## DECLARE THAT ROWELL

WILL ANNOUNCE AN ANTI-BAR-ROOM POLICY.

What the Toronto World Hears From a Temperance Leader--The Temperance Vote to be Organized.

Toronto, March 21.--The Toronto World this morning says--

"N. W. Rowell's prohibition policy is expected this week, was the intimation given by a big man in the temperance ranks yesterday. According to the intimations he had received, the opposition leader in the Ontario legislature had finally got his adherents in the house and the party bosses in the machine up to the point where they are ready to make an advanced bid for the support of the bar-room must go party."

"The Rowell pronouncement will, it is understood, be extremely advanced, though it may have a string to it admitting of another provincial plebiscite."

"The ultimatum which the alliance served on the opposition leader last month called for--The abolition of the bar-rooms; the abolition of club licenses."

"Action has been accelerated by the insurgent movement within the alliance, notably by the announcement by the chairman of the new political action committee of a determination to place a provincial organizer in the field to organize the temperance vote, irrespective of party interests."

"The elimination which the alliance served on the opposition leader last month called for--The abolition of the bar-rooms; the abolition of club licenses."

"Action has been accelerated by the insurgent movement within the alliance, notably by the announcement by the chairman of the new political action committee of a determination to place a provincial organizer in the field to organize the temperance vote, irrespective of party interests."

## WEDS LONDON BANKER.

Mrs. Claxton, of Montreal, Married in New York.

New York, March 21.--Mrs. Blanche Claxton, formerly wife of A. G. Brooke Claxton, K.C., of Montreal, was married yesterday to H. E. Borrelli, a London banker, who has extensive interests in Mexico. Mrs. Claxton obtained a separation from her husband in Montreal in March, 1911, and went to Reno, Nev., where she obtained a divorce, as she could not obtain one in Canada. Non-support was the ground alleged in her action. She arrived to-day from Reno, and Mr. Borrelli reached the city on Friday on board the Lusitania. They went to the city hall yesterday afternoon from St. Regis hotel, and after securing a license were married by Alderman Lieberman. Mrs. Claxton was formerly Miss Blanche Simpson, of Montreal.

## QUIETER IN CHINA.

Troops Get Two Months' Pay in the South.

Nanking, March 21.--The republican troops have been paid two months' wages and everything is quiet south of the Yang-Tse. Premier Tang Shao-Yi is expected to arrive here soon, and announcement is made by the cabinet of the removal of the various departments and the assembly to Peking next week. Prompt recognition by the powers is hoped for. The officials fear any delay in such recognition, which is being urged in some quarters with the object of preventing the establishment of an effective united government. They point out that in such union lies the only hope of maintaining China's integrity.

## REFUSE TO CONSIDER

Propositions of Miners Unless Work Modified.

New York, March 21.--The situation of the negotiations between the coal operators and the miners remains unchanged, the owners still maintaining that they have no concessions to make and will not consider any further propositions of the miners unless they are much modified.

## Something New in China.

Syracuse, N.Y. Post-Standard. There is at last something new in China. Scientific charity has never been practiced there before in case of famine. It is being practiced now. Scientific charity doesn't mean simply stuffing free rice into the rat hole of famine. It means the formation of relief committees, now engaged in the effort to keep 1,000,000 people from starving to death, proposes to be the last famine relief committee that China shall ever need. An engineer sent out by the Red Cross Society reports that the whole famine district of Northern Kiang Su can be reclaimed and put beyond the reach of famine in the future.

Conservation, another new thing in China, is to be the chief result of the present campaign if the scientific charity movement succeeds. Children will be limited, to insure the happiness of the parents beyond the grave, intensive cultivation of a thoroughness which has hardly left an open space in a roadside or a bit of woods on arable land in the empire, these China has. Conservation, to keep the denuded hill sides from being robbed of their soil and to hold back the waters of the rivers from wiping out the labors of the entire year in a single night; these China hasn't. She'll be mighty glad to have these conferred upon her by a republic which is no longer, even in China, considered as an upstart.

## A Blow at the White Plague

Just think what it would mean if even half the deaths from consumption could be avoided. It is surely not too much to claim that at least this many cases are directly due to neglect to cure colds.

It is a simple matter to control a cold when you have Dr. Chase's Syrup of Licorice and Turpentine in the house for prompt use when the first symptoms appear. Many thousands have found this out by experience, and this is why no treatment for coughs and colds has anything like the sale in this country that this well-known remedy has.

