TEXAS MAKES PROTEST
Against Continuance of Reign of Terror in Mexico.

Washington, March 9.—"Along the border troops of bandits are looting, robbing, burning, pillaging and murdering under the name of revolutionists," said John A. Hopper, former president of the El Paso chamber of commerce, who arrived in Washington Friday, to make one plea for better protection.

"Conditions are even worse in the interior," he continued. "A state of anarchy exists in the northern, central and southern parts of the Mexican republic. It is a condition that will last so long as the country is without a leader of the Porfirio Diaz type."

"In Texas we have for some permanent solution. How that is to be brought about is not for us to say.

It may and it may not be by intervention. Americans, Germans, English, French and Spanish will all be in danger so long as present conditions exist. All foreigners look alike to the Mexican revolutionists. They know no law or moral obligation that stands in their way as revolutionists.

"Personally, I earnestly advocate the immediate presence of a division or corps of United States regulars on the border. The force should include infantry, cavalry and artillery."

Glorious Hair For Women

Your Money Back says J. B. McLeod if PARISIAN SAGE isn't the Most Delightful Hair Dressing, Grower, Beautifier and Dandruff Remover you ever saw.

Try it ladies on that fair and square basis. Surely you don't want to experiment with common commercial tonics, when a large bottle of PARISIAN SAGE costs but 50 cents.

There is a reason for the phenomenal sale of PARISIAN SAGE since it was first introduced into America, and the sales this year are breaking all records.

And the reason is plain to all. PARISIAN SAGE does just what it is advertised to do.

There is no reason whatever why any man or woman should fail to take advantage of the above generous offer.

But one thing that has made PARISIAN SAGE so famous is its

peculiar power to turn the harsh unattractive hair that many women possess into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints.

Sold by leading dealers everywhere and in Kingston by J. B. McLeod for 50 cents a large bottle. The girl with Auburn hair is on every carton.

WM. NORTHEY, Secretary Montreal Arena Co.

In recommending the Preference and Common Shares of the Arena Gardens of Toronto as attractive investments, we draw attention to the following:—

The Arena Gardens of Toronto will be a large revenue producer at all times of the year.

In the winter season the greater portion of the revenue will be derived from receipts of hockey games. For years Toronto has been urgently in need of a hockey arena. All the teams belonging to the larger leagues will play their games on this rink's surface. With a seating capacity for over 6,000 people, the new rink will fill all the requirements for many years to come.

Outside the winter season, the new Arena will also fill a long-felt want. It offers an ideal location for the National Horse Show, which is such a popular event in Toronto. Then there are such events as the Auto Show, Pure Food Shows, Vanneville Shows, large Conventions, Band Concerts and Industrial Exhibitions, all of which attract large crowds. Up to the present time Toronto has not had any properly equipped building for such events, and these will help to insure the success of these Arena from the very outset.

A new departure in connection with these undertakings is that a hundred ton artificial ice plant is being installed, under contract with the De La Vergne Company, dated June 23rd, 1911. This plant will not only maintain the skating ice during the winter, but will also manufacture fifty tons of ice per day during the summer season with it is expected not only pay for the cost of running the ice plant during the winter, but furnish a very considerable revenue.

Mr. Lawrence Solman, who is well known throughout Canada for his successful management of theatrical and summer amusements, has kindly consented to act as Managing Director.

That is pretty good evidence of how the popularizing of the "Rubber-made Goods" idea has also popularized the Dunlop line, for Dunlop factories could not have grown in floor area unless Dunlop goods had grown in the estimation of the public.
