

To Keep Tea At Its Best
It Must Be Kept In
An Air Tight Package.

RED ROSE
TEA "is good tea"

Jam Used as Medicine.
Jam in its early days seems to have been regarded as possessing medicinal properties. Galt, in "Annals of the Parish," notes "a new luxury that got in among the commonalty about 1760. By our young men that were sailors going to Jamaica and the West Indies heaped of sugar and coffee beans were brought home, while many, among the cabbages in their yards, had planted

berry bushes, which two things happened together, the fashion of making jam and jelly came to be introduced into the village. "It was found that jelly was an excellent medicine for a sore throat and jam a remedy as good as London candy for a cough or a cold or a shortness of breath." Did it ever occur to you that "jam" was abbreviated from Jamaica?—London Chronicle.

HAS BEEN ORGANIZED

THE LOCOMOTIVE WORKS SOCCER TEAM.

There will be Exhibition Games and Scheduled Games in the Fall—A Lacrosse Club May be Busy This Coming Season.

The locomotive works' soccer team has organized for the season, and elected officers: Honorary president, W. A. Wheatley; honorary vice-president, William Hart, Jr.; president, Dr. J. J. Hart; secretary, A. Leonard; treasurer, J. H. Birkett. The works will put a strong team in the city league, for the exhibition games during the summer, and the scheduled games when the league opens in the fall.

No Meeting Called.
As yet no meeting has been called of the executive of the Sunday school A.A.A., to arrange for the baseball league. The city league has been down to business for the past month. An early start means much, especially to a young athletic organization like the S.S.A.A.

To Have Lacrosse Team.
The first lacrosse practice of the season was held on Monday night. There was a splendid turnout and the boys seemed anxious to organize a club. There will be another practice on Thursday night and everyone who has a lacrosse stick is asked to be present.

"THE OPEN WINDOW."

A Missionary Play by J. A. of St. George's Cathedral.

The big and little girls, officers and members of the Junior Auxiliary of St. George's cathedral, put on a splendid missionary play, "The Open Window," in St. George's hall, on Monday night. The play began with a conversation between three girls, who found life very miserable, chiefly because of idleness. On their complaining breaks a sunbeam in the form of a girl friend, who tells them to open their windows and life will never be dull again. They challenge her to prove her statement, she accepts and the window is flung open. Through it the little girls see the shrinking children of India, and the child-widows of that land, the foot-bound girls of China, the churchless children of our own North-West and of the Australian wastes. Horrified, the girls watch and listen as their little sisters (in the costume of their country), recount their real troubles, and then, setting on the impulse of awakened sympathy, they determine to help to send the blessings of the gospel and of civilization to the ends of the earth and to the remote parts of the home land.

The lesson taught both the actors in the little play, and the audience, is a wholesome, stirring one. Besides, the play a number of small girls impersonated the pledges undertaken by the junior branches of the auxiliary, and this was also, capitally done.

Congratulations are due the superintendent, Miss M. Going, and her assistant, Miss C. C. Smith, and all who took part. The play is to be presented at the annual meeting of the Woman's Auxiliary, to be held in Napanea in January.

Opinions on "With Edged Tools."

"One great scene which brings down act four would alone ensure its success,"—London Daily Mail.

"This unheeded group take the season's honors,"—Chicago Inter-Ocean.

"In every sense a beautiful play,"—London Standard.

"Stand pre-eminent in point of human interest of all plays that have visited us this season,"—Toronto News.

"Their artistry is superb,"—Toronto World.

"This company is so far superior to the ordinary company we are accustomed to see here that a comparison is impossible,"—Toronto Globe.

"The two last performances in America at the Grand on Saturday, May 4th, matinee and night.

Leipzig on Spalding.

"Albert Spalding, a really extraordinary violinist, was heard yesterday in Fourch Hall. Broad tone, large and soulful playing, masterful technique and eminently musical interpretations are his leading qualities. Together with these qualities he exhibits a predilection for classical and, especially, polyphonic music.

"Hand's wonderful A major sonata, the minuet and prelude by Bach and Regner's A minor sonata were wonderfully rendered. Regner's sonata is in its clarity, its rich themes and its subtle but natural originalities a little masterpiece."

City Hall, Friday, May 2nd. Place at Sargent's Drug Store.

Insurance Rates Cut.

Some insurance company's cut rates. Some also cut losses. A company's policy is usually not worth more than you pay for it. You cannot get the best article at a cut price. It is the most "penny wise and pound foolish" policy to save a trifle on your premium and get inferior protection. Pay the regular rates and secure absolute protection in the Liverpool & London & Globe, Agents, Strange & Strange.

"Buy lavender camphor." Gibson's Sale infants' boots, wool coats, etc. Dutton's.

