SON'S CHANGES MADE WAS CHILD KIDNAPPED

IN THE RAILWAY TIMETABLE AT GANANOQUE.

A Better Service to be Given to the Thousand Island Junction—Oddfellows Had a Big Time Friday Night.

Gananoque, April 28.—C. S. Lee, local agent of T.I.R., announces the following changes in the time table of the company for closer connection with trains on the G.T.R., the changes to take place on and after April 28th. To meet No. 6 mail, east, leave 12.45 p.m.; No. 4, fast, east, leave 1.40 p.m.; No. 7, mail, west, leave 2.25 p.m. This will allow passengers for the fast No. 4 three-quarters of an hour longer in town than at present, and will dispense with the long wait at T.I. Junction now necessary, as only the one run was made for both. The afternoon mail will under the new time table, arrive in town about one hour earlier than at present. This change will make close connection with the different trains. It has also been arranged that tickets are not to be sold on the trains, but must be purchased either at the station or up town office of the company.

MOTHER SENT FOR HER CHILD AFTER TEN YEARS.

Little Girl Had Been Staying at Home in Odessa and Was Taken Away by a Man on Friday Afternoon—Kingston Police Notified.

Was the child kidnapped? This is the question that is being asked by the people of Odessa. The little village was thrown into a state of great excitement on Friday, when it was reported that a little girl had been kidnapped while in attendance at the school at the village.

From what can be learned by the Whig, it appears that a woman who has been living in Syracuse, about ten years ago, placed her little girl, then a child of two years, with a relative who lives at Odessa.

According to report, the mother, on Friday, had a man go out to the village and take the child, while she was at play at recess, and bring her into the city.

The parties who have been keeping the child got word of the fact that a man had taken the child, and followed into the city, but it is alleged that the man and the mother had made a hurried exit from the city, by the time they reached Kingston.

The chief of police was communicated with, and as there was a report that the child was being held at a certain home in the city, a couple of constables were sent there to find her, but the missing one could not be located.

A local lawyer has been engaged on the case, and there may be further developments. It was reported that, although the child had been given over to relatives they had no papers signed in connection with the matter, and that, therefore, they would have no right to have the child, without the consent of the mother, who had a perfect right to take the child. This, of course, will be a matter for the law courts to decide.

NEWSPAPER MEN WISH

TO WITNESS ARRIVAL OF THE TITANIC'S DEAD.

Appeal to the Minister of Militia—A Coroner's Jury Has Been Empanelled at Halifax.

Halifax, April 27.—An interest rivalled only by that which attended the arrival of the Carpathia in New York last week is looked for with the expected arrival of the morgue ship, Mackay Bennett, Sunday night or Monday morning. Each train brings relatives and people of all classes who went on the Titanic. They have come from all parts of Canada, the United States and Europe. Officials of the White Star line are trying to avoid publicity in connection with the recognition and identification of lost ones by their relatives, and have ordered the exclusion of a big corps of newspaper reporters and photographers from New York and Boston.

These newspaper men are very indignant at this exclusion, and are pulling all sorts of wires to try to get in to witness the sad scenes. They have wired Hon. Sam. Hughes, minister of Militia, to use his influence, as the Mackay Bennett will land at the government gun dock.

To comply with the law, a coroner's jury has been empanelled to view all the remains as brought in, and formally pass verdict of accidental death. There will be special funeral trains ready to depart immediately to Montreal, Calgary, New York and Chicago.
