LAST EDITION

UNITED STATES SHIPPERS ROB CANADIAN CUSTOMS

Issue False Invoices of Fruit Shipments.

AN EXPOSURE IN WEST

STARTS A GOVERNMENT PROBE INTO MATTER.

The Enquiry May Cover the Whole of the Dominion—One Calgary Importer so Honest That He Gave the Game Away.

Ottawa, May 23.—A very serious charge of the use of false invoices by American shippers of fruit to Canada is now being investigated by the customs department, and while the scene of action of investigation is at present confined to Western Canada, there is a probability that before the enquiry is completed it may cover the whole Dominion.

The exposure came through the complaint of British Columbia fruit men, who wondered why they were not getting their right proportion of the market in Alberta and Saskatchewan.

A few weeks ago a fruit commissioner house in Calgary, which is in sympathy with the "keep-the-trade-in-Canada-as-much-as-possible" movement, received notification that a carload of fruit from the south had arrived to its order. In order to secure entry to the car it was necessary to pay over to the local bank the amount of the value of the shipment. The bill of lading called for the payment of \$503.48. This sum was paid and the importer proceeded to clear his car at the customs. But when he came to do so he found that the duplicate invoice supplied to the customs was only for \$340. This meant that the importer would save \$163 in duties by the use of the false invoice.

This particular importer happened to be an honest man and he called the attention of the collector of customs at Calgary to the discrepancy and at the same time asking for the investigation.

The matter was reported to the customs department here, and as a result an investigation is being held not only into this particular case, but into many others of the same sort in the west.

It is claimed that the government has been defrauded of thousands of dollars in the west alone by this manipulation of false invoices, and it is contended that the practice is not confined to the west, but is general throughout Canada.

The result is that the department has ordered a thorough investigation by its office in each province and in the American fruit shippers. Hundreds of thousands of cars of fruit and vegetables which are dutiable are brought into Canada each season, from the United States, and if there can be a loss to the revenue of \$49 on one car alone it is easy to see what a large sum each manipulation would amount to in the course of a year the whole country over.

SCOTLAND IS UNEASY REGARDING EMIGRATION

Thousands of Best Type of Agriculturalists Preparing to Leave for Canada.

London, May 23.—Some uneasiness is being caused in government and other circles by the dimensions which the flight of Canadian agriculturalists from rural Scotland this spring 4,367 of Scotland's best type of agricultural workers sailed for Canada during March.

Thousands more are preparing to go under the persuasive eloquence of Hugh Mackenzie and the Canadian government agents now touring the Lowlands and Highlands with a smart, double-horsed Canadian farm wagon, laden with Canadian farm supplies and alluring literature.

MacKinnon Wood, secretary for Scotland, is being pressed to do something to check this diversion of Scotland's finest human material by the creation of small holdings on state credit, as in Ireland and other progressive land legislation.

Waited Years for Trial. Quebec, May 23.—Having waited four years for his trial, Edmond Rousseau, accused of attempting to murder his wife in 1908, was formally charged on Wednesday before Justice Langlois.

Men's Fine Straw Hats. From 50c. up at Campbell Bros.

MUSIC. 10c copy by best masters. Dutton's.

