## ONTARIO IN FAVOR

OF A UNIFORM MARRIAGE LAW FOR CANADA.

So Edward Bayley, K.C., representing Ontario Attorney-General, declared before the Supreme Court. Every Housekeeper is Interested.

Ottawa, May 30.—The government of the province of Ontario is in favor of a uniform marriage law for the whole dominion of Canada. This was the important statement made by counsel for this province in the argument in the Lancaster bill case before the supreme court this morning.

"While of the opinion that it is difficult to give an unqualified yes or no on any one of the questions submitted in this case," said Edward Bayley, K.C., representing the attorney-general of Ontario, "the province of Ontario favors a uniform general marriage law for the dominion if it is so framed that the legislative authorities of the provinces in relation to the solemnization of marriage are not thereby violated."

"The province of Ontario considers that an act of parliament, which renders valid throughout the dominion marriages performed in a province by persons legally authorized by such province, would have the effect of consolidating and perfecting the provincial authority throughout Canada, and on this view the passing of such an act by the dominion parliament would rather enlarge than encroach upon the provincial jurisdiction."

A definite statement of Ontario's position in the matter was something which had been anxiously awaited for some time.

## TO BE NO RECIPROCITY IN PRINT PAPER

U. S. Senate Imposes Duty of 2 per Cent—Implements on Free List.

Washington, May 30.—After devoting the day largely to the consideration of amendments to the iron and steel bill the senate adjourned on Wednesday night without reaching a final vote on that measure. Senator Herburn held the floor upon adjournment and the understanding is that when he concludes a vote will be taken.

The amendments adopted place a long list of farm implements on the free list; repeal the Canadian reciprocity law and provide for a duty of 2 per cent on print paper and reduce the duty on pig iron to 6 per cent, and that on ferro-silicon to 10 per cent. There was a prolonged and sharp controversy over an amendment by Senator Pomeroy of Ohio, to take machine tools from the free list, as the house provided, and fix a duty of 20 per cent on them. This was defeated by 43 to 18.

Senator Gronn first proposed the repeal of all the reciprocity laws except the second section which permits the free admission of print paper from Canada.

Senator Gallagher moved as an amendment the repeal of the paper provision. This suggestion was accepted by Mr. Gronn, who withdrew his own amendment in its favor. The effect of the success of the Gallagher amendment would have been to restore the Payne-Adrich rate of \$3.75 per ton on print paper and Senator Cummins declared his unwillingness to go so far. He then proposed a rate of 2 per cent on print paper, which Mr. Gallagher accepted. The vote on this amendment stood 37 to 27.

Senator Cummins stated positively that if it should become a law, the provision would have the effect of placing a duty of 2 per cent on paper from all other countries as well as on that from Canada.

## TO LEAVE TURKEY.

Those Exempt From Expulsion Order to be Recalled.

Rome, May 30.—The government has decided to recall to Italy immediately all Italians in Turkey who are exempt from the expulsion order. The reason given is alternatively stated that massacres are feared when in the near future Italy begins active operations against Turkey, naval operations being in abeyance until the exodus is complete, or because the exempted persons are skilled artificers or others who are connected in important ways in aiding Turkish industries whose withdrawal might cripple the Porte.

## THE CHURCH OF ENGLAND

Was Never Established in Canada, Says Council.

Ottawa, May 30.—That the conquest of Quebec by the English brought no change in the marriage laws of the province, was the core of the argument submitted to the supreme court by Mr. Mignault, K.C., who is opposing the Lancaster marriage bill. Fortified by a formidable heap of legal documents, and quotations from eminent authorities, Mr. Mignault contended that the Church of England was never established in Canada.

## Blythe Gets Three Years.

Niagara Falls, May 30.—Samuel Blythe, arrested early last Sunday morning, following an attempt to set fire to the home of Wm. Blankstein at 12 Morrison street, where his wife lives, was found guilty of attempted arson before Magistrate Fraser and was sentenced to three years in penitentiary.

A woman's mind is continually running to clothes. If she isn't talking through her hat she's laughing in her sleeve. Remarkable favor of Port Perry but-ter. All grocers sell it.

## SISTERS ATTEMPT SUICIDE.

One of Them Rescued by Life-savers at San Francisco.

San Francisco, Cal., May 30.—The life-saving crew on the beach at Golden Gate park interrupted what was probably an attempted double suicide on the part of two sisters, Tillie and Kitty Anderson.

