WHAT WHIG CORRESPONDENTS TELL US.

The Tidings From Various Points in Eastern Ontario — What People Are Doing and What They Are Saying.

Sangster Reports. Sangster, May 10.—Farmers are engaged with their spring work. J. O'Riley and George Harrick have gone to work on the railroad at Parham. Visitors: P. J. O'Connor and Miss Anna, in Kingston; James Barrett, in Westport; Miss N. Barrett, at T. Colter's; Mrs. P. Corcoran and grandson, Gordon Corcoran, Glendower, and Miss G. Wilson, Westport; Miss Katie Daley, Cole Lake; Miss E. McAllister, at T. Younger's, T. Shaepe, at J. O'Riley's; Daniel Mulville, W. J. Corcoran, J. Murphy, at T. Barrett's; Mr. and Mrs. T. Younger, Mrs. T. Brynes, at Mrs. J. O'Connor's. Born, to Mr. and Mrs. J. Sheehan, a daughter, on May 5th.

Reports From Cloyne. Cloyne, May 11.—The Shandler and Jones Lumber company's drive is at Snyder Depot. On the 4th inst., the contract for rebuilding the bridge at this point was sold to the lowest tender, John Gray, of Harlowe, who is going to push the construction forward as soon as possible. Mr. Denison, manager of Bon Echo inn, is here getting ready for his guests. It has been so cold and backward the farmers have done very little seeding. Mr. Thompson, superintendent of the Lost and Found Mining company, who is operating at the Star of East, was here one day last week. The bridge and dam being swept away has interfered with his present plans. Mr. and Mrs. Hugh Bishop are moving to Snyder Depot for the summer and will fill the position as fire ranger.

Harlowe Happenings. Harlowe, May 10.—Most farmers have their seeding done. Mrs. Hillier, Sr., spent a few days of last week at C. Thompson's, Northbrooks. A little girl (Madeline) arrived at W. Black's, April 10th. Mr. and Mrs. T. Whiteman, Sr., spent Sunday last at T. M. Thompson's. Mrs. White and daughter, Anna, are at her brother's, Mr. G. Cadman's, Belleville. Mr. Cadman is seriously ill. Mr. and Mrs. C. Thompson, Northbrooks, spent Sunday last at his father's, W. Thompson's. N. Mills made a business trip to Arden today. Factory is receiving a good supply of milk. Mr. and Mrs. S. Wheeler and children, Northbrooks, spent a few days at his sister's, Mrs. G. Bradshaw, before leaving for Falton, N.Y., where they will reside.

Budget From Bethel. Bethel, May 13.—The farmers are getting along pretty well with their seeding. School is closed owing to the illness of the teacher, Miss Maude Salsbury. There seem to be lots of early potatoes planted this year. Mrs. John Curl, Sr., visited her sister, Mrs. J. Kelly, for a few days last week in Camden East. Miss Lena Robinson, one of Belleville's popular young ladies, was united in marriage on the 24th April to Edward Hamilton, of Bicknell's Corners. Miss May Hamilton, who has been ill of scarlet fever, is not improving as rapidly as could be wished for. Wesley Curl attended on Sunday last the funeral of the late

Portland Township Council. Harrowamith, May 6.—Portland township council met in Harrowamith to-day, and confirmed minutes of last meeting. Accounts passed: \$5.95, John Timmons, opening winter roads; \$5.55, John W. Redmond, opening winter roads. Loughborough boundary; \$14.65, William H. Kerr, opening winter roads, Camden opening winter roads; \$25.65, John Henderson, opening winter roads; \$18.00, John Laveque, opening winter roads; \$19.75, Thomas Perreault, opening winter roads; \$9.45, Robert Babcock, opening winter roads; \$2. A. Smith, repairing culvert, Long Swamps; \$50, Fred Babcock, sec. treas. U.S.S. No. 9, for teacher's salary; \$2.25, J. E. Sigsworth, repairing culverts. Geo. Harstowe paid \$100 for repairing culvert on Sydenham road. On motion Watson—Asseltine, James Deyo appointed sub-commissioner for Div. No. 1 for repairing and building of culverts, wages, \$2.00 per day. On motion Watson—Walker, By-Law No. 529, designating certain highways to be repaired at an estimated cost of \$1,000, which was read first and second time, Oct. 2nd, 1911, and has since been approved of by the Minister of Public Works, for one-half estimated ex-

penditure, was read third time. Council adjourned to meet as Court of Revision, Monday, May 27th, at 10 a.m. in Town Hall.