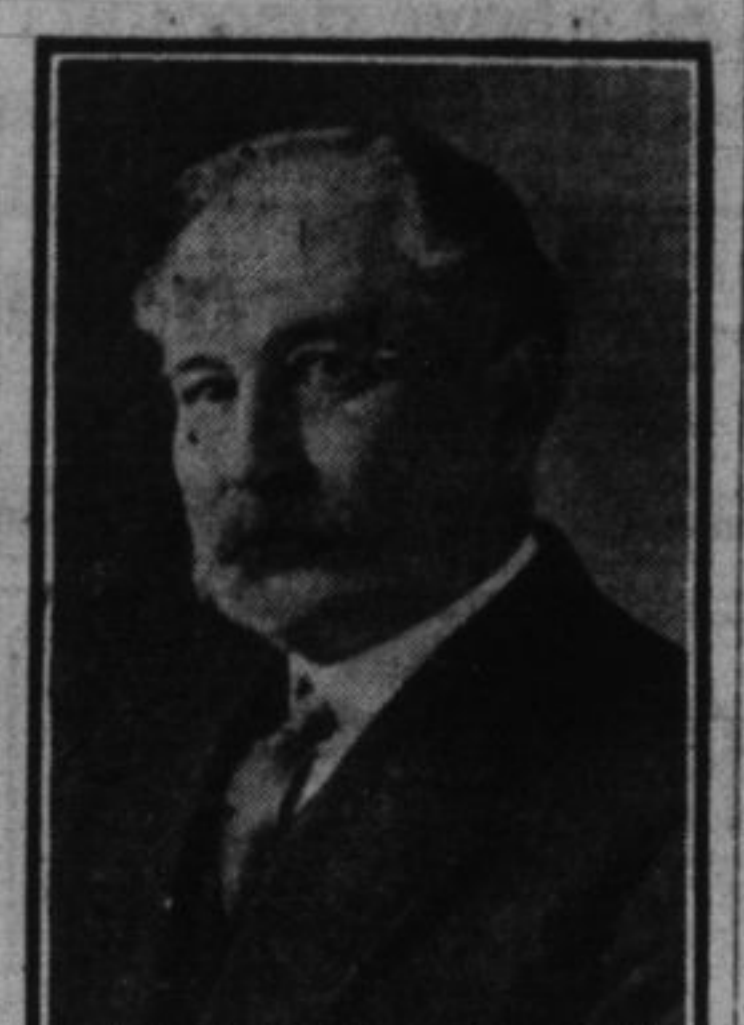

Mrs. George Rutherford, of Vermilion, Alberta, was burned to death on Tuesday. She was burning some chips, when she drew a lighted pipe. Corsets to suit all figures, from 50c. Dutton's.

DAILY MEMORANDA.

For Hats that made. His head felt glad. Campbell's the best he ever had. Limestone Lodge No. 91. A.O.U.W. meets to-night, 8 o'clock. The Whig will not be issued tomorrow. Victoria Day. Read Waldron's advert. Big sale. 98c. Saturday. "The White Sister." Grand Opera House, 2:30 and 5:15 p.m., Friday.

STONE RE-ELECTED

As Head of the Brotherhood of Engineers.

WARREN S. STONE.

Harrisburg, Pa., May 23.—Warren S. Stone, of Cleveland, Ohio, grand chief of the Brotherhood of Locomotive Engineers since 1903, has been elected for a term of six years. But one ballot was taken and Stone had so many of the 791 votes cast that the election was made unanimous. Mr. Stone was first elected in 1903 to fill the unexpired term of P. M. Arthur.

WILL CHURCHILL RETURN TO UNIONIST FOLD?

London Liberal Organ Puts Forward an Interesting Rumor Concerning Winston.

London, May 23.—A sketch of the Rt. Hon. Winston Churchill's career published in the Unionist Pall Mall Gazette leads the liberal organ, the Chronicle, to assume that the unionists are hoping that Mr. Churchill will see again step across the floor. "The wish is the father of the thought," declares the Chronicle. "When the unionist party abjures protection and accepts the principle of governing Ireland according to Irish ideas, it may hope for the return of one of the most daring, fertile, and brilliant minds in present-day politics. He is undoubtedly the right man at the admiralty at a conjuncture like the present, though it must be added that to those radicals who are devoted heart and soul to the old watch words, 'peace, retrenchment and reform,' his acts and speeches cause sad perturbation."

MILITARY ZONE FOR CANAL

Cannon Declares Big Ditch Should be Under Military Law.

Washington, May 23.—Denouncing as wrong the entire government scheme for the Panama canal zone, as proposed in the Adams bill, ex-speaker Joseph Cannon, yesterday commended to the house the establishment of a military government there. "The canal zone should be exactly like an army post," said Mr. Cannon. "It should be under military supervision, both for the preservation and for the proper operation of the canal."

BALKAN SITUATION DARK

Annual Spring Eruption Makes Its Appearance. Berlin, May 23.—Germany is becoming concerned over the increasing seriousness of the situation in the Balkans. It is stated semi-officially that while the government is hopeful that the powers may not be drawn into a snarl, it recognizes the fact that there are dangerous possibilities that might make the situation critical within twenty-four hours. It is hoped, however, that this is only the usual spring eruption.

MINERS ARE DESPERATE OVER TIMBER FIRES

And Threaten to Hang Any One Lighting a Fire in Timber.

Tacoma, Wash., May 23.—Fairbanks miners who have suffered heavy losses from timber fires in Alaska in the past two weeks, and others whose properties have been threatened, have formed a vigilance committee and promulgated an ultimatum that any one caught lighting a fire in timber will be hanged.

