APPEALS FOR SERVICE TO THIS GENERATION

IN SPREADING THE KNOWLEDGE RECEIVED.

Rev. Dr. Sparling, of Montreal, delivered a forceful sermon to Queen's Students Sunday afternoon.

"I appeal to you, young people, to take the consequences of being a Christian. Stand out in the open, whether you are a doctor, lawyer, merchant or whatever you may be. Think less of what you are going to get out of it, than what you are going to be in it. That is the love there is in the work. You may cram your head with knowledge, but if you do not use it for the benefit of others, you are a puffed up individual, and that is the best the world can say of you."

The above was addressed to the students of Queen's Sunday afternoon, in a forceful sermon delivered by Rev. Dr. Sparling, of Montreal.

The speaker pointed out that greatness was measured by the service one could render. We should have faith in doing right, at any cost. What would become of the problems of the church and state, if men of learning remained silent? Greatness was not made up in our knowledge, but in the harvest we could yield, in the spreading of knowledge. There should be a curriculum of practice as well as study. There were no self-educated men; they had benefited by the learning of men before them. Men of knowledge should let their light shine, and pass along their knowledge. Knowledge should spread like fire. There was no selfishness so contemptible as that of intellectual selfishness.

"A man who does not produce something in his life, is not an educated man. Get the habit of searching for truth. Education is not complete unless it stimulates. When completing a course of study, the question should not be as to the amount of knowledge we have obtained, but should be 'what have I become?' We should assist the imperfect man in the growth and perfection of character. We have as much right to build our lives in truth as the builders have to build on the laws of gravity. We get the idea that our education has come to an end, at the second stage, when we take up our profession. This is a broad and better idea. We must be before we have doctors, lawyers, ministers, statesmen and the rest. Knowledge builds up the individual. Get truth from every source."

During the service, A. Beecroft, student at Queen's, rendered an exceptionally fine solo.

In the evening, Rev. Dr. Sparling preached in Queen street church, and delivered another strong sermon. He spoke on the question of people having their right place in life. He pointed out how every man should follow up his own profession. If a person did not do this, his life would be a failure. The speaker outlined many useful lessons.

Fleet for Halibut Fishing.
George H. Collins, managing director of the Canadian Fish and Cold Storage Co., Prince Rupert is, at present, in England, where he will call for tenders for building sixteen fishing vessels to be used in the waters of the Pacific adjacent to the plant next April. The company will commence business and the vessels must be built and delivered by that time. The company is capitalized at \$1,500,000, and the plant will cost when completed close on \$500,000, and will be the largest of its kind in the world. The buildings of the company at Prince Rupert are of reinforced concrete, built at one end of the harbor, and will be fitted up with the best modern machinery. The storage capacity will be fourteen million pounds of fish with a freezing capacity of 110 tons per day.

In an interview, Mr. Collins said: "With the completion of the G.T.P., fish from the Pacific coast will be put in the eastern market three days quicker than now. This he explains by the fact that the greatest proportion of the fish is caught near Prince Rupert, and thence has to be taken to Vancouver and Seattle for shipment."

The establishment will give employment to 500 men, none of whom will be Japanese. White men and Indians only will be employed. The remaining directors of the company are: Andrew Kelly, president of the Western Canadian Flour Mills, Winnipeg; James Caruthers, Montreal, grain exporter, and Grier Starrett, former manager of the New England Fish company.

Melcombe Matters.
Melcombe, March 2.—Mrs. W. C. Thomson, wife of chief engineer Thomson, of Ogdensburg, and little daughter, Helen, have returned home after spending a week with her mother, Mrs. Patrick Ralph, who has been dangerously ill. The many friends of Mrs. Ralph are pleased to hear she is recovering. The men in general are getting out firewood. The services of W. J. Lappan has been secured for the Deer Lick factory for the coming season. Visitors: Mrs. Barry Williams, Maynooth, at Richard Williams'; Miss Hannah McCornack, Gananoque, at James McCornack's; Mrs. William Shannahan, Brockville, and Mrs. Thomas E. Ralph at P. Ralph's.

