They Just Smile !.

Dr. George C. Creelman, president of the Untario Agricultural College at Gueiph, admits that in the following story the joke was on him:

For ten years he had held the position of secretary of the American Association of Farmers' Institute Workers, but he found that his other duties would not permit of his continuing in that office. So, at the annual meeting in Washington, D. C., just before the election of officers was to be held, he explained that he would no longer be able to act as secretary. The other members smiled when he said that.

8) Dr. Creelman emphasized the fact that he could not continue as sec-

TRUSTEE: NATIONAL TRUST COMPANY, LIMITED, TORONTO

The Canadian Northern Railway issues its equipment obligations through a subsidiary corporation The Imperial Rolling Stock Company, Limited-and covenants to pay principal and interest at maturity. These equipment obligations constitute a first mortgage on standard motive power and rolling stock at only 75% of their contract price, the balance being paid in cash by the Railway Company.

Every safeguard is taken for the insurance, maintenance and replacement of the mortgaged equipment.

Title to the equipment remains with the Trustee until all bonds issued against it are retired. As equipment is absolutely essential to the operation of a railroad, the integrity of equipment bonds must be preserved.

Since 1902 the Canadian Northern Railway has issued equipment bonds to a par value of \$30,086,458, of which amount \$9,458,575 had been retired by April 2nd, 1912. Equipment bonds to a par value of \$20,627,882 are at present outstanding and are held as permanent investments by numerous private and institutional investors in Canada, England and the United States.

COMPARATIVE STATEMENT OF EARNINGS
