

## "WE HOLD GOVERNMENT IN HOLLOW OF OUR HAND"

### Is the Declaration Made By John Redmond.

## HOME RULE IS COMING

### THE IRISH LEADER SAYS, AND HE SCOFFS

#### At the Opposition of Ulster—English Opinion is That An Outbreak of Civil War Would Surprise No One.

London, Eng., April 11.—John Redmond and his solid parliamentary phalanx stand undismayed. The Irish leader says:

"Ulster can go on. The contentions and writhings of the Ulsterites can have no effect on home rule. Here we stand with a pledge in our pockets. We hold the government in the hollow of our hand. The battle will be fought at Westminster, not in Belfast."

"Home rule stands behind home rule, and we stand behind Mr. Asquith until home rule is carried. If the premier finches, we have only to point to the eighty men from Erin on these benches, who constitute more than his whole majority."

"Home rule is coming. It is here, at the foot of the throne, and the king of England and emperor of India will sign the bill. He dare not refuse. It may be, probably will be, held up in the House of Lords, but in a short time it will become law automatically, just like a bomb with a time fuse attached."

Most people believe that Mr. Redmond is not exaggerating the strength of his position or misrepresenting the situation. The most discerning of the politicians say it would not surprise the world if the flames of civil war should burst out at any moment during the passage of the bill through parliament.

The London Times says: "Bonar Law left North Ireland with the conviction that, come what will, Ulster will never bow the neck to home rule, and that conviction must be shared on this side of the channel. The prayers with which the proceedings began, and the deep enthusiasm with which the great audience joined in the singing of the hymn with which it is the custom of the stately religion, people to preface the consideration of grave subjects, are tokens of the spirit that fills them."

"They believe their ill is at stake as firmly as their fathers believed it when they faced and beat off Tyrconnel and the French. They are not less resolved to defend their birthright—legally, if they can, but in any event to defend it. To them home rule appears the greatest of all conceivable calamities. It would take them from under the protection of the British government and of the British parliament, to place them under the rule of men whose ways are not their ways and whose standards are not their standards—under the men who control the United Irish League and the Ancient Order of Hibernians."

"To them, that means ruin. They will not submit to it unless it is forced upon them by arms, and they cannot bring themselves to believe that their British fellow-subjects will consent to force it upon them."

Ulster, it is admitted, means what every one of her warmings. The leading London papers are almost unanimous in the view that the crisis is grave.

### The Bill Introduced.

London, Eng., April 11.—Not for many years has there been such interest taken in any parliamentary event as that of today when Premier Asquith rose to introduce his famous home rule for Ireland bill. On the floor of the house even, when every seat is crowded, there is not enough room for the members. As a consequence at eleven o'clock, to-day, every seat was pre-occupied by hat or card, to indicate that the owners of the same would occupy this reserved space. All who were admitted to the gallery had to be introduced, and be thoroughly identified, the government taking no chances with suffragettes.

### COBourg TANK COLLAPSES.

The Town's Water Supply Cut Off by Accident.

Cobourg, April 11.—The huge water tank used by the Cobourg Institute Corporation for supplying the town of Cobourg with water, collapsed yesterday, and now lies upon the ground, a total wreck, its only use now being for scrap iron.

It is supposed that there not being a larger quantity of water in the tank while heavy ice remained in the top part, the ice gave way and fell, bursting the tank and carried it completely away from its foundation. The tank was 115 feet high above the foundation.

Chatham has another siege of water, and part of the city was flooded, but elsewhere in Ontario the water has gone down.

## CHARGED WITH ALTERING THE WILL OF DECEASED BROTHER OF WINNIPEG MAN.

### Baltimore, Md., April 11.—Declaring that alterations in the will of his deceased brother, a former internal revenue agent, were made, after his death, in the office of the local internal revenue agents, Robert Lake Dooley, of Winnipeg, made a sensation in the city, yesterday, when he caused the arrest of two internal revenue agents and an attorney. The men in custody are John E. Burton, of the Baltimore bar; L. R. Perkins, head of the internal revenue agents, and J. Scott Porter, a member of the same federal department.

