered.

Sir James said: "Then I have nothing"—but was interrupted by President Gibson, who shortly stated demands of the deputation for abolition of the bar, the treating system and the drinking clubs. Mr. Gibson told what the alliance had done in the way of securing local option, and pressed home the evils caused by the liquor traffic.

"There's no need of your defending local option," said Sir James, rather testily. "We are not attacking it." N. W. Rowell, leader of the opposition, said there was no doubt of the evils of the bar room and the question was what legislation should be adopted to counteract it.

Leader Rowell promised that the opposition would have a policy on prohibition before next session.

Premier Whitney gave the deputation no statement as to what the government would do. "Then I have nothing to say," he said, when leaders of the deputation admitted they were considering the condemnation of the government as published in the morning papers.

MOTHER BURNED CHILD.

Thrust Her Infant Into Hot Blast Furnace.

Halifax, N.S., Feb. 11.—"I put the baby in the stove and burned it. I'm sorry now, but I did it when the feeling came over me."

These were the words of Ada McCarron, the wife of James McCarron, of this city, in confessing to the proclivity that she put her five-week-old child in the hot blast stove in her house and burned it alive. She said she did this nine days ago and then spread the story that the child had been kidnapped from the cradle. Mrs. McCarron is locked up on a charge of murder. Mrs. McCarron's reputation was not good, but the only theory of the police as to the motive is that she was mentally deranged when she thrust her crying baby into the fire.

FIFTY WERE ARRESTED

CHARGED WITH CONNECTION WITH DYNAMITE CONSPIRACY

Arrests All Made at the Same Time All Over United States—Trial to be Held at Indianapolis on March 12th.

New York, Feb. 11.—The relentless arm of the law, guided by the indictments of the federal grand jury investigating the McNamara dynamite cases, arrested at least fifty prominent labor men in various parts of the United States this morning. The arrests were almost simultaneous, in New York, Chicago, San Francisco, Indianapolis and other cities. It was evident that the federal authorities had arranged to spread the net all over the states at once, and leave no opportunity for escape.

Among the first arrests made was that of Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, United States and Canada. He was placed under custody at Indianapolis, charged with being involved in the dynamite conspiracy. Those arrested included a number of walking delegates, business agents and so on. Some officials of the machinists and other unions, also, alleged to be implicated, are under arrest.

The federal authorities will make no statement regarding the arrests except that the trials will show that for six years a campaign of dynamiting and general coercion has been carried on by union labor officials against open shops. It is believed that Ryan and most of his associates will be tried at Indianapolis. Bonds aggregating three hundred thousand dollars have been demanded for bail, to appear March 12th. Few so far have been able to secure suitable sureties, and are still in custody. John T. Butler, of Buffalo, first vice-president of the Structural Iron Workers, and Herbert C. Hookin, Detroit, second vice-president and secretary, were also arrested in Indianapolis this morning. Officials of the Carpenters and Iron Molders' Unions, of Indianapolis are also under arrest.

THE PARTIES CLASHED IN SENATE OVER BILL

Conservatives Will Not Accept the Liberal Amendment to Inquiries Bill

Ottawa, Feb. 11.—The expected clash of the government with a strong liberal majority in the senate came in the early hours of this morning when Hon. Senator Loughheed, representing the government, flatly refused to accept the amendment offered by the liberal majority in the senate to the inquiries bill. (Hon. Senator Kerr liberal, plainly had the majority of the members in favor of his amendment. Senator Loughheed said this would defeat the end of the government in introducing the bill. Senator Kerr persisted and called for a vote but the conservatives made a deadlock. The matter comes up again on Thursday.