Scotland's Loss, Canada's Gain. London, May 14.—During the past week over 6,000 artisans and agriculturists from Scotland have embarked for Canada. They are the pick of their classes, and their departure has renewed the criticism that the land and labor policy of the government is driving the best men from the country. All of the immigration agents of the various colonial dominions are reporting an extraordinary demand for passage from prospective immigrants, and it is said that the present steamship lines will not be able to handle much more than half of the traffic during the coming season.

Posing by the Yard. Paris, May 14.—A lawsuit during last week brought out the fact that notable actors have been receiving payment at so much per yard for posing for moving pictures. The leader, Coquelain, got five cents a yard, Bernhardt only a cent a yard, while a latter star like Eva Levalliere got two figures for ten yards.

War Play Dangerous. St. Petersburg, May 14.—A remarkable order of the day has been issued by the minister of war, announcing that forty-two infantrymen were wounded by shell fire in the recent maneuvers. The minister adds the curious statement: "These men were in advance of the guns."

W. G. Ragsdale had been appointed salesman of Rideau Valley cheese factory vice M. K. Everetts, deceased.

French Capital Sweeter Under Scorching Sun. Paris, May 14.—The year 1912, already remarkable as opening with the driest spring Paris has experienced for two and a half centuries, adds another record to its credit, last week being the hottest ever recorded in May. The thermometer wavered between eighty-six and ninety degrees in the shade. The meteorological bureau declares that such readings have never been made before the middle of June at the earliest.

Parisians are suffering greatly from the unexpected heat and the penetrating dust, practically no rain having fallen in the last eight weeks, and fears are expressed of a repetition of last year's disastrous drought. The experts are holding out no hope for any immediate change.

Montreal, May 13.—A violent attack on Godfrey Langlois, liberal candidate in St. Louis division, was made by Cure Belanger in the Church of St. Louis de France, yesterday. Godfrey Langlois is opposed by Charles Bruchesi, brother of Archbishop Bruchesi. Cure Belanger first read the famous "mandamus" issued some twenty-five years ago by Mgr. Bourget, which was a declaration against the French Free Masons. "I appeal to you Catholics to vote for a Catholic, and those who will not vote for a Catholic, I leave them to the mercy of God."

Future of Prince Rupert. Hamilton Times. J. G. Nethaway, in an interview on the subject of Prince Rupert, says: Prince Rupert will be, in all probability, the greatest seaport on the Pacific. It has undoubtedly a great harbor. I believe it is the finest on the Pacific coast. I can also say that I believe Prince Rupert will control the largest Oriental trade on this continent, because it is a great many miles nearer Asia, and also because of its excellent harbor and railway facilities and, still further, I would say that this city will become the principal centre of the trade to the northern country. Prince Rupert will control the trade to the north, and become enriched thereby to an even greater extent, probably, than have Seattle or Vancouver. Another supreme factor in the up-building of Prince Rupert is the Peace river country. Wheat from the Peace river will be transported to Prince Rupert and shipped to Liverpool by the Panama canal. It is the shortest route.

Toronto Street Market. Toronto, May 13.—Dressed hogs are firm at \$11.75 to \$12; wheat, bush, \$1.04 to \$1.05; wheat, goose, bush, 95c. to 97c.; oats, bush, 52c. to 53c.; rye, bush, 85c. to 90c.; barley, bush, 80c. to 85c.; hay, timothy, ton, \$26 to \$28; hay, mixed, ton, \$17 to \$17.50; straw, per ton, \$16 to \$17; dressed hogs, \$11.75 to \$12; butter, dairy, 25c. to 32c.; eggs, dozen, 25c. to 26c.; chickens, lb., 20c. to 25c.; chickens, spring, 40c. to 45c.; turkeys, lb., 20c. to 23c.; apples, bbl., \$3 to \$4.50; potatoes, bag, \$1.35 to \$2; cabbage, dozen, 50c. to 60c.; beef, hindquarters, \$12.50 to \$13.50; beef, forequarters, \$8.50 to \$9.50; beef, choice, cwt., \$11 to \$11.50; beef, medium, carcass, \$4 to \$10; veal, prime, \$11 to \$13; mutton, prime, \$8 to \$10; lamb, \$10 to \$11; spring lambs, \$7 to \$11.

Losses Scholarly Professor. Montreal, May 14.—The Presbyterian College of this city will lose the services of Rev. Prof. G. A. Johnston Ross as a member of the staff at the end of this term. His resignation has been handed in, although his appointment to the head of the homiletic department of Union Seminary, New York, has not yet been officially announced.

A PULPWOOD APPEAL

On the Ground That Canada is Not a Nation. Washington, May 14.—The international commercial question, involving the right of entry of wood pulp into the United States from all countries with which America is connected by treaties of commerce, was appealed to the United States court of customs appeals.