Mr. Dooley took out a warrant for Burton, swearing that Burton had altered the will of his brother, Charles H. Dooley, who died in a Baltimore hospital on February 8th. Burton was charged with forgery and embezzlement.

Perkins and Porter were also sworn out for Dooley, and Dooley declares he declares are implicated in the transaction. All were arrested and are held for a hearing on Friday.

It is expected that their bail, which is heavy, will be furnished to-day.

## COUNTESS WANTS DIVORCE.

### Daughter of Steel Magnate Claims Husband Beat Her.

Chicago, April 11.—Countess Jacques De Beaufort was made defendant in a suit for divorce filed in the superior court by Countess De Beaufort, who was Miss Irma Kilgallen, daughter of M. H. Kilgallen, wealthy steel and iron manufacturer.

Countess De Beaufort charges cruelty in the bill. She and the count were married in London in 1909. Their troubles first became public in February, 1911, when Countess De Beaufort was injured by falling downstairs at her home during a quarrel, it is said, with her husband.

In her bill the wife declares that the count beat her while the two were at Hot Springs, Ark.

## REVELL'S WILL ARRIVES.

### It Will Be Produced at the Toronto Inquest.

Toronto, April 11.—When the inquiry into the death of John Revell, alias Spur, is resumed at the morgue next week, the will purported to be signed by him in the name of "John Revell" will be produced by the crown. The document was received yesterday.

By its terms Mrs. Emily Spurr, who lived with Revell, was made chief legatee. There were, however, bequests made to the Empire College of Ophthalmology, the executive heads of which, Dr. Evans and W. J. Harvey, are now in custody on a charge of conspiring to defraud the estate.

## DOMINIONS TO PAY EXPENSES.

### No Salaries to United Kingdom Trade Representatives.

London, April 11.—In the commons, yesterday, Hon. Mr. Harcourt, replying to Sir Gilbert Parker, said that no salaries will be paid to the United Kingdom's representatives on the empire trade commission, but he granted travelling allowances and subsistence expenses. The dominions were to pay the whole expenses of their representatives and a proportion of the secretarial expenses.

Sir Gilbert Parker declared himself as dissatisfied. He alleged that the United Kingdom's representatives were not impartial.

## DEAD MAN CALLED IN COURT.

### Quebec Criminal Court Case Has Unusual Ending.

Quebec, April 11.—The name of a dead man was called, yesterday, at the opening of the criminal court here. The party, a man named Ernest Desrochers, was accused of making false entries in the marine department pay roll.

When his name was called by the clerk of the court, M. H. Laferte, attorney for Desrochers, appeared for the latter, and declared that his client, having died on December 8th, could not appear. He had to produce the doctor's and burial certificate.

## DRESSMAKERS CALL OFF SHOW.

### Did Not Want Smaller Firms to Copy Their Models.

Paris, April 11.—The much-advertised and long-expected grand parade of mannequins on the occasion of the opening of the Longchamp season proved a disappointment, the dress-making firms having decided at the last moment to make hardly any show, so as to prevent the latest models from being copied by smaller firms, whose representatives eagerly await the display in the paddock.

## Christian Science Appeal.

Toronto, April 11.—That those practitioners who help about appeals through "appeals to Almighty God," should not be forced to qualify under the Ontario medical council's new act is a widely supported request made to the special committee of the legislature by the Christian Science church.

## Tarte Sues La Nationaliste.

Montreal, April 11.—J. I. Tarte, proprietor of La Patrie, has started an action against La Nationaliste, which accused him of running his paper for business reasons. The plaintiff states that such an accusation makes him out to be a shopkeeper and an illiterate man.

## Prof. Pember Coming.

Professor Pember of Toronto will be at the Randolph on Friday, April 12th. All ladies should visit this display. Bald men should see the Pember ventilated, lightweight toupee. Read the advertisement on another page.

Men, save money by buying your boots at Dutton's.

## TO DECIDE IMMIGRANT STATUS.

### United States Supreme Court to Take Up Question.

Washington, April 11.—When does an immigrant cease to be an immigrant? is a question the supreme court has decided to settle.