Tillie was dead when the life-savers dragged the bodies from the surf. Kitty was rushed to the emergency hospital, and probably will recover. Kitty, when resuscitated, refused to give any explanation as to how they came to be in the surf. According to the police, the girls had made a compact to end their lives.

## MUST READ UP ON SIN.

Woman Bequeaths \$5 for Daughter to Buy Book.

Los Angeles, Cal., May 30.—"To my daughter, Edith Alice Ogilby Tiambe Druse, living in the Champs Elysees, Paris, I bequeath \$5 with which she must purchase the work of a reliable author on the wages of sin and in-gratitude."

The above paragraph contained in the will of Mrs. Louise E. Warner, on file today, revealed that the once prominent Los Angeles woman was never reconciled to her daughter, who went abroad to live. Her two other daughters receive the bulk of the \$250,000 estate.

## COOL SWINDLER AT VATICAN.

Robs Cardinal Merry del Val and Other Officials.

Rome, May 30.—Count Orsi was arrested on the charge of swindling Cardinal Merry del Val, the papal secretary of state, other high officials of the vatican, and members of the Italian nobility. The count declared himself to be a partner of John D. Rockefeller. He promised great returns on capital invested in his schemes. He secured 15,000 lire (83,000) from Cardinal Merry del Val. The cardinal, it is reported, had the count presented to the pope.

## CORDIAL RELATIONS.

To be Sought With the Railway Employees.

Ottawa, May 30.—Hon. T. W. Crothers, minister of labor, has definite assurance that the new management of the C.T.R. will give employment to all the men engaged in the strike of April, not heretofore taken back, whose cases were favorably reported by Judge Barron and who may apply to their local superintendent for work. The best possible will be done for them, as the new management is disposed to establish the most friendly relations with its employees.

## LEHIGH'S HEAVY DROP.

Coal Suspension Sent Monthly Freight Revenue Down.

Philadelphia, Pa., May 30.—The recent suspension of work in the anthracite coal mines is reflected in the monthly statement of the Lehigh Valley Railroad company, for the month of April, just made public here. The freight revenue of the company for the month was \$1,462,763, a decrease of \$1,266,163, compared with the same month in 1911. The operating income was \$40,311, a decrease of \$1,244,774.

## BROKE 100-MILE RECORD.

Auto Car Covers That Distance in 1.13.04.

Indianapolis, Ind., May 30.—All speedway motor records for one hundred miles were broken to-day, here, when Ralph DePalma, driving a Mercedes car in a five-hundred-mile race, covered the first hundred miles in one hour thirteen minutes and one second. The race is still proceeding, with DePalma leading at one o'clock.

## Customs \$100,000,000 a Year.

Ottawa, Ont., May 30.—The month of May, just closing, will establish a new record for customs receipts. To date the official returns received at the department of customs show collection of \$8,659,444, as compared with \$6,547,572 for the corresponding period last year. When the final returns are in for the present month, it is confidently expected the figures will turn the \$9,000,000 mark, or an increase over the corresponding month of 1911 of \$2,500,000. At the present rate of progress the revenue for the fiscal year from customs alone will be well over \$100,000,000.

## Lockmaster for Fifty-three Years.

Cornwall, May 30.—Daniel Gillespie, one of Cornwall's best known citizens, died on Thursday afternoon, aged eighty-five years. He was a native of county Tyrone, Ireland, but came to Canada when very young. For fifty-three years he was employed as lockmaster on the Cornwall canal.

## Killed by Fall.

Duluth, Minn., May 30.—John Corcoran, a wheelman on the steamer Mariposa, was accidentally killed by falling from the spar deck into the hold, a distance of twenty-five feet. His parents live at St. Mary's, Newfoundland. Corcoran was about twenty-eight years old, and is said to have been unmarried.

## Joseph Gibson Ill.

Ingersoll, May 30.—Postmaster Joseph Gibson suffered a weak spell which prostrated him. The spell was due to overwork of the last few months. Mr. Gibson is gradually regaining his strength and hopes to be around again in a few days.

The barns belonging to Robert Foster, of Charleston, were destroyed with their contents, by fire, on Tuesday afternoon. Loss over \$1,000.

## STAR BOARDER SPEAKS

SAYS A FEW WORDS ABOUT GREENS AS FOOD.

Landlady's Solicitude Brings Down Upon Her Head a Well-merited Rebuke—Uses of Strawberry Shortcake Shown.

By Walt Mason.