Arthur Moag, who for the past two years has been in the Molsons Bank, Smith's Falls, has been promoted to the Toronto branch.

"King's Plate Condition Powders." Gibson's.

George Howson, who has been manager of the Union bank at Carleton Place for the past two years, has been promoted to the management of the branch at Galt, Ont.

Only Get "BROMO QUININE," that is Laxative Bromo Quinine, that Cures a Cold in One Day, Grip in 3 Days on box, 25c.

YOUNG PEOPLE'S RALLY.

They Have Gathering in Congregational Church.

The quarterly rally of the Young People's Societies of Christian Endeavor was held, Monday evening, in the First Congregational church, and proved to be a most inspiring gathering. Brock Street Methodist, First Baptist, Bethel Congregational, Cooke's Presbyterian, First Congregational, Princess Street Methodist, Sydenham Street Methodist, Union Street Baptist, and Portsmouth Presbyterians were represented.

The programme opened with a solo by Miss Myrtle King, "A Song of Old Time." The president of the union then read an application from the Young People's Society of Portsmouth Presbyterians for admittance into the union. It was moved by H. Newman and seconded by Miss E. Hall that it be admitted. The motion carried and after the society had been formally received the members were welcomed by the singing of "Blest Be Thy Name, O Lord."

The roll was called and the following attendance reported: First Baptist, membership, 25; average attendance, 13; present, 21; First Congregational, membership 31; average attendance, 17; present, 26; Princess Street Methodist, membership, 2; average attendance, 26; present, 28; Sydenham Street Methodist, membership, 40; average attendance, 20; present, 18; Union Street Baptist, membership, 24; average attendance, at consecration meeting, 24; present, 16; Brock Street Methodist, membership, 18; average attendance, 25; present, 21; Bethel Congregational membership, 71; average attendance, 35; present, 40; Cooke's Presbyterian, membership, 39; average attendance, 35; present, 37; Portsmouth Presbyterian, membership, 21; average, 18; present, 13.

In her preliminary remarks, Miss Hall congratulated the young people upon the convention to be held at Kingston the next future. She said it meant work, but work was the heart and soul of the young people's movement. One of her watchwords was "Do Things."

She showed briefly the purpose of the Young People's Christian Endeavor Societies. They were organized to train young people to do things in a systematic manner which once they did in a shipboard and spasmodic way. The hard things, said she, are what we should aim at. It is the hard things that show the stuff we are made of.

Miss Hall gave an urgent appeal to the young people to live up to their principles. Others judge us by our lives and our lives are, after all, the important things. She called attention to the pledge and what it meant. First, a quiet hour, the best of all. How much it means to be in touch with God with our first thoughts of the day. It helps to fight the day's battles. We should train the young not to say prayers but to pray.

She also spoke of the fellowship involved in the pledge. Miss Hall came at her experiences at large conventions where numbers of strange delegates were welcomed as warmly as they could wish. We should be soul-winners. We are saved to serve. The giving of personal testimony, said Miss Hall, should never die out with the voting people.

The greater touched briefly the subject of society symbols and explained the emblematic meaning of each. Miss Hall said that the keynote of the whole work was consecration which means a complete surrender of our will to God.

Miss Hall's address was appreciated and was honored with applause until she responded again in a few fitting words.

YM.C.A. Bible Club Final.

The Monday evening Bible class sessions of the Y.M.C.A. came to a close last evening after one of the best seasons in the history of the club. The meetings this season have been largely attended and have been a great help to all who have attended. Much praise for the success is due to the able work of Robert Meek, and also to Frank Beckwith, who recently left the city. The membership has increased somewhat. Last evening as it was the final meeting for the season, it was more of an open evening. Mr. Meek spoke on one of the Biblical characters, and a number of the members made brief speeches. Mr. Jones rendered a solo during the evening.

Boys Ride the "Bumpers."

Complaints are being made by men who happen to be out in the vicinity of the outer depot on Sunday, to the number of young boys riding the "bumpers." Sunday seems to be the big day with the boys, who enjoy this sport last Sunday it is stated that there must have been about fifty boys spending the afternoon in this way. It is not only the older boys but mere children that are seen. They take the trains down on the grade and then ride until they come to the next grade and get another train back. The police should make an example of some of these boys who persist in this practice.

Musical Treat To-night.

All are looking forward to a musical treat in the event of Francis Fischer Powers' Choral concert on Tuesday evening. Mr. LeDuc, a pupil from Ottawa, will be heard to good advantage in his singing of French songs. Do not miss this rare opportunity to enjoy a pleasant evening.

To Have a Big Time.

The Kingston old boys and girls of Chicago will have a good time to-night at a big dance and card party in the Colonial Hall, 30 West Randolph street. The association is making splendid progress. New members are joining at every meeting.

To Receive Degree.

