Hon. F. D. Monk, Minister of Public Works, is in Kingston—Government Thinks it Has Assumed a "Gold Brick."

Hon. F. D. Monk, minister of public works, arrived in the city about eleven o'clock, Saturday morning, on the steamer Lady Grey, and was driven to the Frontenac Hotel. The minister is on a tour of inspection of works of his department, accompanied by his son and daughter. He was met here by Mr. Sing, engineer of the department at Ottawa.

Mr. Monk, in the parlor at the hotel, talked freely with a Whig representative, of the harbor improvements to be made, and came to this city, for the first time to look over the proposed harbor improvements, and chiefly the bridge. He had a fine view when coming into the harbor on the Lady Grey, from Prescott, in the morning.

Mr. Monk said that a point had "cropped" up which would handicap operations in the government building the new bridge. He had understood until lately, from the delegations that had waited on the Government at Ottawa, that the Cataract bridge was used almost exclusively for military purposes, for the accommodation of the Royal Military College, the R.C. H.A., and the annual camp. That it is used as a public highway places the department in a very difficult position with regard to bearing the expense of the new structure. Mr. Monk said that, of course, some one would have to help bear the expense.

Mr. Monk was driven to the fort hill, Saturday afternoon, where he had a good view of the harbor, and the improvements outlined. At noon he had a conference with leading conservatives, and left at four o'clock up the Rideau river.

**DUNCAN SAID NESBITT  
HAD BEEN WARNED**

It Took Quite a Time Before the Necessary Warrant Was Issued.

Toronto, June 29.—At the Farmers' Bank investigation, Inspector of Detectives Duncan told of the long delay in the issuance of the warrant for Dr. Beattie Nesbitt. He had applied for the warrant two weeks before the escape of Nesbitt and been refused it by Crown Attorney Corley. Finally he took the matter up with Chief of Police Grassett and he laid it before the police board. According to Duncan, Mr. Corley declared that he, and he alone, was the one to decide when the warrants should be issued. Finally the inspector consulted Mr. Cairwright, deputy-attorney-general, and secured a warrant and started after Nesbitt. When he arrived at the island in Muskoka all he could see was the doctor's footprints in the snow. It was after he returned from this trip that he remarked to the reporters that he had been sent on a wild goose chase, as Nesbitt had been warned.

**TWO TRAINS COLLIDED**

THE CREWS, HAPPILY, WERE NOT INJURED.

The Damage to Rolling Stock Will be Considerable—The Track on One Side Clear and Traffic Not Stopped.

Cornwall, June 29.—About one o'clock this morning two freight trains collided on the Grand Trunk, a short distance west of here. The trains were being drawn by engines 418 and 1,235. No. 1,235's train was waiting orders to enter the station, having been stalled east of the semaphore.

She was in charge of Conductor F. Browning, of Montreal, and Engineer C. Bull, of Brockville. Another train also east-bound, drawn by engine 418, in charge of Conductor T. Clark and Engineer Goodyear, saw the train ahead, and had plenty of time to stop, and the brakes were applied. The immense weight of the train refused to submit to the brakes, and she glided along the rails and crashed into the cab, completely telescoping it.

The impact derailed four cars and damaged two others, as well as causing considerable damage to engine 418, and one dead engine on the front train. Fireman Charles McAwen was in charge of two dead engines, which were going to Montreal, and had a narrow escape. He was on the telescoped cab and had to jump to save himself.

Both crews escaped uninjured. Fortunately, the passing track was clear and it was used until after the wrecking train arrived from Montreal. Traffic was delayed but very little. The damage to rolling stock will be considerable.

**Childhood Dangers.**

No symptoms that indicate any of the ailments of childhood should be allowed to pass without prompt attention. The little ailment may soon become a serious one and, perhaps, a little life passes out. If Baby's Own Tablets are kept in the house minor troubles can be promptly cured and serious ones averted. The Tablets are guaranteed absolutely safe and can be given to the newborn babe as well as the growing child. Mrs. Arthur Drapen, Mont Carmel, Que., says: "I can give Baby's Own Tablets to my little one without fear, well knowing the beneficial results that will follow their use." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**LADS STOLE TROUSERS.**

In Broad Daylight From Forrest's King Street Store.

Two lads of about fifteen years of age made a daring haul when they walked up to the store of J. P. Forrest, King street, at 10.15 o'clock on Saturday morning and made off with two pairs of trousers. They got away down King street toward the Hay Market, and were out of sight when a lady, who had witnessed the theft, notified the proprietor. As the store was full of customers and the culprits had made their escape, Mr. Forrest did not try to follow them up. The police were notified, however, and it is understood that they have a clue and are following up the sneak thieves. The value of the stolen goods was about five dollars.