A big figure supposed to represent persons whose carelessness has brought about destructive fires was hanged in effigy by the committee as an effective warning.

The woodcutters so far have been the heaviest losers.

King Alfonso Decorates Marconi. Madrid, May 23.—King Alfonso gave an audience to Marconi, the wireless inventor, and conferred on him the Grand Cross of the Order of Alfonso XII.

A Big Showing. Of new straw hats, new soft hats, new derbies, at Campbell Bros., Kingston's style centre for men's hats.

BARON ASKS FOR DEATH

Coward Who Slew Countess Trignone Breaks Down.

Rome, May 23.—Baron Paterno, who is being tried for the murder of the Countess Trignone, is anxious to be sentenced so that the terrible ordeal in the iron cage will be ended. His lawyers repeatedly protested against his cross-examination, and insisted on the Duke O'Aosta and other well-known people being called on Paterno's behalf. The president of the court showed Paterno a dagger, saying, "Is this the knife you used?" Paterno seemed to suffocate, and put both hands to his throat, saying: "I wish to die. I wish to die. Sentence me now. I can answer no more questions."

BY CABINET MINISTERS TO TALK IT OVER.

Failure of Federal Conservatives. From That Province to Carry Out Their Pledges—Stronger Opposition to the Naval Policy is Likely.

Ottawa, May 23.—There has been considerable perturbation among the Quebec federal ministers and ministerial supporters since the crushing defeat of the hattered conservative and nationalist forces by the liberals of Quebec a fortnight ago. They have read the handwriting on the wall, and are now wondering what can be done to rehabilitate themselves and give the party some ground for hope, so far as Quebec is concerned, in the next federal elections. Yesterday there was a small caucus of the Quebec ministers and their supporters to talk over the situation. Armand Lavergne, the titular leader of the hattered nationalist forces in the absence of Mr. Bourassa, is outspoken in placing the blame for the defeat at the doors of the federal ministers. He said that Quebec was lost largely because of the failure of the government members from that province to fulfill their pledges to secure the repeal of the naval act and protect the interests of the Catholic minority in the Manitoba boundary extension bill. Plans reorganization and strengthening the conservative forces in Quebec were talked over to-day, but it is understood that the caucus broke up in no very sanguine mood.

BISLEY DIFFICULTY

Permanently Settled—Col. Burdick's Gift—New Regulation.

London, May 23.—At a National Rifle Association meeting Lord Chesham said the results of the visit of Colonel Barlow and Crofts to Canada as emissaries of peace had been most successful. He believed that the dispute was permanently settled. Col. Burdick had sent a fifty pound donation to celebrate the happy issue. An additional regulation, unless passed by a special condition of the competition, is that no part of the wrist or hand may touch the ground.

SUBSIDY RENEWED

Manchester Steamship Line Continues to be Helped.

Ottawa, Ont., May 23.—The department of trade and commerce has renewed its subsidy contract with Messrs. Furness and Withy, Manchester, Eng., agents for the Manchester line on the Liverpool, St. John, N.B., and Halifax route. The contract is for four years. At the present time there are seventy steamship lines subsidized by the government.

Colonel Kills Pianist.

St. Petersburg, May 23.—Col. Lillie, an officer of the army, has been arrested and held at Kieff for killing a pianist. The colonel and his friends hired a room in a music hall for a private concert. After the party had become pretty merry, the colonel ordered the pianist to play a certain march. The player said he was sorry, but he did not have the score. Thereupon Col. Lillie drew his sword and thrust it through the pianist's neck, killing him instantly.

Plenty of Famine Relief.

New York, May 23.—The board of foreign missions of the Presbyterian church has received cable advices from Bishop Graves, chairman of the China famine relief committee at Shanghai, announcing that the relief work is practically completed. The text of the message was as follows: "Notify all parties concerned, including Goulay, Toronto, to stop sending funds for famine relief after the last week of May. Work will be finished about June 9th, or 10th."

New Methodist Bishops.

Minneapolis, Minn., May 23.—Dr. T. F. Henderson, Brooklyn, and W. O. Shepard, Chicago, are the new bishops of the Methodist Episcopal church, elected on the seventh ballot. Dr. Henderson received 562 and Dr. Shepard, 532. Necessary to elect 524.

It is stated positively in Montreal that President Hays's successor will be chosen from vice-presidents of the G.T.R.