Injured in Shipyards.
Roy Wheeler, Johnson street, while at work on Saturday morning in the Kingston Shipyards company's yards, met with a severe accident. He was putting a steel plate in its place when it sprang and hit him in the face. Mr. Wheeler was stunned and his face was badly cut. Dr. A. W. Richardson was called and the young man was taken to his home. He is doing well.

W. J. Robinson, Napanee, went to Bassano, Sask., three years ago with \$300. To-day he owns a business worth tens of thousands of dollars, an 800 acre farm, worth conservatively \$12,000, another 160 acres adjoining the town worth \$16,000, besides a fine selection of business property not to mention a cheerful bank balance.

There are a number of typhoid fever cases at Rockwood hospital. Six nurses and an attendant are down with it.

Prof. R. Laird will be the speaker at a Smith's Falls gathering on Thursday night.

Not Trespassers.
One of Dr. Aked's most ardent supporters when that divine was pastor of John D. Rockefeller's church is a friend of telling what he considers a striking example of Dr. Aked's wisdom. Dr. Aked was fond of taking long country walks, and one day, being far in the country and wandering through a field, he and his friend noticed a sign nailed to a tree, "No trespassing here."

Hurrying to get out of the forbidden ground, they met a farmer who assailed them grimly with the remark: "Trespassers in this field are prosecuted."

Dr. Aked smiled at the irate farmer, "But we are not trespassers, my good man," said he.

"What be you then?" demanded the farmer.

"We are Presbyterians, my dear sir," replied Dr. Aked and walked away.

Sharpshoot Notes.
Sharpshoot, March 2.—Mr. Orser, assessor, has made his call. Quite a number from here attended the N. B.C. "At Home." Mrs. P. Mohan spent a week with relatives at Erinville. Mrs. G. W. Bell spent a week with her sister, Mrs. A. Bell, Kingston. Mr. and Mrs. Smith and little son, Perth Road, visited at S. Somerville's. Mrs. Ester Mohan received word of the death of her mother, Mrs. M. McKeown, Erinville.

Sudden Changes Many Colds
And Colds Are the Starting Point of Serious Diseases.
You Can Make Short Work of a Cold by Using
DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

Sudden changes of temperature are fatal in results. The shock to the human system is more than most people can stand, and everywhere you hear sneezing and coughing.

You may be sure that some of these colds will develop into pneumonia or consumption. Others will settle on the kidneys, and result in serious disease or bring on rheumatic or bodily pains.

The danger is in letting colds run on. By beginning promptly with Dr. Chase's Syrup of Linseed and Turpentine and taking small doses frequently you can keep the cough loose, check the inflammation, and soon rid the system entirely of the cold, and all the many possibilities for evil which it possesses.

Don't think that anything is good enough for a cold. There are lots of cough mixtures. But if you want a standard medicine of proven merit, something that you can depend on in time of sickness, you will be satisfied with Dr. Chase's Syrup of Linseed and Turpentine.

Children like it. Being composed of simple ingredients, it is particularly suited to their needs. Its enormous sales prove its effectiveness. 25 cents a bottle, family size, 50 cents, at all dealers, or Edmanston, Bates & Co., Limited, Toronto.

Aged Hartington Lady Dead.
Hartington, March 2.—Another aged resident of this place passed away on Saturday, Feb. 17th, in the person of Mrs. William Campbell. Deceased was ill only a few days of pneumonia. She died at the residence of Robert Snider, at whose home the funeral service was held on Sunday, by Rev. J. A. Waddell. Her maiden name was Lucinda Simpkins. Her husband, William Campbell, died just one year ago. No children survive. They were among the oldest residents of this place, having resided here over half a century.

Almonds in face to face with a coal famine. Several carloads of fuel have been on the way for as long as six weeks.

WORK IN NORTHLAND

REV. A. J. VALE TELLS OF HIS LABORS THERE.

The Eskimos and Indians eager to learn—The Work is Difficult, But the Results are Edifying.

Rev. A. J. Vale, of the Ray River mission in the far North-West, preached in St. James' church on Sunday evening. Mr. Vale's address was in the form of a simple but forcible story of life at the mission and incidents which occurred during his stay at the mission.