Croup, bronchitis, whooping cough, sore throat and chest colds soon yield to the healing, soothing influence of this great medicine. You can readily prove this and will then understand why this treatment is so popular.

## Had Name for the Boss.

Dodgin was the new manager of a biscuit concern. There was a workman at the concern who liked to sneak off to a shed at about three o'clock in the afternoon, and smoke a pipe and look over the afternoon paper for half an hour or so. Well, one day as the workman sat reading and smoking in the shed, Dodgin appeared.

"Who are you?" Dodgin asked sternly, frowning at the idle workman.

The workman frowned back. "Hub, who are you?" said he.

"I'm Dodgin, the new manager," was the reply.

At this the workman smiled. "So am I," he said, heartily. "Come in and have a smoke."

28c Butter and Eggs 25c. Fresh butter, 25c.; fresh eggs, 25c.; finest Irish potatoes, J. Crawford.

Occasionally a woman seeks a divorce on the grounds of incompatibility--because her husband's income isn't compatible with her ideas of comfort.

"French olive oil," Gibson's. After a man gets in bad he is soon forgotten--and he ought to be glad of it.

The worst your neighbor does often seems better than the best you can do.

Suitcases, great values. See our special, \$1.50, Dutton's.

Films developed by an expert. Gibson's.

## WHAT IS WANTED.

The Grand Orange Lodge has a resolution before it with regard to the bi-lingual schools. It recites certain encroachments of the French people, certain deficiencies in the laws and regulations, and certain demands which the order makes for an adjustment of the difficulties.

Has the Grand Orange Lodge put the issue fairly? It wants an amendment in the laws and regulations which will end the illegalities. An amendment of the law is not necessary. The law is declared to be ample and complete as it is. Legally the premier has insisted that there is no warrant for the bi-lingual schools, as they exist.

What is wanted then? Simply the order of the government, through the education department, that the law be enforced. That is all, and it is for Sir James Whitney and Dr. Pyne, when they know the facts, as they have been recited in Dr. Merchant's report, to act without delay.

Of course the change to a new order of things cannot be effected immediately, but a start can be made without fear of Mr. Bourassa or anybody else.

## CANADIAN RAILWAYS ARE GIVEN THE BLAME

For Coal Shortage of Ontario Owing to the Deficient Facilities.

Buffalo, N.Y., March 21.--Following complaints from various portions of Eastern and Western Ontario regarding coal shortage, a leading official of the Delaware, Lackawanna and Western railway said, this morning: "We have made delivery to Canadian cities and towns of all coal and other freight consigned from the United States, just as promptly as the connections of Canadian railways permitted." The speaker still contended that Canadian railroads are deficient in facilities and rolling stock.

## APPROVED ACTION.

The Grand Orange Lodge, this afternoon, approved of the action of the Borden government on the Manitoba boundary bill, and also carried unanimously the resolution re bi-lingual schools, published in the Whig, on Wednesday night.

## In the Commons.

Ottawa, March 21.--Most of the afternoon and evening, yesterday, was spent in the consideration of the I.C. R. estimates, and gave an occasion to the opposition maritime province members to ventilate their grievances.

Mr. Sinclair (Quebec), took an occasion to attack the subsidy to the Temiskaming and Northern Ontario railway, which he said was unwarranted. Hon. Mr. Emmerson attacked the I.C.R., whose future he painted in the darkest colors. Hon. Frank (Ochre) stated that from what he had been able to learn the rolling stock could make a very fair comparison with that of any other railway.

## Edwards Has the Floor.

Ottawa, March 21.--Dr. Edwards, M.P., started speaking on dairying in the house at 12.55 o'clock. The house adjourned at one o'clock, and it is expected he will resume at 3.30 p.m.

## Welland Canal Trust.

The deputation, representing, as has been said, the business interests of the whole province of Ontario, demonstrated to the government that the immediate commencement of the work on the Welland is absolutely essential to the maintenance of Canada's rightful position as regards control of water borne traffic from the lakes to the sea, and that no other proposed canal system will insure the Why, then, does the government hesitate? If there exists between the government and its supporters a sort of happy-family peace and felicity, if there be no jarring elements to soothe, no contenting interests to harmonize, why cannot the necessary attention be given to an imperatively necessary public work?