Lord Curzon says that Amundsen should have announced his South Pole dash.

Four Cases of Beer Seized.

Brockville, May 23.—Four cases of beer shipped into Athens, a local option village, have been seized. Three were addressed to prominent men of the locality, who disclaim any knowledge of the shipment. The fourth was addressed to a fictitious name. An investigation is being held.

Girl Took Poison.

North Battleford, Sask., May 23.—Miss Sevin, North Battleford, daughter of one of the most prominent families in the northwest, committed suicide last night by taking poison. Her action was due to an engagement being broken off Sunday, with the man to whom she was to be married.

WORLD'S LARGEST SHIP LAUNCHED AT HAMBURG

The Emperor is Ten Feet Longer Than the Ill-Fated Titanic.

Hamburg, May 23.—The world's largest ship, the Hamburg-American liner Emperor, ten and one-half feet longer than the ill-fated Titanic, was launched here, to-day, by the presence of high officials of the German government and vast throngs. The recent loss of the White Star leviathan and 1,690 of her passengers, gave rather a sombre tone to to-day's ceremonies, but, nevertheless, there was a ringing chorus of cheers when the monster vessel slid into the water.

The Emperor is 893 feet long, 95 feet wide and 103 feet high. From the captain's bridge to the water line, the distance is eighty-one feet. The topmost of her eleven decks is as high as a five-story house. She will have a tonnage of 50,000, and accommodations for five thousand passengers. There will be lifeboats and life-saving apparatus for every person on board. The Emperor is under subsidy of the German navy and in time of war can be pressed into transport service.

"I WAS STANDING THERE SIL"

An incident at Lord Mersey's Titanic investigation in London. Quartermaster Robert Hitchens, who was at the wheel of the Titanic when the crash came, pointing out on the gigantic model of the Titanic where he was located when the accident happened. Hitchens' picture is of particular interest to Canadians, as he was the man whom Major Penchen, or Toronto, said was incapable of taking proper care of the lifeboat in which he was in charge, with Penchen and many ladies as passengers. Hitchens denied Penchen's statements. Giving evidence at the London inquiry he said he received the order "hard a starboard," and the vessel had swung about two points when she struck the iceberg.

QUEBEC'S BLOW

To the Borden Government Discussed.

A CAUCUS AT OTTAWA

BY CABINET MINISTERS TO TALK IT OVER.

Failure of Federal Conservatives. From That Province to Carry Out Their Pledges—Stronger Opposition to the Naval Policy is Likely.

Ottawa, May 23.—There has been considerable perturbation among the Quebec federal ministers and ministerial supporters since the crushing defeat of the hattered conservative and nationalist forces by the liberals of Quebec a fortnight ago. They have read the handwriting on the wall, and are now wondering what can be done to rehabilitate themselves and give the party some ground for hope, so far as Quebec is concerned, in the next federal elections. Yesterday there was a small caucus of the Quebec ministers and their supporters to talk over the situation. Armand Lavergne, the titular leader of the hattered nationalist forces in the absence of Mr. Bourassa, is outspoken in placing the blame for the defeat at the doors of the federal ministers. He said that Quebec was lost largely because of the failure of the government members from that province to fulfill their pledges to secure the repeal of the naval act and protect the interests of the Catholic minority in the Manitoba boundary extension bill. Plans reorganization and strengthening the conservative forces in Quebec were talked over to-day, but it is understood that the caucus broke up in no very sanguine mood.

It is certain that the Quebec ministers will do their utmost to bark on any extensive naval scheme, and if they have their way the mission of Hon. J. D. Hazen to England next month will be with a view to giving a pretext for further delay in dealing with the question of Canada's effective contribution to the imperial naval defence rather than with a view to evolving a plan for the larger policy of "an adequate contribution," which the imperialistic wing of the party demand.

It is significant that Hon. P. Pelletier has not yet returned to Ottawa after the rout of the conservative candidate in his district by the liberal provincial candidates. The ante-election declaration of the postmaster-general that he would resign his portfolio if Mr. Delage, the liberal candidate in Quebec county, Mr. Pelletier's constituency, were elected is not regarded here as likely to be carried out. It is known, however, that Mr. Pelletier is decidedly worried over the political outlook in his district, and it would not be surprising if he were to accept before the next election comes on safe harbor on the bench. Meanwhile he is seeking to placate his recalcitrant supporters by continuing to freely use the axe on liberal postmasters and other office-holders to make places for party friends.