Mr. Vale described the work of the boarding school which he conducted at Ray river, the difficulty of that work and some of the gratifying results of it.

One difficulty was that of obtaining varieties of food. The mission is 920 miles north of Edmonton, and freight costs ten cents a pound. The consequence is that the food consists almost entirely of fish caught by the boys of the school and potatoes of which they used an enormous amount.

The school, said Mr. Vale, has under its instruction twenty girls and nineteen boys. Besides the regular curriculum these boys and girls are taught to read the scriptures in their own tongue, as well as in English. This requires the teaching of two languages, besides English, for, as the diocese covers 600,000 square miles of the north country, the school is attended not only by Indian children, but by Eskimos. The boys are taught the use of tools and something about building, and also gardening, while the girls learn to sew and are taught to do house work. They do the work about the school under the direction of the lady assistants.

Mr. Vale told of many good results of the work. One Indian boy had built a house of his own and was teaching a Bible class of thirty boys and girls at his home. He said that the Eskimos who were converted were such a testimony to their people that their faith was constantly spreading. They came to him from distant tribes and begged him to come and teach them. They came again and again, and he could not give them a teacher. He said there was a great need for workers and asked for the prayers of the people that God would send workers into the field, so ripe for harvest.

Pittserry Ladies Meet.
Pittserry, March 1.—There was a large and interested attendance at the meeting of the W.H.M.S. and the home of Mrs. B. McClement, R. Ladies' Aid of St. John's church at on Wednesday last. Mrs. W. J. Gates had charge of the devotional exercises and missionary programme. The central thought of her remarks was "Let us go forward." Mrs. Finnigan read a selection entitled "One of our North End Babies: Winnipeg," and Mrs. McNinch followed with the reading of the West. Master Donald Bugbin added a recitation which was heartily applauded. Several gentlemen joined the circle for a pleasant social chat over the dainty lunch served by the hostess. During the lunch hour Miss McClement rendered several pleasing piano numbers. The March meeting will be held with Mrs. Heede, in the manse.

A seventh social will be held in the Orange hall this evening under the auspices of the Clover club. Quite a number from here attended the leap year social at Killbuck.

On Monday evening last a merry crowd of young people drove to the home of F. Gray, a few miles west of Gananoque, where they spent an enjoyable time in dancing and playing games. Mrs. McClement, sr., who spent a few days last week with her daughter, Mrs. McNinch, Leeds, has returned home. Joseph McEaden, Waterford, N.Y., has come to spend a period with his sister, Mrs. J. McClester. Harvey Scott had the misfortune to lose a valuable horse last week.

Odessa Resident Dead.
Odessa, March 1.—Darius Babcock, aged seventy-nine years, and eight months, passed away very suddenly on Tuesday night, February 27th. He was in his usual health, and in drawing up a pair of water, complained of a pain near his heart, and died a few minutes after. He was a faithful member of the Methodist church, also of the Orange lodge. The funeral was held on Thursday afternoon. The sermon was preached by Rev. J. C. Bell, after which a large body of Orangemen took charge. Deceased is survived by his second wife, and twelve children, all married, who mourn a loving and kind husband and father. The remains were placed in Wilton vault.

A quiet wedding took place at the home of W. C. Smith, when his only daughter, Miss Hettie, was united in marriage to William McEwen, Rev. J. C. Bell officiated. The happy couple left on the noon train for Brockville, and other points.

Mrs. (Dr.) H. E. Day and little daughter, Hilda, of Kingston, are at her mother's, Mrs. Timmerman; Mrs. William Caton, of Buffalo, N.Y., visiting her son, Henry Caton; Mrs. J. F. Dawson, of Kingston, at F. Caton's; Joseph Howie and family, of Westbrook, have moved into Mrs. Lee's house, Ferguson avenue. Joseph Lawlor is moving this week on his new farm. John Graham is moving on R. W. Aylesworth's place, vacated by Mr. Lawlor. A large crowd attended T. Sharpe's sale on Wednesday afternoon. Baby girls have arrived at Dwight Fink's and Joseph Howie's.
