BROCK STREET

KINGSTON YACHT CLUB

ELECTED HANSARD HORA AS ITS NEW COMMODORE

A Number of Prizes Donated for Racing—The Club Will Seek to Have Cedar Island Made Into a Public Park.

The annual meeting of the Kingston Yacht Club was held at the club house Monday evening, and although a snow storm is not calculated to inspire the yachting spirit, the meeting was largely attended by enthusiastic members. Commodore W. C. Kent was in the chair and called on the secretary-treasurer to read the annual statement, which showed that the club was in a flourishing financial condition, and with a large membership. About \$1,000 of stock

COMMODORE H. HORA

was bought in the Yacht Club, as a donation in the last two years.

The election of officers was proceeded with and the following were chosen:

Commodore—Hansard Hora.
Vice-commodore—John McKay.
Rear commodore—E. W. Waldron.
Secretary-treasurer—C. S. Kirkpatrick.

Auditors—R. E. Barnes and W. Craig.
Executive committee—C. E. Willis, C. Gay Shannon, Frank Smythe, Captain Robert Fraser and H. E. Richardson.

Regatta committee—Lieut. Col. F. Strange, J. P. Smith, J. H. McEne, L. C. Lockett, J. B. Conway, Capt. William Leslie, J. M. Campbell, Dr. D. A. Black, E. C. Gilderleeve and R. E. Barnes.

The question of having Cedar Island converted into a Dominion Lands, similar to those down the river, was discussed. The club has already applied to the government to have this island thrown open to the public, and in reply received communications from W. F. Nickle M.P., and Col. Fieser, deputy minister of militia, stating that the plan was leased to W. J. Savage for one dollar a year. The matter received considerable discussion and the feeling of the meeting was that the government should cancel the lease and establish Dominion Lands, open to the public, and build a wharf and pavilion similar to those mentioned on that small place five Ganouque park near the town and a large place at Kingston has not even one.

A resolution was passed asking the government to establish and maintain a Dominion Lands at Cedar Island for the benefit of the citizens of Kingston and others. The

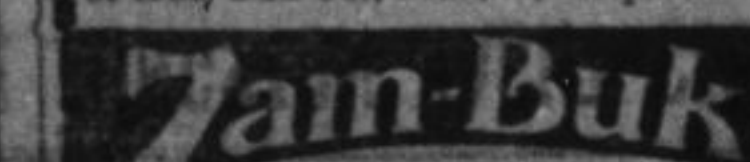

PILES CURED

Writing from Poplar, B.C., Mrs. C. Hanson, proprietress of the Commercial Hotel, says: "I suffered for years with bleeding piles. The pain was so bad at times that I could hardly walk, and ordinary remedies seemed utterly unable to give me any ease. Finally I decided to undergo an operation, and went to the Sacred Heart Hospital in Spokane. There they performed an operation. For a time I was certainly better, but within twelve months the piles became as painful as ever. I tried liniments, hot poultices, various 'pile cures,' and indeed everything I could think would be likely to do any good, but still I continued to suffer, and the shooting, burning, stinging pains, the dull, aching, worn-out feeling that the disease causes continued as bad as ever.

"One day I read about Zam-Buk and thought I would try it. The first one or two boxes gave me more ease than anything else I had tried, so I went on with the treatment. In a short time I began to feel altogether different and better. Well, I went on using Zam-Buk, and by the time I had used six boxes I was delighted to find myself entirely cured. That was three years ago, and there has been no return of the trouble."

Zam-Buk is a sure cure for piles, eczema, ulcers, abscesses, eruptions, chapped hands, varicose sores, burns, scalds, bruises, inflamed patches, and all skin injuries and diseases. Druggists and stores everywhere, 50c. box, or Zam-Buk Co., Toronto, for price.

secretary was also instructed to send communications to the city council and the board of trade asking their cooperation in the movement.

An alderman stated that the city council applied to the government for permission to quarry granite on Cedar Island for street purposes, and strong sentiments of dissent were expressed that the council should so little value such a beautiful island as to want to turn it into a stone quarry.

Lieut. Col. Strange introduced the question of the club having a representative in the George cup races this season, but the feeling seemed to be that the club had better wait until a new boat was built. It is likely that the matter will be taken up in the fall and efforts made to build a new challenger next winter. It is rumored that a prominent contractor and a dry-goods merchant are willing to provide the necessary funds.

Col. Strange spoke on the value of yachting contests to keep up the interest in the sport, and complained that the club did not sufficiently encourage racing in the form of prizes. The colonel's remarks brought forth a quick response from an enthusiastic member present, who offered to match any sum the club would vote to the regatta committee up to one hundred dollars.

E. C. Gilderleeve promptly moved that the club vote one hundred dollars for racing during the coming season, and the motion was carried, so the regatta committee has now two hundred dollars to offer in prizes. And this was not all, for John McKay and Neil C. Polson, Jr., announced that they would donate a one hundred dollar trophy for sailing yachts. Not to be outdone, J. M. Campbell offered to donate fifty dollars for another hundred for a trophy for motor boats, and the other fifty was subscribed by two other members. The members of the regatta committee are delighted at the prospect of being able to offer liberal prizes, and this should be the briskest racing season in the history of the club.

Some of the members advocated the holding of week-end cruising races to different points and have all the fleet take part, both sailing and motor boats, which would greatly increase the interest and good-fellowship among members of the club.

Prizes were offered last season for dinghy races, in order to develop young sailors and many interesting contests were held and several new boats built. The same policy will be continued this year, and the boys will be encouraged to get out and learn seamanship.

A vote of thanks was tendered the officers of last year for their good work in the interests of the club, and the new officers elected promised to do their best to make the club boom.

