CANADA WILL NEVER BE DELUSED AGAIN

So Declares Sir Gilbert Parker in London.

IT WAS A CONSPIRACY

TO SECURE POLITICAL ANNEXATION BY COMMERCIAL

Both Republican and Democratic Leaders on the Same Tack—Thinks the People of the United States are Ashamed of the Way President Taft Acted Towards Another Nation.

New York, May 6.—The World publishes a London cable quoting a statement by Sir Gilbert Parker, as follows:

"I am not going to engage in a discussion of American politics, but since the president of the United States in a letter declared his policy toward Canada, in whose destiny I am very deeply concerned, I feel myself at liberty to say as far as all imperialists are concerned we detect his secret intention, deliberately stated, even more than we detect his affirmed policy of commercial reciprocity. We, who know the United States were well aware since the time of Mr. Blaine that commercial annexation leading to political annexation was the policy which was greatly desired in certain official, as well as un-official, quarters in America. I do not quarrel with their desire or intent, but it is our business to see the desire or intention shall never be fulfilled."

"Champ Clark let the cat out of the bag, and the bitter and painful part of the whole business is you have a democratic candidate and two republican candidates for the presidency, who have declared for the absorption of Canada. We are never likely to be deluded again."

"Now, I want to say I don't believe the mass of the American people would, as they say, stand for the kind of policy secretly exploited and finally stated by the head of the American republic. To Col. Roosevelt Mr. Taft said he meant the absorption of Canada. To the people of the United States and the people of Canada, he said he meant only mutual commercial advantage."

"We have people want a square deal, and if you caught us trying to sneak Alaska from you by such a game as President Taft played, I fancy the president would go to Congress and ask for an appropriation, and you know what that means. Alaska is needed to complete Canada's territorial position, but no one in this British empire has ever thought of trying to inveigle the United States to part with her position in Alaska, either commercially or territorially."

"Let us have fair play. We want no more than we are entitled to, and no less."

"I say the letter written by President Taft to Col. Roosevelt, to the jockey of which both agreed, is a blot on the high and honorable traditions of American foreign policy. Let the United States leave our imperial bonds, our constitutionalism alone. That's what Canada said. That's what I, in common with fellow imperialists, say. We mean to hold the British empire as it stands, every foot of it. We mean to keep intact the bond between our overseas dominions and the United Kingdom. We mean, just as powerfully as Americans ever meant, by practically safeguarding our interests to prevent our flag from being handed down in Canada or our commercial position weakened by indirect means. Thank heaven, the Canadian people suspected the game and kept faith."

The president, ex-president, and the democratic candidate for the presidency declared for the absorption of Canada. What do the American people think of it? I know what we would think of the American people if they approved of the president's, ex-president's and democratic candidate's desires and purposes, and I believe the vast majority of the American people are ashamed of what the president did."

To Have a Model Town.

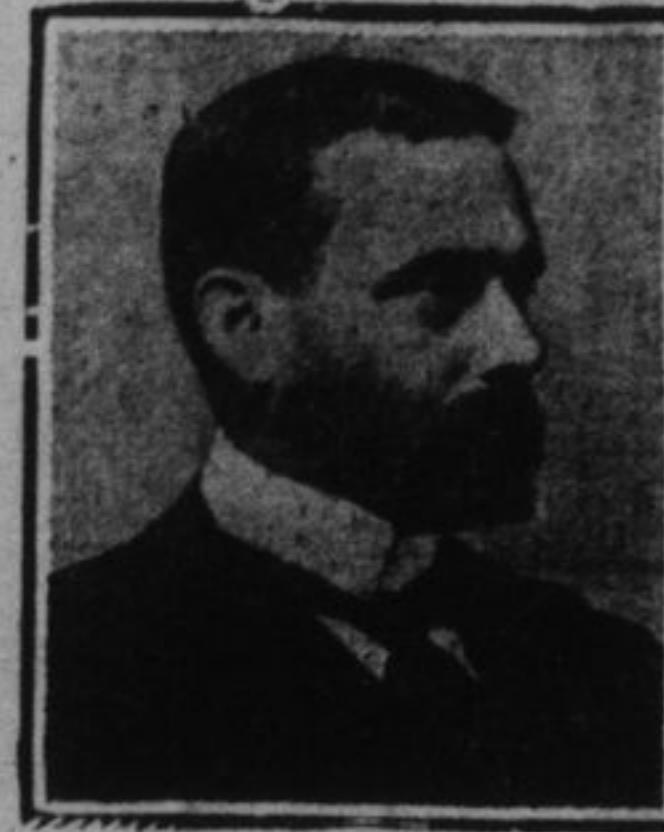

Toronto, May 6.—The Canadian Northern railway has purchased a block of land two miles long and a mile and a quarter wide in the immediate neighborhood of Lonsdale station, for the purpose of establishing car shops, freight sheds, round houses, etc., for suitable places for workingmen's homes and for the formation of a model town on the borders of Toronto and about five or six miles from the centre of the city.

