"Brown, a-a-a-hem-Brown, say-let me see, Brown, editorial-Oh, yes, Brown, of The -, yes, yes, yes," said Sir James. "I suppos you use all your other names to DIS-INFECT the Brown, eh?"-Toronto

Harvesting In April. A news item that is unusual even mate and lines of work was sent out from High River, Alta., early in April. It ran as follows:

Threshing is again under way in the High River district, although progress so far is not very satisfacory owing to the fields being too soft to move the heavy threshing outfits The general opinion is that grain has wintered better than expected

The unusual spectacle of harvesting s crop in April is seen in this di trict, where several farmers are now engaged in cutting oats. The grain is soming out in fairly good shape. The small acreage ready for spring crops is resulting in many power plowing outfits being bought, several being recently unloaded here.

Just Hold the Naturally

Shaving with the GILLETTE is not a fine art, nor does it require skilled labor. You may be "no good with tools," yet you can shave yourself easily and well with the Gillette Safety Razor.

Hold it lightly, as illustrated, and it falls naturally into the right shaving position, blade edge just touching the skin. Then draw it across the face, not hoe fashion, but with the Angle Stroke shown, and the keen GILLETTE blade will cut smoothly in any direction—with the grain, across it, or against it.

If you want a light shave, or if your skin is tender, screw the handle tight.

If you want a close shave, loosen the handle about a quarter turn. This allows the blade to spring away from the guard a little and take more hold. Buy a GILLETTE and forget your shaving troubles.

Standard Sets, \$5.00. Pocket Editions, \$5.00 to \$6.00. Combination Sets, \$6.50 up. At your Druggist's, Jeweler's or Hardware Dealer's,