The privilege is claimed under the "favored nation" clause of the convention because free wood pulp and paper is granted to Canada by the only operative section of the Canadian tariff act.

The appeal was from a decision by the board of general appraisers at New York, which held that the "favored nation" clause could not be invoked as Canada was a colony and not a "nation, state or country" within the meaning of the treaties.

PUTS OXEN IN TROUSERS

To Save Them From the African Insects. Cape Town, May 13.—Pest-fighting in the African back blocks forms the toughest problem the settlers have to face. Some ingenious agricultural contrivances have lately been made public—including one for putting a bullock in trousers.

The deadly tsetse fly, Africa's most vicious form of mosquito, is the plague of all life, biped and quadruped. Some years it poisons whole herds of cattle and spreads ruin over every farm in wide regions. Many a man has gone back to the ports—ousted by the tsetse fly, with all his money lost.

One man has come through successfully. Immediately he obtains fresh bullocks, he runs them through a dipping tank, to kill all the ticks and skin parasites. After that he has a Homeric struggle before he can array his oxen in trousers heavily saturated in resin and oil. When the tsetse flies come along, low down, after sunset, they die in thousands on those resin-impregnated trousers.

GREAT HEAT IN PARIS.

Paris, May 14.—The year 1912, already remarkable as opening with the driest spring Paris has experienced for two and a half centuries, adds another record to its credit, last week being the hottest ever recorded in May. The thermometer wavered between eighty-six and ninety degrees in the shade. The meteorological bureau declares that such readings have never been made before the middle of June at the earliest.

PRIEST'S RELIGIOUS APPEAL

To His Flock to Vote for Roman Catholics. Montreal, May 13.—A violent attack on Godfrey Langlois, liberal candidate in St. Louis division, was made by Cure Belanger in the Church of St. Louis de France, yesterday. Godfrey Langlois is opposed by Charles Bruchesi, brother of Archbishop Bruchesi. Cure Belanger first read the famous "mandamus" issued some twenty-five years ago by Mgr. Bourget, which was a declaration against the French Free Masons. "I appeal to you Catholics to vote for a Catholic, and those who will not vote for a Catholic, I leave them to the mercy of God."

Future of Prince Rupert.

Hamilton Times. J. G. Nethaway, in an interview on the subject of Prince Rupert, says: Prince Rupert will be, in all probability, the greatest seaport on the Pacific. It has undoubtedly a great harbor. I believe it is the finest on the Pacific coast. I can also say that I believe Prince Rupert will control the largest Oriental trade on this continent, because it is a great many miles nearer Asia, and also because of its excellent harbor and railway facilities and, still further, I would say that this city will become the principal centre of the trade to the northern country. Prince Rupert will control the trade to the north, and become enriched thereby to an even greater extent, probably, than have Seattle or Vancouver. Another supreme factor in the up-building of Prince Rupert is the Peace river country. Wheat from the Peace river will be transported to Prince Rupert and shipped to Liverpool by the Panama canal. It is the shortest route.

Toronto Street Market.

Toronto, May 13.—Dressed hogs are firm at \$11.75 to \$12; wheat, bush, \$1.04 to \$1.05; wheat, goose, bush, 95c. to 97c.; oats, bush, 52c. to 53c.; rye, bush, 85c. to 90c.; barley, bush, 80c. to 85c.; hay, timothy, ton, \$26 to \$28; hay, mixed, ton, \$17 to \$17.50; straw, per ton, \$16 to \$17; dressed hogs, \$11.75 to \$12; butter, dairy, 25c. to 32c.; eggs, dozen, 25c. to 26c.; chickens, lb., 20c. to 25c.; chickens, spring, 40c. to 45c.; turkeys, lb., 20c. to 23c.; apples, bbl., \$3 to \$4.50; potatoes, bag, \$1.35 to \$2; cabbage, dozen, 50c. to 60c.; beef, hindquarters, \$12.50 to \$13.50; beef, forequarters, \$8.50 to \$9.50; beef, choice, cwt., \$11 to \$11.50; beef, medium, carcass, \$4 to \$10; veal, prime, \$11 to \$13; mutton, prime, \$8 to \$10; lamb, \$10 to \$11; spring lambs, \$7 to \$11.