## Demand Not Good.

Hamilton Times. The demand that municipal residents who are not freeholders or leaseholders be allowed to vote on money by-laws does not seem to gain much support. The monthly or yearly tenant if permitted to vote on debenture debts to be created extending over a long term of years, would be privileged to load the property with debt and step from under in the very first year, while the owner would be held for it. It doesn't seem to be an altogether fair proposition. It may be said that the tenant would have to foot the bill anyway. That is, of course, true; but the tenant who voted might never pay another year's rent of that property. The occupant renter would pay the taxes in the rent; but the man who occupied during all the rest of the debenture term might have been opposed to incurring the debt, and the property would thus be misrepresented.

Irish potatoes; eggs, 25c. J. Crawford. The people of Westport are much pleased with the new hospital in that village. The building is the old Clark property which commands a magnificent view of the mountain. It is called Mountain View hospital, and is capable of accommodating twenty patients.

For fine pastry cooking, "King's Quality" flour never had an equal. When a girl throws a span over her is apt to light on his knees in front of another girl.

When a straight man strays into crooked paths he is apt to go lame. "English toilet soaps," Gibson's. A. W. Gregory, C.E., Fredericton, N.B., is in the city.

Will purify your blood, clear your complexion, restore your appetite, relieve your tired feeling, build you up.

## MANY MINERS KILLED

EXPLOSION IN ARKANSAS COAL MINE SHUT OFF EXITS.

Forty Bodies Recovered--Fears That Forty-seven Others Who are Entombed are Dead.

Fort Smith, Ark., March 21.--Forty miners are known to have been killed as the result of an explosion in mine No. 2 of the San Ross Coal company at McArthur, Okla., thirty-seven miles west of here yesterday, and hope that forty-seven others entombed in the mine are alive has been practically abandoned. Thirteen of the miners escaped shortly after the explosion occurred. Several of these, however, are so badly injured that it is believed they will die.

A systematic search of the wrecked mine began early last night under the direction of the government experts and five bodies had been recovered and thirty-five others found. The rescuers reached the eleventh level, but here their progress was retarded by a mass of coal, earth and twisted timbers.

The explosion occurred shortly after nine o'clock. According to an official statement from the officers of the Fort Smith and Western railway company, owners of the property, about one hundred men were working in the mine at the time. Whether gas or coal dust caused the explosion has not been determined. Eight of the men who escaped alive were at work in the mule stalls and made their way to the surface through the passages used for the cars. The first party of volunteers to enter the mine at noon found five men badly injured in a wrecked entry. Three of these probably will die.

After their first survey of the wrecked mine, government experts expressed the opinion that all of the men imprisoned are dead, and seventy-five coffins were ordered shipped to the grief-stricken mining camps. Mayor Bourland, of Fort Smith, has issued an appeal for aid for the families of the victims.

The mine is said to have caved in after the explosion. Most of the miners imprisoned are beyond the obstruction, and a fierce fire makes the work of rescue practically impossible.

A special train left here carrying all available doctors and nurses and with orders to pick up other doctors at intermediate points for service.

## PITH OF THE NEWS.

The Very Latest Culled From All Over the World.

It cost the American public \$179,500,000 to say "hello," over the telephone lines of the American Telephone and Telegraph company, according to the company's annual report.

Judge Irving Beskman, of Sterling, Ill., fined his own wife \$25 for contempt of court when she tried to tell more than she was asked on the witness stand. She paid the fine.

Albert A. Barkman, a Newark, N. J., railway brakeman, dreamed that his head was severed from his body in a railway accident. On his next run the train was wrecked and he was killed.

As the result of the alleged discovery by the government of Nicaragua of a plot to assassinate Secretary of State Knox, on the occasion of his recent visit to the capital of that country, it is not improbable that a number of prominent "liberals" will be put to death.

Hammond Times. The demand that municipal residents who are not freeholders or leaseholders be allowed to vote on money by-laws does not seem to gain much support. The monthly or yearly tenant if permitted to vote on debenture debts to be created extending over a long term of years, would be privileged to load the property with debt and step from under in the very first year, while the owner would be held for it. It doesn't seem to be an altogether fair proposition. It may be said that the tenant would have to foot the bill anyway. That is, of course, true; but the tenant who voted might never pay another year's rent of that property. The occupant renter would pay the taxes in the rent; but the man who occupied during all the rest of the debenture term might have been opposed to incurring the debt, and the property would thus be misrepresented.
