R. WALDRON

WAS TWO YEARS OLD

**CHARGE WHICH CONFRONTED
DAVID WALKER IN COURT.**

**He Was Fined \$25, With Option of
Month, for Securing Liquor for
Member of the "Prohibited List"
—Magistrate Reprimanded Him
For His Conduct—Other Cases
Heard.**

The charge which David Walker had to answer to in police court, Saturday morning, was two years old. The law does not forget an old charge. On May 21st, 1910, it was alleged that Walker secured liquor for a member of the "prohibited list," and when he was arraigned he pleaded guilty. Apart from telling the magistrate that he was guilty of the charge he had nothing further to say. The magistrate gave him a severe reprimand for his conduct.

"You are one of the class that I cannot understand," said the court. "The last thing a man should think of doing would be to do an act of this kind—to get liquor for a man who has no control of himself whatever, when he is drinking."

The court then imposed a fine of \$25 and costs, or one month.

Napoleon Newell was wanted on a charge of being disorderly on a Ragout street car last Saturday, but he failed to comply with the summons. Constable Daniel McCreary handed him on Friday night. It is alleged that Newell put his fist through a pane of glass in the car. A warrant was issued for his arrest and he will be heard from later.

Patrick Murphy is the man who, while drunk, picked out the railway tracks for a bed to have a sleep, on Friday. The train crew saved his life. He said he was on his way to Sydneyham to pick up a job. His instructions were to leave the city by noon.

David Lasher, "also drunk," was fined \$2 and costs, or fifteen days.

THE PLUMBERS' STATEMENT

**With Reference to Their Strike—
They Explain Their Demands.**

Kingston, May 4.—(To the Editor): Kindly allow us to correct a statement in your issue of last evening re strike pay for the plumbers now on strike. We have received letters from all parts of Canada asking for men at the rate of forty-five cents per hour for an eight-hour day. Now we contend that the public will say, that living is higher in those places than it is here. Living is surely high enough here; for instance, bread is two cents more on the loaf. Of course, we know that the driver or the baker gets that two cents (nit.)

As to patronizing home industry and stores, do the contractors or the merchants do that. They do not, but the workmen do as far as they can, and we contend that the merchant or the contractor does not join in any movement to help the toiler any more than he can help.

Now as regards strike pay, do not worry; we are not crying out. Two of the boss plumbers have signed the agreement for the increased pay and reduced hours, and their men are at work, and we might say that two of the boss plumbers who refuse to sign the agreement do not employ any men at the present time.

If the public can get along with the work done by the apprentices at this crisis, it is their own business, of course, but the conditions we have been working under without a practical plumbing inspector is a byword all over Ontario, and we think it possible this condition should be remedied at once by the authorities for the protection of the health of the general public.—LOCAL UNION, NO. 221.