The question arises out of the claim by the department of commerce and labor that the immigration laws apply to aliens who have acquired a domicile in the United States, and who seek to re-enter the country after a temporary absence abroad.

The circuit courts of appeal for the sixth, third, fourth, second, seventh and eighth circuits are said to have sustained the government, while those of the ninth and fifth circuits have decided against it.

The particular cases which the court will review is that of Samuel Lewis, a Russian, who came to this country in 1904. On November 17th, 1910, he went from Detroit to Windsor, Ont., and is alleged to have brought in with him a woman, in violation of the immigration law. The government sought to deport him.

## CHURCH UNION VOTING.

### About 88 Per Cent. of Methodist Vote Favor Amalgamation.

Toronto, April 11.—The official returns of the voting on church union in the Methodist church to date show a percentage of about eighty-eight in favor of the proposal. The figures are: Members, eighty-eight years and over, for 21,147, against 2,969; members under eighteen years, for 1,811, against 215; adherents, for 3,482, against 396, making a total of 26,440 in favor of union and 3,580 against it. About 159 congregations have reported.

## MAYOR GAYNOR MAY BE A DEMOCRAT CANDIDATE.

### For the United States Presidency—He Would Get the New York State Vote.

New York, April 11.—It was freely predicted by leading democrats, to-day, that the speech of Mayor William J. Gaynor before the National Democratic Club, which is to be celebrated the 109th birthday of Thomas Jefferson at a dinner at the Waldorf-Astoria next Saturday evening, would be the formal announcement of his candidacy for the presidential nomination.

It is declared by close friends of the mayor, including those of Charles F. Murphy, leader of Tammany Hall, that the ninety delegates from New York, even though, as seems probable, they are to go to Baltimore uncommitted, will vote for Mayor Gaynor.

## JAPAN HAS PURCHASED Big Dirigible Airship Which Can Carry Crew of Ten.

Berlin, April 11.—Japan's first military airship, a magnificent Parseval dirigible, capable of carrying explosives and a crew of ten men, and able to travel thirty-nine miles an hour, has been completed and will be shipped to Tokio this week. It is the first Japanese airship to be sent outside European territory. The Parseval company has reason to believe that the Japanese government will promptly order a fleet of similar vessels.

An English commission spent the Easter holidays in Berlin inspecting the Parseval works on vessels. The company has offered to build a 600-horse-power vessel for the German navy with a guaranteed speed of forty-four miles an hour and capable of ascending from and alighting upon water.

## JACK THE RIPPER CLAIMS HIS NINETEENTH VICTIM.

### Another Mulatto Girl Lured into Alley And Murdered at Atlanta, Georgia.

Atlanta, Ga., April 11.—Atlanta's Jack the Ripper claimed his nineteenth victim, Tuesday night, when he lured Mary Kates, a comely eighteen-year-old mulatto girl, into an alley, cut her throat from ear to ear and then mutilated her body about the breast and below the waist.

The murderer had entirely disrobed her after cutting her throat. The clothing was neatly piled by the body. The mutilation of the girl's body was evidently done with a surgical instrument and the slayer had some anatomical knowledge as one of the organs was deftly removed.

In every case the ripper cut the throat of the victims, then mutilated the breast and a certain part of her body below the waist. So far the police have been unable to discover a clue to the murders. The negroes are in a state of terror and have offered large rewards.

## WILL HAUG FOR SHOOTING POLICEMAN.

Ottawa, April 11.—Word reached the officers of the Royal North-West Mounted Police, yesterday, that Fritz Eberts, a German, will hang on June 1st, for the murder of E. George Wilcott, at Frank, Alta.

Wilcott and two or three other members of the mounted police were patrolling at or near Frank, and came across men who had been committing robbery. In the light that followed Wilcott met his death.

## Canadian Coal for England.

Sydney, N.S., April 11.—The first coal cargoes ever sent to England from Cape Breton left here last night by steamer Muirfield. She took 5,000 tons for London.

The steamer Sagres is also leading 4,000 tons for the coal station at Buenos Ayres.