Col. Watterson Says That President Taft Should Not Have Answered Him.

Louisville, Ky., May 23.—Colonel Watterson, in the Courier-Journal, says to-day that Roosevelt's success in Ohio is an invocation to civil war. He intimates that the United States is losing its democracy, that Roosevelt has assumed the role of dictator, with the idea of a life tenure in an executive office. Col. Watterson calls Roosevelt a frenzied paranoiac and madman, whose bawling up and down the land, a good, clean gentleman like President Taft should have answered.

Colonel Watterson is regarded in Europe as perhaps the cleverest editorial writer in America, as he is certainly the best known. He is a democrat and fought for the south in the civil war, being chief scout in General Johnson's army. He is bitterly harsh to Bryan as well as Roosevelt, and is also an opponent of Woodrow Wilson.

Pressing Mr. Hanna.

Ottawa, May 23.—Hon. Frank Cochrane, minister of railways left last night for Toronto, and will confer with Sir James Whitney. It is emphatically stated here on excellent authority that Mr. Cochrane will press Mr. Hanna to accept the position of chairman of the railway commission.

Accident to Locomotive—Engineer and Fireman Injured.

London, Ont., May 23.—The Pere Marquette no. 304, running light from Chatham, to Sarnia, left the rails near Courtright, and with Engineer Williams and Fireman Russell, both of Chatham in it, plunged down a 15-foot embankment, turning over twice, while the tender rolled down the other side. Fireman Russell was horribly burned about the face, neck and arms by red-hot coals. Engineer Williams escaped with a few slight burns and a general shaking up. The cause of the accident was a spreading rail.

Vancouver's Moral Reform.

Vancouver, B.C., May 23.—After a lively debate lasting two hours, the police commissioners declined to accede to the request of a delegation of two hundred clergymen, members of the Moral Reform Association, and the Good Government League, to close the segregated district at once. The delegation severely criticized the attitude of the commissioners and the charge of one clergyman that the commissioners had tied the hands of the police was flatly denied by Mayor Findlay, who declared that the chief of police had been instructed to stamp out the social evil. But the commissioners took the view that it was their duty to first eliminate such vice sections where it was alleged to exist, before entering upon a campaign against the so-called restricted district, which has never been given official recognition by the council and in which the sale of liquor has been prohibited under heavy penalty.

Had Hand Cut Off.

Smith's Falls, Ont., May 23.—John McCoy, of this place, while walking along the C.P.R. tracks here, last night, was overtaken by a freight train and in stepping aside he tripped before he could clear the rails his left hand was cut off by the train. He was taken to St. Francis hospital, where it was found necessary to amputate the arm at the shoulder.

All the barber shops will be open to-night until eleven o'clock and will be closed all day to-morrow.

TO APPOINT INSPECTORS

To Guard Against Losses to the Dairymen.

Ottawa, May 23.—Largely through the efforts that Dr. J. W. Edwards, M.P. for Frontenac, made in the house of commons, the government will make a change that will benefit the dairy industries and interests in Kingston, Frontenac and Canada generally. Hon. Martin Burrell, minister of agriculture, is working on a comprehensive plan for the greater protection of Ontario and Quebec farmers.

For some years there have been complaints on the part of dairymen, that owing to the system of weighing cheese and other dairy products shipped at the port of Montreal thousands of dollars was being lost to shippers. Hon. Sydney Fisher was asked to investigate the complaint and it came up again last year in the house.

Hon. Mr. Burrell is now giving the matter his attention and hopes to eliminate any evil that may exist. A number of new inspectors will also be appointed to guard against further losses being sustained by farmers through the failure of commissioning merchants. Precautions will be taken to prevent further losses.

FINANCIAL MEN PUZZLED

Over the Activity of Standard Oil Company.

New York, May 23.—Financial men in this city are puzzled over the activity of the Standard Oil company at Sarnia, Canada. It is not clear how the company will avoid the effect of the manufacture of dissolution by locating its headquarters in Canada, so far as its American business is concerned at least. The fact is that its "dissolution" has been the joke of Wall street, and the position of the Standard "interests" never seemed more secure than under the new order.

ROOSEVELT IS CALLED A FRENZIED MADMAN

Col. Watterson Says That President Taft Should Not Have Answered Him.