New Registrar.

Ottawa, May 6.—Dr. Charles Morse, K.C., was sworn in as registrar of the exchequer court of Canada, in succession to Justice Audette, lately elevated to the bench of the court. Dr. Morse has held the position of deputy registrar of the court for ten years.

DAILY MEMORANDA.

City Council, 8 p.m. Division Court, 9 a.m. Tuesday. Canadian Club dinner, 12.30, Tuesday. Tuesday last day on tuberculosis hospital tenders.

SIR GILBERT PARKER.
Who talks plain about the duplicity of
President Taft,

SECOND-HAND TEETH LIMIT.

Wear Out Patience of Wife, Who Asks Divorce.

Logansport, Ind., May 6.—Because she objects to wearing second-hand teeth, Mrs. Mathias Simons has filed suit for divorce.

In her complaint against her husband she declared that he failed to provide her with the necessities of life.

The principal specification is her bill.

"On the trust question," Taft said, "the only difference between Mr. Roosevelt and myself is that I prosecuted the steel and harvester trusts and he did not. Suppose I had failed to prosecute the steel trust and the harvester trust, and later it was found that Mr. Perkins was contributing to my campaign, would Mr. Roosevelt have looked with charity on my course? No, he would have come down on me like a thousand bricks and would have said, 'Now you see he is controlled by the interests.'

"And yet Mr. Roosevelt has the courage (I shall not call it anything else) to challenge me with being under control of the interests. Why, my administration has prosecuted every violation of law that has been brought to the attention of the attorney-general!"

DID THE TITANIC SAIL IN UNFINISHED STATE?

Charge Made That Liner's Watertight Compartment Doors Had Never Been Tested.

New York, May 6.—The White Star line, in haste to put the Titanic in service so as to sail on the day advertised by her owners, illegally defied the warning of the big liner's builders, and sent the ship on its fatal trip in an unfinished condition, according to startling information made public to-day. The builders, Harland and Wolff, it is stated, remonstrated with the White Star officials against turning over the Titanic for duty in an unfinished state, but in face of the company's insistence they yielded.

The Titanic's watertight compartment doors had never been tested when she left the Bellast shipyards, it is charged. These doors were not working when the liner sailed from Southampton, no attempt was made to test them during the maiden trip, in the fear they would stick, and they were, therefore, open when the Titanic hit the iceberg.

It is stated that practically the same conditions prevailed on the maiden voyages of the Adriatic, Oceanic and Olympic.

Just what small chance for their lives the Titanic passengers had is shown by the statement that during her run from Belfast to Southampton no attempt was made to test the ship's safety devices, her speed or her seaworthiness. Nor was there any lifeboat drill or practice with the passengers davits to see if they were working properly, and if the Titanic's crew understood their proper manipulation.

AMENDMENT OF ROOT THE DEATH WARRANT

Of Many Russian Political Refugees In United States, Says Socialist Representative.

Washington, May 6.—Inveigling against the adoption of the Root amendment to the immigration law, Representative Berger, the Wisconsin socialist, on Saturday, told the house committee on immigration that it "breathed the spirit of plutocracy."

The amendment provides for deportation of any alien who conspires for the violent overthrow of a foreign government.

Berger declared it would place death warrants of many hundreds of political refugees in the hands of the Czar of Russia if enacted.

"New York and Chicago are full of Russian spies," Berger declared. "Russia is continually watching political refugees. It is revengeful and wants to get them back for persecution. To my mind the Root amendment practically abolishes the right of asylum for political refugees in the United States. This would be an entirely new policy for the United States—a policy just opposite to what has been practiced since this country was formed."

FOUND BODY UNDER BOATHOUSE.