A new addition to the motor boat fleet this year is a thirty-five-foot speed boat now being built by Gilbert, of Brockville, for J. H. Sutherland.

For the George Cup.

A Toronto despatch says: Arrangements have practically been completed for series of races for the George cup. The Crescent Yacht Club, of Watertown, N.Y., has sent a challenge to the Royal Canadian Yacht Club and races will be sailed at Toronto during week of July 30th. The contest last year really lay between Vivia II and Kathleen, of Kingston. It is possible that the United States will come out with Herreshoff-designed craft this year.

The R.C.Y.C. is well supplied with a defender with Swamba, Vivia II, and Whirl, to fall back on, to say nothing of a new boat which has now reached the making stage, and shows signs of being even faster than old defenders. Judging from her plans, she may prove herself worthy to be chosen as defender this year.

Cooke's Guild Lecture.

A lantern lecture was given at the meeting of the Presbyterian Guild of Cooke's church on Monday evening. The views were all on a "Ramble through the British Isles," especially England and Ireland. The lecture was given by Harry Brock and the lantern was looked after by Mr. Rogers of the city light department. During the evening a solo was given by Miss Roseyear, and a duet by H. W. Newman and Robert Summerville.

Not Member of R.C.H.A.

An investigation it was found that George William Atkin, a discharged gunner from the Royal Horse Artillery, who attempted suicide by hanging himself in the cellar of an hotel in Toronto, Monday morning, was never a member of the Horse Artillery brigade in this city. Atkin may have been a discharged gunner from the Kingston brigade, and going under an assumed name in Toronto.

Progressing Favorably.

A letter received to-day from "Chauncey" Elliott, in hospital in New York, intimates that everything is progressing favorably, and the expert on his case told him, on Friday last, that he had every prospect of bringing about his complete restoration. Mr. Elliott has now been three weeks in New York.

Full Protection

Are you insured against loss by fire? You may hold a policy in some company, and yet not be fully protected. Make certain that the company is able to pay your loss when it happens. You can make absolutely certain by demanding a policy in the Liverpool & London & Globe. Agents, Strange & Strange.

Visited Those in Prison.

Some of the prominent Jews of the city went to the penitentiary on Monday to commemorate the Passover feast with their brethren who are confined in that institution. There are six Jews in the penitentiary, and they were much cheered at being remembered by their friends on this occasion.

To Open in Kingston.

H. W. Niles is in the city to open a branch for D. B. McCurdy & Co., Montreal, stock brokers. The branch will have a private wire with Montreal and New York. The company is also opening in Brantford, and these two branches will make into the concern is running.

MORE CLUBS DESIRE

TO ENTER THE SENIOR CITY BASEBALL SERIES.

Oddfellows and Wormwiths are Thinking of Applying Locomotive Works Underbid About Entering Team.

A meeting of the locomotive works baseball club was held Monday evening and delegates were appointed to the executive of the city league. It has not, as yet, been decided whether the worms will enter a team this season.

It appears that the Oddfellows and the Wormwith Locomotive Works are considering entering teams in the series. Whether this will be advisable or not is difficult to say. Many fans feel that there is not enough material in the city for any more than three good senior teams, and that the class of ball played would be greatly inferior to that displayed by the C. L.C.'s, The Victorias and the Athletics last summer.

Other baseball enthusiasts say "the more the merrier," meaning that there is lots of good material among the boys of the city just waiting to be brought out by the proper people.

Another thing to be considered is whether a schedule could be drawn up with more than three teams playing that would be workable.

SOME KINGSTON GRANTS

In the Estimates of the Ontario Legislature.

Toronto, April 2.—In the main estimates for 1912, presented to the legislature, yesterday, there is an increase of \$753,585 over the main estimates as presented to the house in 1911. The total amount of the estimates is \$8,844,496, as compared with \$8,090,911 for the previous year. The Hydro-Electric Power Commission gets \$200,000. The last of five annual grants of \$20,000 each to the School of Mines at Kingston is included.

There is an item for \$4,000 for the sanitarium for consumptives at Kingston.

For four hours Monday night the legislature devoted itself to wading through the manifold clauses in the insurance bill, which provides for the licensing of all agents of insurance companies not registered in Ontario.

BORDEN AXE STILL BUSY.

Postmaster Murray, of Glenburnie, Relieved of Position.

The Borden axe still continues to cut off government officials.

Thomas Murray, postmaster at Glenburnie, has been given notice that his services will no longer be required. He is, of course, a Liberal, and it was alleged that he took an active part in the elections. The Whig has it on the best of authority, that Mr. Murray, while a Liberal, did not take a prominent part in elections, and at the time of the provincial election, was confined to his home through illness.

Mr. Murray has been postmaster for three years, and was well fitted for the position. Archibald Bruton has been appointed in his place, but has not as yet taken over the duties.

Killed by a Train.

St. Thomas, April 2.—Andrew Harvey, a farmer, aged forty, was instantly killed by a Michigan Central freight train, this morning, while walking along the track near the Sheldon station. He leaves a widow and five children.

We Have Three Weeks' Supply

Of good Malaga green grapes still in prime condition at Carnovsky's.

The Canadian Northern railway will have a mile of freight yards on its newly acquired Leaside property.

Spring Humors

Come to most people and cause many troubles,—pimples, boils and other eruptions, besides loss of appetite, that tired feeling, biliousness, indigestion and headache.

The sooner you get rid of them the better, and the way to get rid of them and to build up the system is to take Hood's Sarsaparilla—the Spring Medicine par excellence.

It effects its wonderful cures, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than twenty different ingredients.

There is no real substitute for Hood's Sarsaparilla.

Get it today. Sold by all druggists everywhere. 100 Doses \$1.
