MOB OF SILLY WOMEN BREAK LONDON WINDOWS

Police Arrested 115 of Mrs. Pankhurst's Aids.

THE SUDDEN OUTBREAK OF THE SUFFRAGETTES CAME AS A SURPRISE.

Windows of the Fashionable Departmental Stores Shattered by Stones and Bricks Thrown by the Rowdy Female Mob.

London, Eng., March 2.—London last evening had another taste of demonstration of the suffragettes to force matters relating to the government's refusal to bring the woman suffrage bill in parliament. The women held a mass meeting at headquarters and then descended to the fashionable west end where they proceeded to break the windows of large department stores. The police were taken completely unawares by the onslaught of the women and before they were able to muster their forces and restrain them the streets were covered with shattered plate glass that once had been the show windows of stores. It was a window-breaking expedition solely and a thoroughly organized one. Hundreds of windows in most of the famous shops of the world and in several of the government offices and clubs were wrecked by the suffragettes. The damage done will aggregate many thousand pounds.

WILL BE NO SETTLEMENT FOR WEEK

Of the British Coal Strike—Great Central Railway Seizes Coal in Transit Over Its Lines.

London, Eng., March 2.—The British miners have settled down to enjoy at least a week's holidays. There is every indication that work will not be resumed at the collieries sooner than that, even if there should be a settlement in the meantime.

BROUGHT TO COURT.

Claim Mother Has Baby Sleep in Bureau Drawer.

Kansas City, March 2.—Little Margaret Gildea is three months old and weighs less than she did when she first opened her little blue eyes in this world of trouble. However, that is hardly her fault, for doctors told the juvenile court yesterday that children occasionally decreased in weight for a few months after birth, though that is not normal.

New York, March 2.—Mrs. Ida Kershaw, a good looking young woman, was held for the grand jury in a Brooklyn court on a charge of burglary. With her was held on the same charge James Stearns, a boy of sixteen, who, in a confession to the police and to Magistrate Hylan, accused the woman of having planned the burglary which he admits committing. He also accused her of having fed him morphine for several months past.

LADIES OF NAPANEE

HAD A MUSICAL GATHERING FRIDAY AFTERNOON.

And Presented Miss Clara Cairns With a Gold Bracelet—Mrs. T. G. Carscallen Suffered a Stroke of Apoplexy.

Napanee, March 2.—The eighth meeting of the ladies' musical club was held Friday afternoon in the town hall. The programme was arranged by Mrs. J. L. Hoyes. Mrs. A. E. Paul and Miss Williams, and was one of the best ever given by the club. It consisted entirely of Mendelssohn's selections. Mrs. A. E. Paul and Miss Williams gave papers on the life and works of the noted musician. A feature was the presentation to Miss Clara Cairns of a handsome gold bracelet as a token of regard for her untiring efforts to help the musical club. Miss Cairns is to remove west in a short time and will be greatly missed in musical circles.

Hard on the Chorus Ladies.

New York, March 2.—There were legions of sentimentalities on view among the chorus ladies of the Molliettes of the chorus, yesterday. For no more will there be "over the river" elopements with marriage ceremonies as lobster and cold wine—or sometimes beer.

Will be Dumb for Life.

Chicago, March 2.—A bullet, fired into the nerve centre of the brain, has rendered Leonard E. Dowler, a printer, dumb for life, according to evidence given before Municipal Judge Cavery.

Loop Tamer Scared by Spider.

Bucharest, March 2.—Mlle. Teacnoesca, a lion tamer, almost caused a panic in an audience at least when she fainted in the midst of her performance while the animals were perfectly quiet. She was removed from the cage before the beasts could harm her. Recovering consciousness, she exclaimed: "If you don't take away that spider which was waving a web in the corner of my cage, I'll never go in that den again."

Canada's Fire Loss.

Toronto, March 2.—Canada's fire loss during February, as estimated by the Monetary Times, in its current issue, amounted to \$1,640,153, compared with January's loss of \$3,002,650, and \$941,015 in February of last year.

SIGN OF PROGRESS.

One of the things pointing to the improvement of Kingston, in a financial sense, is the great increase evidenced this year in the customs receipts. The fiscal year closes at the end of March, but already the receipts of the port show an increase of \$52,000 over last year, and the highest point reached in the history of Kingston. This is evidence of the prosperity of the city, and is one of the marks which show that there is a great improvement in the city's business. This is a fact that is worthy of special note, and should be gratifying to all citizens.

ROBBERS WERE FOUGHT

BY A CIVILIAN VIGILANCE COMMITTEE

At Royal Bank in Montreal West—One of the Burglars Shot Dead—Four Escaped.

Montreal, March 2.—Five bank robbers attempted to break into the safe at the branch of the Royal bank in Montreal West, this morning, and were met by a civilian vigilance committee, which fought a revolver battle with them, finally driving them off, leaving one unidentified robber dead on the field of battle. They got away with thirteen dollars only.

TO RECEIVE ALIMONY.

Mrs. Goodfriend, of Gananoque, Will Receive One-third of \$140.

Toronto, March 2.—An unusual alimony suit between a Gananoque couple named Goodfriend, was decided by Justice Middleton yesterday by ordering the husband to pay his wife one-third of \$140, which constitutes his annual income. The couple were married in 1907, and in 1909, Mr. Goodfriend was stricken with paralysis and was unable to work his land near Kingston, which is valued at \$500. He went to live with his father and sister, but his wife could not get along with them and went to Gananoque, and with \$375 she received from the sale of stock and equipment of the farm, opened a rooming house. She found that she was unable to maintain herself, and brought the present action for alimony. His lordship finds no reason why the plaintiff and the defendant could not live together happily, but finds that the wife could not reside where her husband had chosen to reside, on account of antipathy of her sister-in-law.

DEADLOCK AT OTTAWA.

Ottawa, March 2.—The nationalist members had a long conference, Friday, with Hon. Mr. Monk respecting the attitude which they should take when the Manitoba bill is called for a second reading. It is understood that the minister advised them to vote with the government and for the bill. He argued that this was a territorial and a financial measure; that the rights of the Roman Catholic minority would continue to have the advantage of the Manitoba law, that if the majority failed to get their rights under that law they had recourse to the courts, and if their case failed there could then take steps to promote remedial legislation.