T. H. Denton, son of Mr. and Mrs. W. J. Denton, University of Toronto, recently passed his final examination at the Royal Dental College, Toronto. He will receive his degree at the closing on Friday night.

OFFERS CITY POWER

FROM KINGSTON MILLS AT REASONABLE RATES.

Proposition of John M. Campbell to Utilities Committee—Several Requests for Water and Electrical Power.

John M. Campbell, of the Kingston Milling company, made an offer to the city utilities committee at its meeting on Monday afternoon to supply the city with some electrical power from Kingston Mills, the water power at which place this company has the right to develop. Mr. Campbell's communication stated that his company had completed arrangements to develop power at the Mills, and asked the city to make a five-year contract with the company for the use of some of it. The company would be able to commence this supply on November 30th, 1912, and from November 30th to April 30th will be in a position to supply the city with 150 kilo-watts, with peak loads up to 300 kilo-watts, from May 1st to November 29th, with an average load of 75 kilo-watts, without peaks. The price would be three-quarters of a cent per kilo-watt, measured on the step down transformers, delivered at the power station, with the understanding that the company's power would be run on the city's poles to the station.

The committee was in favor of taking advantage of this proposition, especially in the winter months, and a resolution was passed, asking Mr. Campbell to submit a contract.

Manager Folger said that he expected Mr. Keleh, Montreal, expert in the city, the latter part of the week to go into the power situation, and then the committee would be in a position to proceed to enter into a contract with either one of the concerns, the Hydro-Electric, or the Seymour.

Water Extensions.

The report of the city solicitor was read regarding the Victoria street water extension, to the effect that the tenants, who have not signed the petition for the main could not be collected from. The committee, however, felt that that section of the city is fast building up, and the water main would soon have to be laid, so, on motion of Ald. Elliott, it was decided to lay the main on Victoria street and connect a number of dead ends. Ald. Harrison asked why not put in the gas at the same time but it was not thought advisable. On the manager's suggestion another dead end will be connected on Barrack street, between King and Ontario streets, as necessary for fire protection.

Requests for Power.

The North American Smelting company wrote the committee regarding their consumption of power at their plant, out at the old smelter site. They will require from forty to fifty horsepower, continuous service, and will also require lighting power. An electric line with capacity of 10,000 horsepower, the cost of 1,500 horsepower would be approximately \$45. These figures are somewhat lower than the hydro's architects quoted.

Retain Gas Meters.

Regarding the removal of the gas meters, which Ald. Armstrong has been advocating, it was shown that these represented fifty per cent of the net profit, or \$5,000. The committee was unanimous with the chairman, that the time had not arrived for such a step, the generating plant was not in shape, and the committee was waiting to adjust the power supply question.

The advance in position and raise in salary of the utilities' employees was discussed for nearly an hour. Ald. Elliott moved a resolution that Frederick Milo, the foreman of the waterworks department, be raised to the position of plumbing expert of the city utilities, or assistant to the manager. His motion also embodied the elevation of John Evans to the position of mechanical head of the department, both men to receive a \$200 increase in salary. As the departments have been operating under the new management but a short time, though very successfully, the committee was reluctant in making any move in the matter at the present time.

A good deal of routine business was carried through, and tenders for supplies awarded.

The members present were Ald. Rigby (chairman), Bailey, Elliott, Harrison, Ross and Shaw.

For cool evenings, sweaters for everyone, at Dutton's.

How Nerve Cells Are Broken Down

Every man or woman who works with the brain uses up daily an enormous amount of nerve force. Millions of tiny nerve cells are broken down and must be replaced if mental and bodily efficiency is to be maintained.

If brain fog, headaches, sleeplessness or irritability set in, the evidence is plain that nature is not rebuilding as fast as work is breaking down. You cannot allow this depleting process to continue long if nervous prostration or paralysis is to be ward off.

Dr. Chase's Nerve Food will help you to get the balance on the other side of the account, so that day will add a little to your stock of health and vitality. A man whose work is largely mechanical may keep going with health below par, but the brain worker must have a clear head or fall behind in the race. Before the wasted nerve cells with Dr. Chase's Nerve Food and know the joys of good health and success.

Household Remedy

Taken in the Spring for Years.

Ralph Rust, Willis, Mich., writes: "Hood's Sarsaparilla has been a household remedy in our home as long as I can remember. I have taken it in the spring for several years. It has no equal for cleansing the blood and expelling the humors that accumulate during the winter. Being a farmer and exposed to bad weather, my system is often affected, and I often take Hood's Sarsaparilla with good results."

Remember there is no real substitute for Hood's Sarsaparilla. If urged to buy any preparation said to be "just as good" you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

Get Hood's Sarsaparilla today. Sold by all druggists everywhere. 100 Doses \$1.