Prescott, May 6.—The body of Willard Hodges, stage driver on the Cardinal to Prescott route, who disappeared last Monday, was found, lying face downward, under a boathouse, on the bank of the old canal at Cardinal. An empty bottle, which had contained carbolic acid, was found beside the remains.

CAPT. ROSTON, OF THE CARPATHIA.

Capt. Roston, of the Carpathia, stoutly defends the conduct of J. Bruce Ismay.

ARRESTED IN OTTAWA

Charged With Swindling Number of Ontario People.

Ottawa, May 6.—Inspector Foster, of the criminal identification bureau, has effected the arrest in Ottawa of a strange character, with a strangely dramatic career, in the person of Dr. Douglas, alias Dr. Douglas Matheson, alleged swindler of rural dwellers in divers parts of Ontario. Douglas, who has made his headquarters at Quyon, Que., for many years past, according to records held by the provincial police, has swindled numerous people in Ontario, representing himself at different times as a graduated physician, a member of the Scotland Yard detective force, a surveyor working for the imperial government for the erection of military lookout towers, and in other roles no less attractive.

On Friday morning he was taken to Cobourg by Provincial Inspector Boyd and there he will be arraigned on one of a number of counts against him, that of Walter Cruse, a farmer, of that vicinity, whom he is said to have swindled out of \$60 for applying a mustard plaster to his wife's back. He also told Cruse he could get him a fortune in Australia, where it was seeking him. The accused is also wanted at Hazard's Corners, Hastings county.

SCORCHES ROOSEVELT FOR HIS TRUST RECORD

"I Prosecuted Steel and Harvest Trusts, and He Did Not," Says Taft

Elkton, Md., May 6.—A scorching attack on Col. Roosevelt's trust record was the feature of President Taft's address here this afternoon. "On the trust question," Taft said, "the only difference between Mr. Roosevelt and myself is that I prosecuted the steel and harvester trusts and he did not. Suppose I had failed to prosecute the steel trust and the harvester trust, and later it was found that Mr. Perkins was contributing to my campaign, would Mr. Roosevelt have looked with charity on my course? No, he would have come down on me like a thousand bricks and would have said, 'Now you see he is controlled by the interests.'

"And yet Mr. Roosevelt has the courage (I shall not call it anything else) to challenge me with being under control of the interests. Why, my administration has prosecuted every violation of law that has been brought to the attention of the attorney-general!"

POSSIBLE TO LENGTHEN SEASON OF NAVIGATION

Hon. Robert Rogers Would Keep Thunder Bay Open by Ice Breakers.

Ottawa, May 6.—Kingston will be directly concerned in a proposal to lengthen the navigation season of the Great Lakes, if it is lengthened there it will mean more business for the limestone city.

Hon. Robert Rogers, minister of the interior, believes that it is possible to lengthen the period of navigation on the Great Lakes by one month.

He has looked into the matter carefully, and will have plans worked out for the realization of the scheme which contemplates the keeping open of Thunder Bay during the entire month of December by means of powerful ice-breaking tugs such as are used in many parts of northern Europe for a similar purpose.

With the harbors of Fort William and Port Arthur open to navigation for the additional period of four weeks it is calculated that between twenty and twenty-five million bushels of grain could be carried to Georgian Bay ports until the opening of navigation the following spring.

FOR BENEFIT OF LADIES.

Would Tag the Men Who Are Not Married.

Cambridge, Mass., May 6.—The old question, "I wonder if he's married?" which so many maidens ask themselves when they meet a handsome stranger, need no longer remain unanswered, if the plan advocated by Mrs. Frank Page, a prominent society woman of this city, is adopted.

"Bachelors, divorced men and widowers should be tagged by means of artistic buttons worn in their coat lapels, so that their eligibility could not be left in doubt," said Mrs. Page. "By making out these buttons in serial numbers it would be impossible for unscrupulous married men to borrow buttons and use them successfully. Receipts of button numbers could be kept on file at the state house."

DIED IN TORONTO.

He Passed Away This Afternoon 3.15.

INSECTS CARRY DEATH.

Nelson, B.C., May 6.—Considerable alarm has followed a statement by William Cockley, of the Kootenay, an entomologist that wood-ticks which abound in British Columbia, carry germs which caused spinal meningitis and beri-beri, and that the bite of the insects is frequently fatal.

MEXICAN ARMY DEFEATED.

