THE FAVORITE LAXATIVE

One at Night Makes the Next Day Bright—No Charge if Its Doesn't

Because of its extremely gentle and effective action, Revall's Oederlies have become the most popular remedy for constipation.

We are so positive that Revall's Oederlies will do all that is claimed for them that we positively guarantee to hand back the money you paid us for them upon your mere request, if you are not entirely satisfied.

Revall's Oederlies are eaten like candy, are very pleasant to the taste, do not gripe, cause nausea, or any other annoyance usually experienced when ordinary cathartics are used.

Revall's Oederlies have a positive regulative effect upon the bowels and tend to provide permanent relief from constipation and the myriad of associate ailments. Besides, they help to overcome the necessity of the constant use of laxatives to keep the bowels in normal condition.

We honestly believe there is no similar medicine so good as Revall's Oederlies, especially for children, aged, or delicate people. They are prepared in convenient tablet form in three sizes of packages: Prices, 10c., 25c. and 50c. Why not try them at our risk on our guarantee?

Remember, Revall's Remedies can be obtained in this community only at our store. The Revall store, G. W. Mahood, Kingston, Ont.

CITY AND COUNTY BENEFITED.

The Ontario legislature is claiming credit by inserting into its Highways' Act a clause by which the cities and towns may co-operate with the county and get some share of the federal grant for good roads.

Heretofore the towns and cities have not been encouraged to build out to the limits and in connection with some main road. Now they will be able to do it at an advantage.

The idea is not a new one. New York state leads in the new movement, the governor having given his assent to what is called the Allen Act.

Under this act the cost of the roads is paid in exactly the same manner as roads built through the towns, "the state and county paying part of the expense."

The provincial act has been amended in another respect. In the future

EDITORIAL NOTES

Col. Sam Hughes will take warning by the failure of compulsory training in New Zealand. Public sentiment does not favour the movement, and without it success cannot be expected.

The temperance people cannot get over the idea of Sir James Whitney's consultation with the license holders regard to the treating habit. The men who run the bars were not likely to advise that they be abolished.

The parents of a man's wife, even when she is ill, cannot carry her off and domicile her in her old home. So a judge in Montreal has decided, and he has given sanction to his decision by imposing a fine of \$5,000 upon the parents-in-law. Here's a warning and a point of law worth remembering.

The party press has adapted itself to the requirements of the time on the liquor question. Not a solitary conservative paper can see the folly of trying to check the drinking habit while the bars remain. Party allegiance is a powerful thing.

The conservative executive committee—or the patronage committee—is busy picking out men for the best places in the civil service. But it is not apparent that some of these places are at the disposal of this patronage committee. The penitentiary is not a Kingston institution.

B. R. Hepburn, M.P., is praised for securing so much money for Pierson and Prince Edward county. There is to be a large expenditure in Pierson harbour and of South and North Bays, which will be a benefit to the owners of the boats that navigate the Bay of Quinte, and particularly the boats of the Hepburn family.

Must Get Busy Right Away. Hamilton Herald. The government's "advanced" temperance policy has too evidently been adopted hastily with the intent to offend that of the opposition leader.

The reason that parliament will not meet till next January and then get through by the "Queen's Birthday," must have been started by some one who did not remember that next session will likely see a naval bill, a tariff revision, the report of a lot of investigations, and, possibly, a revision of the constitution.

Maple syrup, 25c. per bottle. R. H. Toye.

There are 250,000 cats and 25,000 dogs in Montreal. It is proposed to license the felines.