## ROWELL SOUGHT RELIEF FOR MUNICIPALITIES.

### Asked an Amendment to the Highways' Act.

## PLAN HE SUGGESTED FOR FAIR TREATMENT WAS VOTED DOWN.

### In the Ontario Legislature—Amendment Proposed to Compulsory Vaccination Act—Dr. McQueen Aimed to Make Vaccination Optional.

Toronto, April 11.—In order to hasten the conclusion of the session the legislature spent the whole of yesterday from 11.30 in the morning until late last night in an endeavor to finish up all the government business. A large number of bills were dealt with, many amendments were moved to bills called for, and instead of the usual amendments were moved by members of the opposition were promptly squelched by the house. There were two divisions during the afternoon; one on an amendment by Mr. Rowell to the highways improvement bill, and on an amendment by Dr. McQueen to the vaccination bill. The government majority were fifty-eight and forty-eight respectively.

On the third reading of the bill for the improvement of the highways Mr. Rowell moved an amendment which provided that contributions to highway improvement under the act shall continue as at present, so far as the province is concerned—namely, one-third by the municipalities, one-third by the province, and one-third by the federal government. That would involve no greater tax upon the province, but it would relieve the municipalities of one-half the burden they are now under, and would act as a strong inducement to have other municipalities come in under the highway improvement scheme.

Mr. Rowell was glad to see that the government had so far adopted the principle of the good roads resolution presented earlier in the session, that the money received from the dominion government should be used by the department of public works as part of the general fund for highway development. He did not agree that the lieutenant-governor in council should have authority to vary the proportion to be contributed by the municipalities, to be contributed by the province, and the dominion, at it would be possible to treat the municipalities differently.

It might not be the intention of the government to do so, but the act should be clear on that point. The clause should make perfectly clear the amounts to be contributed by each of the three parties, and if that could not be done, the act should state that all municipalities should be treated on the same basis.

Dr. Reams assured the house that the government was disposed to treat all municipalities alike. As the federal grant would not be available this year, the proportion of contributions will not be affected. Meanwhile, if it was found necessary to specify the amount, the act could be amended at a subsequent session.

The amendment was lost on a vote of 75 to 17. A further amendment by Mr. Elliott, to make one clause read that all municipalities should receive the same proportion of payment was lost on the same division, and the bill was given a third reading.

That there was opposition among the members of the government to Hon. Mr. Hanna's bill to provide for compulsory vaccination was evident from the large number of absentees from the government benches when the vote was taken on Dr. McQueen's amendment. J. A. Elliot (West Ottawa) spoke in the house against the bill, saying that the city council in Ottawa had passed a resolution opposing it. Neither Mr. Elliot nor Mr. Napoleon Champagne (East Ottawa) was in the house when the vote was taken.

Following are the others who did not vote—Messrs. Gooderham, Dunlop, Godfrey, G. H. Ferguson, Milligan, Hogarth, Peck, McElroy, Macdonald, Nixon, MacMay, Proudfoot, W. R. Ferguson, McDonald and Sutherland.

The vote was 66 to 38 against the amendment, a majority of only forty-eight for the government. The government majority on the highways improvement bill was forty-eight. The original motion passed its third reading on the division.

## BRILLIANT OPERATION.

### Italian Squadron Creates Diversion While Troops Land.

Rome, April 11.—In accordance with a prearranged plan, while the Italian squadron was creating a diversion by bombarding the Turkish positions around Zezara, to the west of Tripoli, a large force of troops direct from Italy landed and occupied an important strategic point on the coast of Libya. The operation is reported to have been a brilliant success, the Italians not losing a single man.

Sentenced to three years in penitentiary on a charge of wounding his brother, Alphonse Larocque, Ottawa, aged fifty-two years, shrugged his shoulders saying, "Pooh! Three years! That doesn't bother me."

