A WOMAN'S SECRET OF BEAUTIFUL HAIR.

Says Growth of Hair, Similar to That of Grass, Requires Rich Soil.

Mildred King in Woman's Realm.

A woman friend of mine, possessing the most beautiful hair I have ever seen—long, healthy, luxuriant and color a brilliant, glossy gold—said to me the other night, "Thousands of people suffer from total or partial baldness who could easily have hair, just as long and plentiful as mine, if they but understood the fundamental rules which govern its growth. The principle is identical to that governing the growth of plants, trees, etc. One cannot expect to grow in a barren, desert soil, or to grow on a scalp devoid of all life-giving elements. The hair, too, must be fertilized and nourished as surely as a gardener fertilizes his plants. If the scalp is itchy and covered with dandruff, Mr. and Mrs. King's Hair Dressing, and split at ends, stringy, brittle, excessively oily, then the scalp needs nourishment or baldness will surely follow. Most hair tonics fail either because they do not possess these nourishing qualities, or because they are not properly applied. Sprinkling on the hair does no good. The application must be rubbly and briskly into the scalp with the finger tips until the scalp pores have absorbed it. Doubtless you have heard of the 'Doubtless' owe the life of my hair, which once was thin, falling out, and turning gray, to the use of this hair dressing. It is a wonderful thing, coming out in handfuls with every combing, in the liberal use of the lotion of the Penambuco shrub which is known to all druggists by the pharmaceutical name of 'Layona de Compose' and is 2 oz. of the Juice. Layona de Compose, with 6 oz. Bay Rum and 1 dr. of Menthol Crystals. Then I add just a teaspoonful of 'Te-Kabon Perfume, giving a most delicate and pleasing odor to the hair. This should be shaken thoroughly and allowed to stand an hour before using. This mixture properly applied makes the hair grow with utterly amazing rapidity, and by nourishing the hair roots stimulates the color sacs and restores natural color to gray or faded hair and makes it soft, fluffy and beautiful.

I know this preparation is recommended by many physicians and Hair Specialists and its use is absolutely safe.

Because of its remarkable hair-growing qualities ladies should be careful not to apply to the face or where hair is not desired.

Blood is Like Water

When Lips Are Pallid and the Gums Lose Their Color.

You Can Make the Blood Rich and Red by Using

Dr. Chase's Nerve Food

If you find yourself easily tired, lacking in vigor and energy, unable to properly digest the food you eat and generally out of sorts, look to the mirror and carefully examine the lips, gums and eyelids. If color is lacking you may be sure that you are anemic—that your blood is thin, weak and watery.

It would be a mistake, under these circumstances, to use purgative medicines; what you need is more blood. Increase the amount of rich, red blood in the body by using Dr. Chase's Nerve Food.

Not in any miraculous way does this treatment work, but just as naturally as do any of the laws of blood. It supplies to the body the elements which go to the formation of new, rich blood. These are found in condensed and easily assimilated form in Dr. Chase's Nerve Food, and therefore do not bother even the weakest stomach.

It will take a little patience and perseverance to thoroughly restore the system, but by noting your increase of weight and the return of color to your faded complexion you will be convinced that the lost vigor and vitality is being restored to your system.