Washington, May 6.—The Mexican federal army has been defeated by the rebel forces of Gen. Orozco in the big battle at Torreon, according to reports received by the treasury department from the southern border.

No details were given.

CATARAQUI BRIDGE, NOW OWNED BY CITY.

To-day, City Engineer McClelland made an examination of Cataraqui bridge, which passed into the hands of the city on Saturday. It is necessary to see that the bridge is in safe condition, so that the city will not be liable for damages should accidents occur.

On Saturday afternoon, Mayor Hoag

received word from W. F. Nickley M.P., who stated that the Minister of public works would meet the deputation from the city council and the board of trade with reference to the harbor im-

The SS. Olympic seamen were found guilty of mutiny, but were freed on promising to rejoin the ship.

The Retail Merchants' Association, Toronto, propose an investigation of the post office department.

Adele Marin, a French girl, was sentenced to two hours' imprisonment at Montreal for contempt of court.

WOMAN USED AS SHIELD.

Prisoner, in Cell, Tries to End Own Life.

New Berlin, N.Y., May 6.—After engaging in a thrilling duel with revolutionaries, in which both men were wounded, Constable Charles Holdridge, noted hereabouts for his daring, captured Arthur Carpenter, aged thirty-five, of Columbus, Chenango county, for whom he had a warrant charging him with threatening to commit a homicide.

Early in the fight, which followed a hair-raising fourteen-mile pursuit, Carpenter held before him as a shield Mrs. George Spurz, wife of the man who swore out the warrant for his arrest and upon whose farm the shooting occurred.

The prisoner, when placed in custody, attempted to commit suicide by hanging. He was cut down just in time and will recover.

ARE VERY HOPEFUL NOW.

Toronto, May 6.—There was a message of strong hope from St. Michael's hospital, this morning, regarding Chairman Maher's condition.

The bulletin said that the operation

had resulted in the relief of the paralysis of the bowel and, although the patient was critically ill, the surgeon now feels hopeful of recovery.

The prisoner, when placed in custody, attempted to commit suicide by hanging. He was cut down just in time and will recover.

POSSIBLE TO LENGTHEN SEASON OF NAVIGATION

Hon. Robert Rogers Would Keep Thunder Bay Open by Ice Breakers.

Ottawa, May 6.—Kingston will be directly concerned in a proposal to lengthen the navigation season of the Great Lakes, if it is lengthened there it will mean more business for the limestone city.

Hon. Robert Rogers, minister of the interior, believes that it is possible to lengthen the period of navigation on the Great Lakes by one month.

He has looked into the matter carefully, and will have plans worked out for the realization of the scheme which contemplates the keeping open of Thunder Bay during the entire month of December by means of powerful ice-breaking tugs such as are used in many parts of northern Europe for a similar purpose.

With the harbors of Fort William and Port Arthur open to navigation for the additional period of four weeks it is calculated that between twenty and twenty-five million bushels of grain could be carried to Georgian Bay ports until the opening of navigation the following spring.

ALBERTA'S NEW CABINET.

Premier Sifton Has Announced the Reorganization.

Edmonton, May 6.—The change in the provincial government was officially made on Saturday night. At eight o'clock Lieutenant-Governor Bulwer swore in the following as members of the cabinet and minister of railroads and telephones; C. W. Cross, attorney-general; Charles J. McLean, provincial secretary; Malcolm Mackenzie, provincial treasurer; Charles R. Boyle, minister of public works; Duncan Marshall, minister of agriculture; Charles Stewart, minister of municipalities.

After almost two years as private member, Mr. Cross resumes his old position as attorney-general. Messrs. J. R. Boyle, Malcolm Mackenzie and Charles Stewart are the other additions.

Premier Sifton will retain the offices of president of the executive council and the portfolio of railways and telephones. He, however, relinquishes the office of provincial treasurer and minister of public works.

DEATH OF J. P. THOMAS.

Belleville's Oldest Lawyer, Aged Seventy-Nine.

Belleville, May 6.—J. P. Thomas, K. C., aged seventy-nine years, died here last night after being ill for some time. Deceased was the oldest practising lawyer in this city. Mr. Thomas was prominent in Masonic circles, the L.O.F. society. He was honorary president of the Hastings law society, secretary-treasurer of the Belleville cemetery company, and for years was secretary of the Belleville board of trade. A widow and one daughter, Mrs. (Dr.) McColl, of this city, survive.