Health and Beauty Advice

BY MRS. MAE MARTYN. Mays: To keep your complexion smooth, fresh looking and free from chaps in all kinds of weather, you will find nothing better than a splendid 2 teaspoonful glycerine and one ounce of almond oil in 1-2 pint cold water. Stir and give excellent results in removing blackheads and making your skin soft and smooth and it is very cleansing and healing. It will not grow hair and gives excellent results in removing blackheads and reducing enlarged pores. This cream affords the very best protection to the complexion all seasons of the year. N. C.: Do not have any fear about taking parasitic to reduce your weight. In 1-2 pints hot water of parsley, a tablespoonful before meals, you will lose your excess fat quickly without any injury to your health. This remedy is absolutely harmless, very effective and does not cause a flabby, wrinkled skin. You need not diet or exercise violently to get proper results from this simple remedy. Clara T.: Yes a genuine hair-grower has been found at last. Keep the scalp clean by frequently shampooing with an excellent beautifier and whitener. A week a tonic made by dissolving an ounce of quinine in 1-2 pint alcohol, then adding 2-3 pint cold water. This excellent remedy refreshes the scalp and makes the hair bright and glossy. It stimulates the hair roots and causes the hair to be healthy, growing and falling out. It is a sure remedy for falling hair. You will find this remedy unequalled. May: Pulling the hairs out by the roots is both painful and dangerous. Try this simple method and you will be delighted with the result. Make a paste with a little powdered delatone and water, spread thickly on hairy surface and after two or three minutes remove and wash the skin. Mrs. H. T.: If you want a first-class tonic for family use to purify the blood and remove the accumulated poisons of winter from the system, you can get nothing better than an old-fashioned tonic made by dissolving 1-2 cupful sugar and 1 ounce karden

THE ATTENTION OF FARMERS, AND RESIDENTS OF THE COUNTRY is drawn to the Security these Safety Deposit Boxes afford against LOSS OF VALUABLE DOCUMENTS, ETC., BY FIRE OR THEFT. For further particulars and information, Apply to P. C. STEVENSON, Manager, Kingston, Ont.

If You Like a Little Quiet Fun

Ask some pompous person if Grape-Nuts Food helps build the brain

Chances are you get a withering sneer and a hiss of denunciation.

Then sweetly play with the learned toad.

Ask him to tell you the analysis of brain material and the opinions of Grape Nuts.

Don't know? Why, I suppose you based your analysis on exact knowledge instead of pushing out a conclusion like you would a sneeze.

Well, now your tire is punctured, let's sit down like good friends and repair it.

The bulky materials of brain are water and albumin, but these things cannot blend without a little worker known as Phosphate of Potash, defined as a "mineral salt."

One authority, Geohegan, shows in his analysis of brain, 5.33 per cent total of mineral salts, over one-half being Phosphoric Acid and Potash combined, (Phosphate of Potash) 2.91 per cent.

Beaunis, another authority, shows Phosphoric Acid and Potash (Phosphate of Potash more than one-half the total mineral salts, being 73.44 per cent in a total of 101.07.

Analysis of Grape-Nuts shows Potassium and Phosphorus (which join and make Phosphate of Potash) is considerable more than one-half of all the mineral salts in the food.

Dr. Geo. W. Carey, an authority on the constituent elements of the body says: "The gray matter of the brain is controlled entirely by the inorganic cell-salt, Potassium Phosphate (Phosphate of Potash). This salt unites with albumin and by the addition of oxygen creates nerve fluid or the gray matter of the brain. Of course there is a trace of other salts and other organic matter in nerve fluid, but Potassium Phosphate is the chief factor, and has the power within itself to attract, by its own laws of affinity, all things needed to manufacture the elixir of life."

Further on he says: "The beginning and end of the matter is to supply the lacking principle, and in molecular form exactly as nature furnishes it in vegetables, fruits and grain. To supply deficiencies—this is the only law of cure."

Brain is made of Phosphate of Potash as the principal Mineral Salt added to albumin and water.

Grape-Nuts contains that element as more than one-half of all its mineral salts.

Every day's use of brain wears away a little.

Suppose your kind of food does not contain Phosphate of Potash.

How are you going to rebuild to-day the worn out portions of yesterday?

And if you don't, why shouldn't nervous prostration and brain-fag result.

Remember, Mind does not work well on a brain that is even partly broken down from lack of nourishment.

It is true that other foods beside Grape-Nuts contains varying quantities of Brain food.

Plain wheat and barley do. But in Grape-Nut there is a certainty.

And if the elements demanded by Nature, are eaten, the life forces have the needed material to build from.

A healthy brain is important if one would "do things" in this world.

A man who sneers at "Mind" sneers at the best and least understood part of himself. The part which some folks believe links us to the Infinite.

Mind asks for a healthy brain on which to act, and Nature has defined a way to make a healthy brain and renew it day by day as it is used up from work of the previous day.

Nature's way to rebuild is by the use of food which supplies the things required.

"There's a Reason" for Grape-Nuts

Made by Canadian Postum Cereal Co., Limited, Pure Food Factories, Windsor, Ontario, Canada.
