THEN you will understand why so many good songs, so much good music of every character never appeared in record form until the Amberol Record was perfected.

Then you will understand how, wnen you own an Edison Phonograph, you can now have all of the very best entertainment of every kind.

Then you will understand how this one advantage alone makes the Edison Phonograph the greatest sound-reproducing instrument as well as the greatest musical instrument—even if it had no other advantages. But it has: the sapphire reproducing point, that does not scratch or wear the record and lasts forever no changing needles; exactly the right volume of sound for your home; home recording-the ability to make and reproduce your own records in your own home. Any Edison dealer will demonstrate these great Edison advantages to you.

Saskatchewan's Big Crop. A bulletin issued by the statistics branch of the Saskatchewan department of agriculture, giving the final estimates of the areas and yields of the principal grain crops grown in the province in 1911, states that Saskatchewan now stands without a rival on the North American continent in the production of wheat and other small grains. Minnesota and Dakotas have been close competitors in recent years, but in 1911 the Canadian province outstripped its southern