## WEATHER PROBABILITIES.

### By Prohibiting Distributing Stalls in Local Option Districts.

### WIPE OUT DRINK MENACE.

Toronto, April 11.—The Ontario government has moved to wipe out the most serious menace to the success of local option that has arisen in recent years. By a clause in the liquor license act, introduced in the legislature yesterday, by Hon. W. J. Hanna, the storing of liquor in local option municipalities is to be absolutely prohibited. This will apply to all liquor not actually delivered into the possession of the person for whom it is intended, and will prevent breweries having distributing warehouses in local option districts.

The government takes power to suspend licenses in the neighborhood of any public work, except in hospitals. Another clause provides for the imprisonment of drunks who refuse to divulge where liquor was illegally obtained. Hotelkeepers are forbidden to cash pay cheques or place false labels on bottles. The maximum fine for infractions of the license act is raised from \$200 to \$500.

## BIG RIVER UNDER CONTROL.

### Sweeping Torrent Checked for the Present.

Vicksburg, Miss., April 11.—A great army of men throwing up earth works to fight off the sweeping torrent of the Mississippi flood rested on their arms last night along the river stretches from Helena, Ark., southward.

The near crisis of twenty-four hours has been bridged with temporary victory at least. The outcome of the strife against the tide now hangs in the balance and apparently with the advantage on the side of the human forces.

## EXCITING BOAT CHASE AT NIAGARA FALLS.

### Opium Smugglers Escaped From United States Customs Police Boats by Daring.

Niagara Falls, Ont., April 11.—When a strange motor craft without lights anchored at the end of Grand Island, having apparently come from the Canadian side, United States customs police forthwith put out another boat and there was an exciting chase among the ice floes, which threatened to bear down on the frail motor boats, and leave them helpless over close to the falls that the police dare not go. Then dodging behind an ice floe, the smugglers disappeared. One hundred and fifty pounds of opium, apparently intended for the United States shore, was found among the ice on Grand Island, where the boat had anchored.

## KING AND QUEEN ATTENDED Wedding of Lady Eileen Butler to Marquis Stafford.

London, April 11.—With the king and queen smiling approval, Lady Eileen Butler, the queen's most beautiful maid-of-honor, to-day, became the bride of the Marquis of Stafford, at the most brilliant wedding that London expects to see this season.

St. Peter's was the scene of the wedding ceremony. The bride had no fewer than fourteen bridesmaids. The wedding reception was held at Grosvenor House, but for the occasion by the Duke and Duchess of Westminster.

## "Wets" Won Victory.

San Francisco, Cal., April 11.—Town elections throughout California, with prohibition as the main issue, and with women voting for the first time in most of the towns, apparently resulted in a victory for the "wets" (of thirty-six towns reporting, twenty-one voted "wet"). In almost every instance women candidates were defeated.

## Archbishop Bruchesi Takes Rest.

Montreal, April 11.—Archbishop Bruchesi, whose health has been impaired of late on account of his many duties, left, yesterday, for Detroit, Toledo and other parts of the United States, where he will sojourn for three weeks.

## RUMOR WAS UNTRUE THAT POPE WAS DEAD.

### His Holiness Received Visitors at the Vatican on Thursday as Usual.

London, Eng., April 11.—The cables and telegraph wires of Europe were warm this morning with rumors that Pope Pius was dead. For a long time no official statement could be obtained from the Vatican, but finally it was given out that His Holiness was giving audience to distinguished Roman Catholics as usual to-day. There was no change in his condition.

## Cornwall Man Found Dead.

Victoria, B.C., April 11.—The body of a man believed, from papers in the pocket, to be Hugh B. Willis, of Cornwall, Ont., was found on the beach at the foot of Mendis street yesterday. The police have been unable to find out anything more about the man. He was about five feet ten, of medium build and had a light brown moustache.

## Jas. Redden & Co.

Tried to Cremate Boy.

Gadsden, Ala., April 11.—Wheeler Beasley and his wife are under arrest here charged with attempting to incinerate Ezra Busby, a sixteen-year-old boy, after he had inhaled too much liquor in their alleged blind-tiger resort near here. They feared he would attract attention, it is alleged, and so placed the drunken boy under a brush heap and set on fire. His screams were heard and he was rescued after he had suffered what may be fatal burns.