"I don't think again," exclaimed the star boarder with mournful resignation. "The same yesterday, today and forever."  
"You should be glad to have greens," protested the landlady, sternly. "At this season a vegetable diet is better than a course in a sanitarium. All the doctors say that there is nothing better than boiled vegetables."  
"Your enthusiasm for greens as a curative agent is admirable, Mrs. Jiggers," said the star boarder, "but you should not lose sight of the fact that you are conducting a family boarding-house, not a hospital. It seems to me that before prescribing for your patients you should have some evidence that they are ill. You have not looked at my tongue or felt my pulse or tested my digestive apparatus with a tuning fork, yet I find that you have made my health your personal concern and are prescribing greens. I appreciate your solicitude, my dear Mrs. Jiggers, but I assure you that my physical condition is excellent and you may change my diet at once and give me solid food again."  
"Your zealous indorsement of greens has a depressing effect upon me in more ways than one. It makes me question the existence of absolute honesty in your resort to me, Mrs. Jiggers, is willing to allow your financial interests to govern your judgment, then we may despair of absolute integrity. I can't help feeling that you recommend greens so strongly, not because they are a specific for that tired feeling, distress after eating and ringing noises in the shoulder blades, but because they cost you next to nothing."  
"The laws of this community are strewn with dandelions and kindred weeds, and the lawn owners employ masterless boys to dig them up and carry them away; the boys convey them to the rare and radiant ladies who run boarding houses and sell them for a few hopeless-the-basketful, thus gaining profit both coming and going. In all the world there is nothing cheaper than the materials for a dinner of greed. Even baked hay is expensive by comparison."  
"It is well for the boys to earn sundry farthings in this manner; it is well for the lawn owners to have the dandelions spoiled; it would be well if the landlords would hold the dandelions and dish them up, a pallid mess, to their famished boarders; if these landladies would be open and honest, if they would say: 'We are dishing up these ghastly greens every day, not because they are fit to eat, but because they are the cheapest things we know of, and it behooves us to get ahead of the game whenever possible.'"  
"If you would adopt that course, my dear Mrs. Jiggers, we'd respect you and sympathize with you, and would swallow our greens with a firm determination to look cheerful. But, alas! you resort to the cheapest of substitutes. You pretend that you are greatly worried over our health; you fear that we are going into a decline, and you are anxious to rescue us from untimely graves by loading us to the gunks with greens."  
"I have boarded here many moons, Mrs. Jiggers, and I don't recall that you ever waxed enthusiastic over the remedial virtues of fried oysters; yet many learned and able physicians hold that fried oysters are an excellent tonic, strengthening the nervous system and rejuvenating the liver; I have never heard you sing the praises of canvas-back duck, yet Sir Astley Cooper and many other distinguished physicians of the old and new world unite in saying that there is nothing better for digestive derangements than this brand of food. Any true scientist will tell you that when your boarders are suffering from insomnia or other maladies there is nothing better than porterhouse steak with mussel shells; but a great deal of water has run under the bridges since you nailed a word in favor of that combination."  
"Be honest, Mrs. Jiggers; be candid and straightforward, and retain the confidence and admiration of your boarders. Don't be like the druggist on the corner, who talked for three hours to sell me a new brand of cigar. He makes half a cent more on that cigar than on any other and is willing to poison his customers for that small rake-off."  
"Which reminds me that I was reading in a standard medical work last evening that the best thing people can get at this season, when the blood is sluggish and short of red corpuscles, is strawberry shortcake with plenty of cream and sugar."

## A FATAL BIRD HUNT.

Berwick Man Wanted to Save His Bees.

Ottawa, May 30.—James William Hatt, postmaster of the Berwick post office, is dead, as the result of accidentally shooting himself, Tuesday morning, in trying to exterminate some birds that were playing havoc with his apiary and eating his bees. He died at the general hospital.

## Deceased Got up at Five o'clock, and, Taking his Rifle, Went out on his Farm to get a few shots at the birds. In stooping down to aim, the gun in some manner exploded. The bullet pierced his lungs.

## Seeks Divorce From Davis.

Chicago, May 30.—Richard Hart Davis, author, playwright, and war correspondent, was sued for divorce in the superior court by Mrs. Cecil Clark Davis, who alleges desertion.

Mrs. Davis, a daughter of S. McI. Clark, of Chicago, was married to Davis on April 4th, 1899, at Marion, Mass., after a romantic courtship. She recently arrived here preparatory to bringing the suit. Desertion in May, 1910, is stated on the ground for the action.

## That father should have a care for himself, provided he expects his son to follow his example.

"Few cream brinks," Gibson's.