Louisville, Ky., May 23.—Colonel Watterson, in the Courier-Journal, says to-day that Roosevelt's success in Ohio is an invocation to civil war. He intimates that the United States is losing its democracy, that Roosevelt has assumed the role of dictator, with the idea of a life tenure in an executive office. Col. Watterson calls Roosevelt a frenzied paranoiac and madman, whose bawling up and down the land, a good, clean gentleman like President Taft should have answered.

Colonel Watterson is regarded in Europe as perhaps the cleverest editorial writer in America, as he is certainly the best known. He is a democrat and fought for the south in the civil war, being chief scout in General Johnson's army. He is bitterly harsh to Bryan as well as Roosevelt, and is also an opponent of Woodrow Wilson.

Pressing Mr. Hanna.

Ottawa, May 23.—Hon. Frank Cochrane, minister of railways left last night for Toronto, and will confer with Sir James Whitney. It is emphatically stated here on excellent authority that Mr. Cochrane will press Mr. Hanna to accept the position of chairman of the railway commission.

ENGLAND AGAIN FACES AN ALARMING STRIKE

The Dock Workers and Lightermen Ordered Out.

C. H. HAMILTON.

THE ASQUITH CABINET

CONSIDERS THE SITUATION IS QUITE SERIOUS.

The Trouble Arose Because of the Refusal of One Man to Join the Union—The London Times' Pessimistic Picture.

London, Eng., May 24.—Dock workers and lightermen have been ordered out on strike to-night in this port. The strike is expected to spread to other ports to-morrow. The original cause of the strike was the fact that a man on one of the docks here refused to join the union, and his fellow-dockmen declined to work with him. Premier Asquith and his cabinet are considering the situation, and it is agreed it is serious.

THE ASQUITH CABINET

CONSIDERS THE SITUATION IS QUITE SERIOUS.

The Trouble Arose Because of the Refusal of One Man to Join the Union—The London Times' Pessimistic Picture.

London, Eng., May 24.—Dock workers and lightermen have been ordered out on strike to-night in this port. The strike is expected to spread to other ports to-morrow. The original cause of the strike was the fact that a man on one of the docks here refused to join the union, and his fellow-dockmen declined to work with him. Premier Asquith and his cabinet are considering the situation, and it is agreed it is serious.

SHOT TO DEATH IN PRISON.

Salt Lake City, Utah, May 23.—Five rioters concealed behind a curtain, sent steel-nosed bullets into the heart of a blind-folded man as he sat in a chair at the state prison. Julia Sirmay, a murderer, was the target. He had selected death by shooting in preference to the gallows after his confession of the murder of Thomas Sarrick, a fourteen-year-old boy, whom he had shot while committing a daylight robbery. Up to last night Sirmay maintained that a fellow-robber had killed the lad. Then he confessed.

Pleads for Chauffeur.

New York, May 23.—While a seven-year-old boy lay pinned beneath the full weight of a taxicab, which had knocked him off his bicycle on the Middle West Side late yesterday, he pleaded with a threatening crowd not to harm the chauffeur. "It was my fault," said Joseph Burns, the injured boy. "Don't touch him. He was on the wrong side of the street and he could not help it."

To Reach the North Pole.

Montevideo, May 23.—Capt. Rolf Amundsen, the discoverer of the South Pole, who arrived here yesterday, announces his intention to start from San Francisco in March or April, 1913, on an expedition to the North Pole. He will have with him the same men who accompanied him on his last expedition.

Women's Nightdresses, 50c. Dutton's.

"Fresh seditz powders." Gibson's.

MARRIED.

BUCK-WILSON On Wednesday, May 22nd, 1912, by the Rev. T. W. Neal, pastor of St. Andrew's Church, to Agnes G. Wilson, Kingston, to Ernest J. Buck, of Bath, Ont.

DIED.

HUDON—At Peterboro, on May 22nd, 1912, Henri, youngest son of 22nd (tenant) Colonel J. A. G. Hudon, C.M.G., and Mrs. Hudson. Funeral private.

No flowers. A solemn requiem will be sung for the happy repose of his soul in St. Mary's Cathedral, on Friday, May 24th, at nine a.m. Friends are kindly invited to attend the mass.

MIDDLETON—in Toronto, on May 22nd, 1912, Catherine Middleton, daughter of the late Capt. Lewis Middleton, of this city. Funeral from outer station on arrival of express on Friday.
