COAL STRIKE IS CERTAIN.

Hundreds of Car Loads Being Rushed into Ontario.

Cleveland, Ohio, March 28.—It was stated here this afternoon that negotiations between the mine operator and mine workers had proven abortive, and that a strike of two hundred thousand anthracite workers in district which supply the eastern states and Canada with coal, was practically unavoidable. Orders to strike are expected to be issued by the end of the week.

There is so far no sign of their real. There is equally little hope for a settlement of the bituminous men's troubles, and if they also strike, half a million miners will be out of work. The situation is admittedly very serious.

Agents of Canadian roads and companies are busy in Pennsylvania and Ohio, trying to hustle out shipment of Canadian coal before the actual trouble begins. Hundreds of cars are loaded for Ontario and are on the way there.

NAME CALLED IN COURT.

But Frederick Johnson Was Considered by His Absence.

The name of Frederick Johnson was called in the police court, Thursday morning, but he was conspicuous by his absence. He was remanded for cruelty to a dog, but as stated in the Whig yesterday, he made his escape from the general hospital, where he was undergoing treatment.

Before court this morning, a police constable was sent to the jail, to secure the accused, and afterwards the official report was made to the magistrate that the youth was missing. The mother of the accused was at the city court to-day, but gave the police no clues as to her son's whereabouts.

Farmers' Bank Enquiry Deferred.

Toronto, March 28.—Owing to the death of Dr. Thorne, a son-in-law of Chief Justice Meredith, the enquiry into the defunct Farmers' Bank was postponed until May. Sir William was at Osroode Hall, but did not leave his chambers, and Frank Hodgins, K.C., made the announcement. W. R. Travers will likely be taken back to Portsmouth penitentiary until the enquiry is re-opened.

Military Notes.

The theoretical portion of the militia staff course examinations commenced here this afternoon, and will be continued to-morrow. Col. Ogilvie is president of the board. The officers up for the examination are: Lieut.-Col. E. W. Morrison, 8th Brigade, C.F.A.; Lieut.-Col. F. W. Rathbur, R.O.; Maj. C. A. Low, 14th Regiment; Maj. W. H. Russell, 40th Regiment; Capt. Bywater, 49th Regiment.

To Succeed Capt. Healy.

Capt. Frank Partridge has been placed in command of "A" company of the 47th Frontenac Regiment, to fill the vacancy caused by the retirement of Capt. Thomas Healy. This company, under Capt. Partridge, it is expected, will remain up to the high standard under the late commanding officer. He is efficient and very popular with officers and men. A meeting of the non-commissioned officers has already been held, and prospects look bright for the annual training camp.

George Cuthbert, recently appointed postmaster at Grafton, was found dead in his house.

A provincial analyst will examine the organs of the late John Revell, of Toronto.

ISSUED AN APPEAL.

Premier Appeals for a Resumption of Industrial Conditions.

London, Eng., March 28.—Premier Asquith, this morning, issued an appeal to the miners of Great Britain to accept the minimum wage bill, which he said would effect largely what they fought for. The premier made this appeal in the guise of a speech to the liberal members of the House of Commons. He said he recognized that the agitation, as far as the great bulk of the men were concerned, was a disinterested movement. Now that their grievances had been removed by the establishment of the principle of the minimum wage, with machinery which could be trusted to fix reasonable rates, he strongly appealed in the name of the whole nation for a resumption of normal industrial conditions. He hopes that industrial peace and contentment are now in sight.

TO HEAL BROKEN HEART

Of Princess, the Kaiser, Takes 'His Daughter Away.

GERMAN PRINCESS LOUISE.

Berlin, Germany, March 28.—The Kaiser's trip to the Mediterranean with his only daughter, Princess Louise, ostensibly for throat trouble, is really to heal the princess' broken heart. During the winter festivities, the princess fell violently in love with a handsome captain of the cavalry, Count Fugger, but owing to difference in rank and the fact that Fugger is a Roman Catholic, their love affair could not be countenanced, so it was wilyly squelched by the imperial papa.

KINGSTON COULD HAVE

A PEAT PLANT FOR A SMALL INVESTMENT.

Canadian Government Has an Experimental Plant at Alfred—Peat Briquets Used in Kingston.

With the expenditure of seven thousand dollars, a peat plant could be established within a radius of six miles of Kingston, having an output of three hundred tons per day, sufficient to meet the demands of Kingston the year round. Peat as a fuel is used in Ireland, Scotland, Norway, Sweden and Russia. The American government, about four years ago, instructed its consular officers to report on the various processes used in foreign countries for the manufacture of peat into briquets, which information the government intended to use at its experimental stations in the United States.

In Ontario, at Alfred, the Canadian government established an experimental plant for the manufacture of peat, which has proved a success. The briquets manufactured at Alfred have been used by the Canadian locomotive works, as well as by private families of Kingston, and have given general satisfaction.

In view of the scarcity of fuel and the threatened coal strike in the United States, would it not be a wise plan on the part of the enterprising citizens of Kingston to look into this matter, and start an industry, which, from its start, would be paying investment? The estimated cost of manufacturing peat into briquets is \$1.75 a ton, which can be sold at \$3.50 a ton.

"HOPEWELL HALL"

Becomes the Property of Well-known Hotel Man.

Alexandria Bay, N.Y., March 28.—George C. Boldt, of the Waldorf-Astoria, New York, has purchased "Hopewell Hall," just above here, from the William C. Browning estate. The property is said to be valued at \$500,000. "Hopewell Hall" contains 225 acres and is one of the prettiest places on the St. Lawrence river. The property will become a part of the Boldt farm. Mr. Boldt will fix the residence property up and rent it. He now owns nine places in the one section.

Steamer Service Ends.

Ogdensburg, N.Y., March 28.—Smallman Bros., of Fort Covington, have sold the steamer Princess Louise, the last of three steamers operating between Cornwall and Dundee, to H. P. Cummins, of Cornwall, Ont. This terminates a steamer line established forty years ago. The gradual filling up of the Salmon river channel makes it impossible for steamers of the size of these vessels to navigate without grounding, so the route is abandoned.

To Act Soon.

Ottawa, March 28.—It is stated on good authority that the government has decided to appoint the proposed tariff commission some time in April.

Beck Will Get Arrears.

Toronto, March 28.—In addition to reimbursing Hon.
